

CSA APPROVED

XPR 7550 IS AND XPR 7580e IS ACCESSORIES

From the drilling platform to the oil refinery, you deal with extremes – flammable gases, combustible dust, high-decibel noise and other hazards. When your job demands the most of you, shouldn't you demand the most of your radio and accessories?

With the new CSA157-certified MOTOTRBO radio, you're safer, tougher and more productive. The XPR 7550 IS and XPR 7580e IS are designed for the skilled professional who requires maximum protection with an Intrinsically Safe radio.

To extend the capabilities of your radios, pair it with a Motorola CSA certified accessory. While most accessories can't take harsh punishment or perform under pressure, we design accessories that do. That's why it's critical to only use the CSA accessories certified with your XPR 7550 IS and XPR7580e IS radios.

INDUSTRIAL NOISE CANCELING RSM

Unleash the power of Motorola's Industrial Noise Canceling (INC) RSM and be heard in extremely noisy, dirty and difficult environments. An innovative dual-microphone design suppresses background noise so you can hear and be heard. Plus, the large 1-watt speaker delivers the loudest, clearest audio available – up to 25% more than other MOTOTRBO RSMs – so you can hear above high noise levels.

NNTN8382*
IMPRES INC Remote Speaker
Microphone, IP57 Submersible

NNTN8383*
IMPRES INC Remote Speaker
Microphone with threaded 3.5mm
audio jack, IP54

RECEIVE-ONLY EARPIECE FOR INC RSM

This receive-only earpiece is comfortable for all day wear and provides private communication. It features a 3.5 mm threaded connector and is designed for use with the INC Remote Speaker Microphone, NNTN8383.

RLN5313
One Wire Earpiece with
Clear Acoustic Tube, Black

*INC RSM (NNTN8382 or NNTN8383) when connected to the XPR 7550 IS and XPR 7580e IS CSA radio should only be used in digital mode.

IMPRES™ CSA REMOTE SPEAKER MICROPHONES

IMPRES technology provides superior audio by suppressing ambient noise, improving voice intelligibility and amplifying quiet transmissions. Windporting offers exceptional audio quality and performance, especially in windy and wet conditions. For indoor environments with loud machines and other background noise, Noise Cancelling acoustics provide exceptional audio performance.

PMMN4067
IMPRES Windporting RSM with volume switch and emergency button, IP64

PMMN4050
IMPRES Noise Cancelling RSM with 3.5 mm audio jack, IP54

RECEIVE-ONLY EARPIECES FOR IMPRES RSM

These receive-only earpieces are comfortable for all day wear and provide private communication. They feature a 3.5 mm connector and are designed for use with the IMPRES Remote Speaker Microphone with audio jack.

HEAVY DUTY HEADSETS

MOTOROLA HEAVY-DUTY HEADSETS

Motorola Heavy-Duty Headsets have been optimized and certified to meet the performance of your Motorola radio. These headsets protect your hearing and improve communication in loud environments. The variety of styles allows you to customize your solution in virtually every situation.

RMN4054
Receive-only dual-muff heavy-duty headset, designed for use with the IMPRES RSM.

PMLN5275
Dual-muff Behind-the-head Heavy Duty Headset with 24dB noise reduction rating.

PELTOR HEAVY-DUTY HEADSET AND PUSH-TO-TALK ADAPTER

3M™ Peltor™ Heavy-Duty Headsets have been optimized and certified with your XPR 7550 IS or XPR7580e IS radio. Designed for use with helmets, they feature a noise-canceling boom microphone and require a Peltor push-to-talk adapter (not included).

NNTN8379¹
Peltor Heavy Duty Headset with helmet attachment and noise-cancelling boom microphone, 24dB noise reduction rating.

NNTN8380¹
Peltor Heavy Duty Headset with helmet attachment and noise-cancelling boom microphone, 26dB noise reduction rating.

NNTN8378²
Peltor Large Push-to-talk adapter

1. When used with NNTN8379 and NNTN8380 headsets, the radio units are only approved for Class I, Division I, Groups A, B, C and D operation.

2. NNTN8378 PTT adapter must be ordered with Peltor headsets NNTN8379 and NNTN8380.

IMPRES SMART ENERGY

Motorola's innovative IMPRES battery charging and reconditioning system streamlines and automates battery maintenance. IMPRES radio batteries and chargers communicate to help lengthen battery life so you can be assured your radio battery is ready when you are. Only IMPRES batteries can be charged 150 additional times as compared to a standard battery.
