# MOBILE LPR FOR PARKING ENFORCEMENT

PARKING AND MOBILITY SOLUTIONS

Locate offenders, drive compliance and increase revenue with license plate enabled parking (LEP) enforcement.

WITHOUT MOBILE LPR

WITH MOBILE LPR

Parking Enforcement Officers are walking enforcement routes while conducting manual tire chalks and performing time-consuming license plate look ups for each parked vehicle.

Parking Enforcement Officers efficiently enforce their routes, with instant alerts of vehicles that are in violation of parking rules.

MOBILE LPR FOR PARKING ENFORCEMENT IN ACTION

Mobile LPR technology for paid and permit parking enforcement, as well as digital chalking, has enabled us to enhance our parking operations. This streamlined approach to parking enforcement has resulted in an improved parking experience for everyone.

MOTOROLA SOLUTIONS

MOBILE LICENSE PLATE ENABLED PARKING ENFORCEMENT

PAID / PERMIT VERIFICATION

Customize back office and alert software to receive proactive alerts of vehicles in violation of parking rules on and off street.

SCOFFLAW ENFORCEMENT

Receive instant alerts in the back office or in an enforcement vehicle when a scofflaw or hot listed license plate is detected.

DIGITAL CHALKING

Make parking enforcement more productive with LPR cameras and back-office software which automatically knows when a vehicle has overstayed a time-limited zone.

DATA SHARING

Control your data retention, access, and user permissions, with the option to share LPR data with local law enforcement to help keep the community safe.

DESKTOP AND MOBILE SOFTWARE

Vigilant ClientPortal

- Web-based back office software

- Manage users, in-vehicle settings, paid parking locations (digital chalking, permit/payment validation and scofflaw detection) and reports

- At user's discretion, data may be shared with local law enforcement

Vigilant CarDetector Mobile

- In-vehicle software

- Identify parkers in violation of parking rules

- Communicates seamlessly with back office

- Send information to enforcement software
