

CAPTURE EVERY ENCOUNTER

THE V300 BODY-WORN VIDEO SOLUTION

ENHANCE SAFETY, TRANSPARENCY AND COMMUNITY TRUST

Police officers go above and beyond the call of duty. They need equipment that does the same. Built specifically for law enforcement, the V300 continuous-operation body-worn camera is ready to go when you are with its detachable battery, 128GB of storage space, wireless uploading and Record-after-the-Fact® technology.

Integrated with the technology you use day in and day out to enhance your focus, and combined with powerful device and evidence management software, the V300 body-worn video solution enables you to capture every encounter.

KEEP GOING. YOUR CAMERA WILL TOO.

In a world full of cellphones and connected video devices, sometimes the only reliable witness to an incident is one you carry with you each day. Make sure it's always ready. The V300 continuous operation body-worn camera remains operational well beyond a 12-hour shift, capturing crystal clear video and audio of every encounter from the perspective that matters most.

DETACHABLE BATTERY

Easily change the V300's rechargeable battery while on the go. Keep an extra battery at the ready for unexpectedly long shifts, extra shifts or part-time jobs where a body-worn camera is required.

BUILT-IN DISPLAY

A clear LCD display on the top of the camera allows easy viewing of device status.

RUGGED & DURABLE

Tested ruthlessly to survive in a public safety environment, the V300 is shockproof, and waterproof to IP67.

AUTOMATIC WIRELESS UPLOADING

Send critical video back to headquarters while still in the field. When docked in the car, the V300 body camera uploads to cloud-based or on-premise evidence management systems via wireless networks like LTE and FirstNet, anytime, anywhere.

NATURAL FIELD OF VIEW

Eliminate the fisheye effect from wide-angle lenses that warps video footage. Our distortion-correction technology provides clear and complete video evidence.

ABSOLUTE ENCRYPTION

Elevate your data security with encryption at rest and in transit. The V300 guards your data and your reputation.

RECORD-AFTER-THE-FACT

Go back in time and capture video from events days after they happened, even when a recording wasn't automatically triggered or initiated by the officer.

EXPERIENCE REAL-TIME COLLABORATION BETWEEN DEVICES

Seamlessly integrate footage captured on V300 body-worn cameras with an M500 or WatchGuard 4RE in-car video system in the field, to gather indisputable evidence of any incident. Protect officers from the moment they leave the vehicle with a body-worn camera designed for shift-long wear, immediate response and in-field offload.

RADIO INTEGRATION

Reduce the officer's workload in stressful moments. When paired with APX radios via Bluetooth®, the V300 will automatically start a recording when the radio enters emergency mode, either from an officer pressing the emergency button on the radio, or from a radio-initiated "man down" event.

IN-CAR VIDEO SYSTEM INTEGRATION

Seamlessly integrate footage captured on V300 body-worn cameras with your M500 or WatchGuard 4RE in-car video system in the field, to gather indisputable evidence of any incident. Protect officers from the moment they leave the vehicle with a body-worn camera designed for shift-long wear, immediate response and in-field offload.

VEHICLE INTEGRATION

Even if you don't have a M500 or WatchGuard 4RE in-car video system, you can integrate the V300 with your vehicle to trigger a recording automatically, for example when a door is opened, a speed is exceeded, or the lights and siren are activated.

SMARTPHONE INTEGRATION

Complete your desk jobs while you're still out on patrol. The SmartControl companion app enhances your V300 body camera with a powerful toolset. Using your Android™ smartphone, you can review and tag videos, change camera settings, and view live video. Stay efficient with SmartControl.

VIDEOMANAGER

DEVICE & VIDEO MANAGEMENT MADE EASY

Managing a body-worn video program doesn't have to be hard. VideoManager provides the flexibility you need to easily administer cameras and efficiently store, prepare and share recorded footage — no matter the size of your deployment or how sophisticated you want, or need, your program to be.

KEY FEATURES

CUSTOMIZE CAMERA BEHAVIOR

Tailor your devices to your organization — so when they're needed to capture vital evidence, it's even easier for your team to use them in critical moments.

SECURELY PROCESS MOBILE VIDEO

Designed to maintain a video's chain of custody from the moment it enters the system, VideoManager natively stores and encrypts the media created by your V300 body-worn cameras.

INTERFACE & INTEGRATE

Get the most from your cameras. On VideoManager, you can create recording groups with our in-car video system for simultaneous recording and playback.

MONITOR & UPGRADE

Keep things running with minimal intervention. Every aspect of a camera's workflow — from assigning it to a user, to upgrading its firmware — can be completed easily on VideoManager.

COMMANDCENTRAL EVIDENCE

MANAGE YOUR EVIDENCE FOR ACTIVE CASES

Managing the influx of video, images, audio and other content from a variety of different systems can cause a lot of strain for your team. But now, more than ever, this content is vital to accomplishing the right criminal justice outcomes. CommandCentral Evidence is a unified evidence management solution that enables you to aggregate and intelligently organize all of your agency's digital content in one place. As part of CommandCentral, the industry's most integrated end-to-end public safety software suite, CommandCentral Evidence is powered by our Platform that unifies voice, video, data and analytics – ensuring information moves faster and operations are more effective.

KEY FEATURES

CASE CORRELATION

Intelligent correlation to computer-aided dispatch (CAD) and records management system (RMS) data facilitates faster review of case evidence, alleviating the burden of manually compiling evidence.

UNIFIED SEARCH

Centralizing agency data makes it easier to find the information you need with a Google-like, free text search. You can even save frequent searches so they dynamically update with any new content.

FRAME-BY-FRAME ANALYSIS

Step through video evidence frame-by-frame with granular playback control. You can control the speed of the video, step forward or backward one frame, and preview thumbnails along the video player bar to easily locate the exact video frame you need.

SYNCHRONIZED PLAYBACK

Automatically link video and audio captured by the integrated in-car and body camera system on scene, and then synchronize playback so recorded video and audio from multiple devices can be seen and heard simultaneously.

NATIVE REDACTION

Automated, intuitive redaction, available directly within CommandCentral, helps quickly protect personally identifiable information, without having to leave the application.

VIDEO TRANSCRIPTION

Easily find the information, object, vehicle or person you are looking for with automated video transcription. The video is viewable alongside the transcription, and clicking on sections of the transcript will take you to the corresponding section of the video. The transcript is searchable, and can be downloaded for court use, saving valuable time.

CASE SHARING

Quickly and securely share case content with the community, other agencies and prosecutors, as well as within your own agency. Share select media or the entire case with a case specific link via email. Download content and audit logs to make use of the systems you already have in place. Or make use of our dedicated prosecutor experience, so judicial partners can access all content shared with them – even from multiple agencies – from one, secure location.

BODY CAMERA USAGE INSIGHTS

Dive deeper into your body camera program with CommandCentral Reporting's built-in reports and dashboards. These reports provide insight into body camera usage and adoption, such as average video length and volume, policy compliance, officer behavioral changes and storage consumption to help estimate future storage needs.

GET THE MOST OUT OF YOUR SOLUTION

SERVICES THAT KEEP YOUR SYSTEM WORKING SO YOU CAN KEEP MOVING

INSTALLATION SERVICES

Ensure peak system performance with our site and remote installations services, such as project management, installation, configuration, inspection and testing.

TRAINING & SUPPORT

Maximize operational efficiency with on-site and online training of officers and system administrators. When you need technical support, our certified engineers use the right escalation procedures to bring you a prompt resolution.

HARDWARE WARRANTY

Maintain efficiency and reliability with a one, three or five-year hardware warranty plan with the option to add “no-fault” coverage at a premium.

CAMERA FIRMWARE UPDATES

We are committed to the continual testing and improvement of our firmware. As new revisions become available, these updates will be made available to your agency; fees may apply depending on your licensing agreement.

SOFTWARE MANAGEMENT & MAINTENANCE

With VideoManager software in the cloud, enjoy automatic updates that push new features to you hassle-free. We also offer support for updates to on-prem software deployments.

CAMERA ACCESSORIES FOR A SOLUTION THAT WORKS THE WAY YOU DO

WGA00640

USB DOCKING BASE

Officers working remotely can easily offload video footage from their camera by plugging the USB docking base into their computer. Upload requires the V300 USB Service for Windows PC, which can be downloaded from the USB dock webpage.

WGA00635

WiFi CAMERA DOCKING BASE

Mounted in your patrol vehicle, this dock contains a WiFi access point to connect body-worn cameras and in-car cameras in a group recording network. Placing a camera into the dock will also upload content through the car's network.

WGA00650

ETHERNET TRANSFER STATION

A high-capacity charging and offload solution, this dock allows eight cameras and batteries to be charged simultaneously, with a fast ethernet connection for rapid uploading of content. Multiple transfer stations can be interconnected.

WGP02798

MAGNETIC CAMERA MOUNT

Your camera needs to be stable and securely mounted to be effective. This mount uses powerful magnets and quick-release levers to grip your uniform tightly.

WGP02636

MOLLE CAMERA MOUNT

This mount uses 2 adjacent loops across 2 rows of MOLLE webbing to hold your body-worn camera absolutely securely to your uniform.

WGP02614

SPARE CAMERA BATTERY

Extra shift? Overtime? No problem. Your body-worn camera has a detachable battery that can be changed in the field, giving virtually unlimited run-time. Take a spare battery wherever you go, so you're always ready for the unexpected.

HEAVY JACKET MAGNETIC MOUNT

Magnetic mount that can be attached to heavier clothing. The Heavy Jacket Magnetic Mount has stronger magnets and more space between them to fit over a jacket or coat zipper area.

HEAVY JACKET CLIP

The Heavy Jacket Clip is rotatable with a wide clip bite and strong clip spring so that it can attach securely to a heavy jacket pocket or zipper area.

Your officers need flexible solutions that can operate the way they do. The V300 continuous operation body-worn camera delivers ruggedness, endurance, and real-time integration with critical law enforcement technologies. Combined with streamlined device and evidence management software, it delivers clear video evidence to enhance safety, transparency and community trust. The V300 body-worn video solution is ready to go above and beyond the call of duty.
