

MOTOROLA SOLUTIONS FM3610_88 STANDARD INTRINSICALLY SAFE APX RADIOS INTENT-TO-CANCEL NOTICE

OVERVIEW

The purpose of this notification is to inform ASTRO 25 Subscriber Owners of the cancellation of Factory Mutual (FM) battery options on December 15, 2015. This notice affects APX two-way portable radio users.

Intrinsically Safe two-way radio subscribers approved to the FM3610_88 standard can only be manufactured through the end of December 2015. This is an industry wide mandate that affects all radio manufacturers.

FM Battery Options Last Order Entry: December 15, 2015

All FM Battery Options in ECAT (Electronic Price Pages) will be pulled from visibility no later than the last week of December 2015.

FM Battery Options Last Customer Scheduled Ship Date:

December 31, 2015

(Schaumburg factory (SCOG))

No customer ship dates will be scheduled after this date.

FM Battery Kits 5 years Support to conclude:

No EOL plans for FM Battery Aftermarket Kits at this time

INTENT-TO-CANCEL NOTICE

FM3610-88 ASTRO BATTERY OPTIONS

SERVICE SUPPORT

Aftermarket product support will be available through the Customer Support Centers (CSC). FM approved radios that are deployed in the field will maintain their FM Intrinsically Safe approval status, provided that any service and repairs are done at an FM audited repair facility. FM approved battery accessory 'replacement' kits will continue to be sold.

CONTACT INFORMATION

If you have specific questions regarding the cancellation of the FM3610_88 options please contact –
