

# HANDS-FREE RECORDING, INSTANT TRANSPARENCY

## CREATE SAFER COMMUNITIES BY INTEGRATING PORTABLE RADIOS & BODY-WORN CAMERAS

When an emergency strikes, you need to act fast – and your technology needs to be ready to support you. Critical evidence increases prosecution rates and proves transparency. Automate your body-worn camera's record function with this simple integration, saving time and increasing efficiency.

### HOW IT WORKS

Your two-way radio is your lifeline, trusted companion and biggest advantage when you're on the streets. Should an emergency situation arise, your radio's emergency button allows you to call for urgent assistance. Now, that emergency button does more. By automatically activating your VB400 body-worn camera, video evidence is captured of any unfolding incident, recording vital footage when it matters most. Whether it's to support a prosecution, engage the community, or enhance officer training, it's vital that you get video evidence of critical incidents.

### KEY BENEFITS

#### AUTOMATE RECORDING

Immediately alert dispatch and start body-worn video recording without any intervention by the officer - keeping them focused.

#### CAPTURE EVERY ANGLE

Simultaneously activate any associated body-worn cameras to capture critical evidence of key moments from all perspectives, using peer-assisted recording functionality.

#### IMPROVE TRANSPARENCY

Ensure objective video evidence is always captured and available so the right outcomes can be achieved.

## KEY PRODUCTS AND FEATURES

### BODY-WORN CAMERAS

Maintain the trust of your community, by capturing secure, unbiased video evidence of every interaction. Our VB400 body-worn cameras are designed specifically for police, with a rugged exterior, long battery life and evidence-quality security, they're an essential tool for providing transparency within the community.

### PORTABLE RADIOS

When lives depend on you, you need a mission-critical communication device in your hand. Motorola Solutions' portable radios bring usability and performance advancements to every aspect of the police radio experience. These radios give you the sophisticated features and capabilities you need to keep officers safe and build safer communities.

## HELP BUILD SAFER COMMUNITIES WITH MOTOROLA SOLUTIONS

We're reimagining the world of policing. Our mission-critical ecosystem unifies video, software and communications on a single platform to amplify collaboration and connectivity between technology and teams. By seamlessly integrating portable radios and body-worn cameras, we're helping ensure officers and the public are safer and critical evidence is captured in moments that matter. Because when everything and everyone works together, safety is unstoppable.
