

QUALITY. VALUE. JUST RIGHT.

EVX AND VX SERIES RADIOS

WHEN IT COMES TO CHOOSING A TWO-WAY RADIO FOR YOUR TEAM, YOU SHOULDN'T HAVE TO COMPROMISE. HIGH-POWERED DEVICES LOADED WITH EXPENSIVE FEATURES ARE GREAT, BUT THEY CAN CARRY A HEFTY PRICE. AT THE SAME TIME, SOME TEAMS REQUIRE MORE THAN JUST A BASIC, AFFORDABLE TWO-WAY RADIO.

EVX and VX Series radios deliver the essential capabilities your team needs and the value you demand. They also provide things you might not expect, such as dedicated, licensed communication and a wider coverage area. So whether your people are working in front of customers, out in the field, or on the factory floor, they can communicate more effectively and work more efficiently. All without breaking your budget.

DEDICATED PTT COMMUNICATION

Start by minimising distracting crosstalk in conversations by using licensed radios on a dedicated frequency. Expand your coverage across a wide-area or up multiple floors of a building. Experience proven audio quality so your employees are heard loud and clear. Rely on safety features that help keep workers protected in case of emergencies. And enjoy battery life that lasts an entire shift, reducing downtime and increasing productivity.

WHETHER YOU CHOOSE A DIGITAL RADIO FROM THE EVX SERIES OR AN ANALOGUE VX SERIES DEVICE, THERE'S ONE THAT'S PERFECT FOR YOUR TEAM. EVX AND VX SERIES RADIOS. MORE THAN JUST ESSENTIAL, THEY'RE JUST RIGHT.

GOODBYE CROSSTALK

YOUR BUSINESS CONVERSATIONS SHOULD STAY INSIDE YOUR BUSINESS.

EVX and VX Series radios are fully licensed, so you don't have to share a frequency with anyone nearby. Minimise crosstalk, and your people can focus on the task at hand.

BROADEN YOUR REACH

COVERAGE MATTERS WHEN YOU'RE TRYING TO RUN A SAFE, EFFICIENT BUSINESS.

With higher transmitting power, EVX and VX Series radios let you communicate over a wider area. Your team stays in touch and in control across a sprawling site, a spread out facility, or even up and down multiple floors of a building.

POWER THROUGH THE SHIFT

GO THE ENTIRE WORK SHIFT AND MORE WITHOUT HAVING TO RECHARGE.

With EVX and VX Series radios, your team won't worry about running out of power or losing the ability to communicate. Reduce downtime and increase safety with a radio you can rely on.

COME IN LOUD AND CLEAR

WITH PROVEN AUDIO PERFORMANCE, YOU CAN HEAR AND BE HEARD IN JUST ABOUT ANY SITUATION.

Instantly know who's talking so you don't have to waste valuable time identifying yourself. And get your point across the first time instead of asking for an important detail to be repeated. The result? Everyday conversations go smoothly and your team gets more done.

KEEP YOUR TEAM SAFE

KEEPING EMPLOYEES SAFE AND SOUND IS THE MOST IMPORTANT JOB OF ANY BUSINESS.

EVX and VX Series radios have built-in safety features designed to get your employees help immediately in the case of an emergency. Take Emergency Alert. At the touch of a button, any team member can send an alert that help is needed ASAP. And with the Lone Worker feature, check-ins can be set up at regular intervals so that an employee working alone must send a signal that everything is okay. If the signal isn't received on time, the radio automatically notifies help.

EVX and VX Series radios are ideal for organizations that have strict safety guidelines and procedures in place. Or for any business that wants to stay a step ahead in critical situations.
