

OPERATION STONEGARDEN GRANT

FUNDS AVAILABLE

\$90 MILLION

APPLY BY MAY 18, 2023

GRANT HIGHLIGHTS

Operation Stonegarden (OPSG) supports enhanced cooperation and coordination among local, tribal, territorial, state and federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in states bordering Mexico and Canada, as well as states and territories with international water borders.

A cost share/match is not required for this grant program. The performance period is three years.

WHO CAN APPLY

The State Administrative Agency (SAA) is the only entity eligible to apply to FEMA for OPSG funds. Funds for OPSG will be allocated competitively based on risk-based prioritization. Subrecipients eligible to apply for a subaward directly from the SAAs are divided into three tiers based on their proximity to such borders. Tier 1 eligible sub-recipients under OPSG are local units of government at the county level or equivalent and federally-recognized tribal governments on a physical border in states bordering Canada or Mexico and states and territories with international water borders.

FUNDING PRIORITIES AND ALLOWABLE COSTS

DHS/FEMA has identified as a national priority for OPSG applicants enhancing information and intelligence sharing and analysis, and cooperation with federal agencies, including DHS.

OPSG is intended to support U.S. border States and territories in accomplishing the following objectives:

- Increase intelligence and operational capabilities to prevent, protect against and respond to border security issues.
- Increase coordination and collaboration among federal, state, local, tribal and territorial law enforcement agencies.
- Continue the distinct capability enhancements required for border security and border protection.
- Provide intelligence-based operations through U.S. Border Patrol Sector Level experts to ensure safety and operational oversight of federal, state, local, tribal and territorial law enforcement agencies participating in OPSG operational activities.
- Support a request to the governor to activate, deploy or redeploy specialized National Guard Units/Packages and/or elements of state law enforcement to increase or augment specialized/technical law enforcement elements operational activities.
- Continue to increase operational, material and technological readiness of state, local, tribal and territorial law enforcement agencies.
- Enhance the sharing of threat information and intelligence between Federal, state, local, tribal, and territorial law enforcement agencies.
- Develop and sustain a capable workforce of analysts.

OPSG funds must be used to provide an enhanced law enforcement presence and to increase operational capabilities of federal, state, local, tribal and territorial law enforcement, promoting a layered, coordinated approach to law enforcement within border states and territories.

Recipients are encouraged to prioritize the acquisition and development of regional projects on the borders to maximize interoperability and coordination capabilities among federal agencies and with state, local, and tribal law enforcement partners. Such regional projects include communications equipment, radio systems and repeaters, and situational awareness equipment (license plate reader networks, visual detection and surveillance systems, sensor systems, radar systems, and manned or unmanned aircraft systems).

All emergency communications investments must comply with the [SAFECOM Guidance on Emergency Communications Grants](#) and must be aligned with the Statewide Communication Interoperable Plan (SCIP).

Equipment allowability is based on the [Authorized Equipment List](#).

Maintenance and sustainment costs (e.g. maintenance contracts, warranties, repairs, upgrades and user fees) are allowable, but the coverage period must not exceed the performance period of the grant. The only exception is if the maintenance contract or warranty is purchased at the same time and under the same grant award as the original purchase of the system or equipment, then coverage may exceed the performance period.

OPSG funds may not be used for any construction.

Prohibitions on Expending Grant Funds for Certain Telecommunications and Video Surveillance Equipment or Services: Effective August 13, 2020, DHS/FEMA grant recipients and subrecipients may not use grant funds for certain telecommunication and video surveillance equipment or services produced by certain Chinese companies identified by Congress in the National Defense Authorization Act for FY 2019. For more information see pp. 34 of the [HSGP NOFO](#) and pp.17-18 of the [FEMA Preparedness Grants Manual](#). Grant funds may be used to procure replacement equipment and services impacted by this prohibition, provided the costs are otherwise consistent with program requirements.

APPLICATION DEADLINE

The State Administrative Agency (SAA) must submit the full application by **May 18, 2023 5 pm ET**. Applicants are encouraged to submit their initial application in Grants.gov at least seven days before this deadline.

Applications will be reviewed by the SAA and CBP/Border Patrol Sector Headquarters for completeness and adherence to programmatic guidelines as well as operational content prior to submission to FEMA.

MOTOROLA SOLUTIONS OFFERS A PROVEN BASIS FOR YOUR APPLICATION

We offer a wide range of solutions to promote safety and security, increase operational efficiency and connect officers to help create safer cities and thriving communities, including:

- **Land Mobile Radio Communications** — Communications in urban areas can be enabled or augmented with Project 25-compliant, mission-critical-grade infrastructure to provide expanded coverage, reliability, capacity and security for emergency responders. Mobile and portable radios are designed specifically for the needs of first responders and provide interoperability on Project 25 networks, legacy Smartnet/Smartzone or conventional networks, and across multiple frequency bands for unparalleled interoperability through a single device. Connectivity between disparate or neighboring standalone communications networks can be achieved via IP-based gateways, consolidated P25 networks or hosted cloud solutions.
- **Voice & Computer-Aided Dispatch Solutions** — Computer-aided dispatch solutions suite enhances incident management by automating workflows and data retrieval from the PSAP to the field. Coordinate your team with a seamless flow of information from the moment a call comes in, to when responders arrive - enabling the quickest, safest response.
- **Command Center Software** — Our command center software features end-to-end solutions that provide users with a unified, intuitive experience and intelligent capabilities designed specifically for the needs of public safety and schools. It includes integrated software solutions from call to case closure, including emergency call management, dispatch, real-time intelligence, field response & reporting and records & evidence management solutions.

- **WAVE PTX Broadband Push-to-Talk Communications** — Create simple, secure, and reliable Push-To-Talk communications between radio and devices outside the radio system, such as smartphones, tablets, and laptops.
- **Video Security & Access Control** — Motorola Solutions offers fixed video, access control and software solutions to help you find, analyze and share information so you can respond to events with speed and decisiveness to keep your people and property safe. Our fixed video security systems include Avigilon, IndigoVision, Ava, and Pelco. Our access control systems and security include Openpath.
- **License Plate Recognition (LPR)** — Motorola Solutions offers an LPR platform with powerful analytics that help complete the investigative triangle of person, plate and location. All of the data and analytics received from LPR detections across the nation are stored in Vigilant's Cloud, LEARN, to help law enforcement develop leads and close cases.
- **Cybersecurity Services** — Protect your organization with cybersecurity services aligned to the National Institute of Standards and Technology (NIST) Cybersecurity Framework to detect, prevent and respond to cyber attacks.
- **Body-Worn and In-Car Cameras** — Motorola Solutions provides mobile video solutions for law enforcement, supplying in-car video systems and body-worn cameras along with evidence management software to approximately one-third of all law enforcement agencies in the United States and Canada.
- **Community Engagement Solutions** — Begin to foster a more transparent and accessible relationship with the public you serve with CommandCentral Community. Collaborative applications inspire partnership and empower community members to help shape public safety and improve quality of life. Give your community an easier way to communicate while boosting accessibility and promoting partnership with a single public touchpoint with CityProtect.

HOW TO APPLY

The initial submission to determine eligibility should be made through www.grants.gov. The full application package should be submitted via the Non-Disaster Grants system at <https://portal.fema.gov>.

Applicants should refer to the [HSGP NOFO](#) and [FEMA Preparedness Grants Manual](#) for more information on submitting an application.

FAQs may be found [here](#). Applicants should take note of the application evaluation criteria on pp. 44-48 of the HSGP NOFO.

Contact your SAA for specific details and their application timelines. Find a list of SAA contacts [here](#).

As part of the OPSG application process, each eligible local unit of government at the county level or federally-recognized tribal government must develop their Operations Order in coordination with state and federal law enforcement agencies, to include but not limited to CBP and Border Patrol.

WE CAN HELP YOU

The grant application process can be challenging to navigate. To help you, Motorola Solutions has partnered with the grant experts at PoliceGrantsHelp.com. Their team of funding experts can help your agency identify which areas you are eligible for, answer questions and offer insights on how to write an effective application.

Additional information and resources can be found on our website: www.motorolasolutions.com/govgrants.
