

HOLSTER AWARE™

CAPTURE THE EVENTS THAT MATTER

Holster Aware gives officers one less thing to think about in the heat of the moment. Your VB400 body-worn camera starts recording when the bluetooth-activated Holster Aware sensor detects your weapon is unholstered.

WHAT IS HOLSTER AWARE?

It's a sensor that fits in your holster. It detects the presence of your weapon, and notifies the VB400 when it's unholstered.

WHO IS HOLSTER AWARE FOR?

It is designed to be used with any firearm, conducted energy weapon or incapacitating spray.

HOLSTER AWARE FEATURES

DESIGNED FOR YOU

The Holster Aware smart sensor is discreet and fits most holsters.

FAST REACTION TIME

Less than a second from weapon drawn to camera activation, Holster Aware outperforms the nearest competitor

SUPPORTS COMPLIANCE

Holster Aware tracks and records every time it is deployed via VideoManager to maintain an accurate audit log.

SIMPLE & INTUITIVE

Holster Aware requires minimal maintenance and charging. VideoManager manages the association between Holster Aware and your cameras.

WHY CHOOSE HOLSTER AWARE?

URNS YOUR HOLSTER INTO A SMART HOLSTER

With advanced capabilities, Holster Aware is essential to create a truly connected officer with a weapon.

CAPTURE THE MOMENTS THAT MATTER

When used with pre-record, Holster Aware ensures your officers capture the events that matter, even when caught off-guard.

HANDS-FREE RECORDING

No need to press record on your VB400 to activate recording. Simply unholster your weapon and Holster Aware will send an alert to your VB400 to capture events as they unfold.

ALIGNS WITH YOUR POLICIES

Configure Holster Aware and VB400 to align with organisational policy.

DELIVERS TRANSPARENCY

Holster Aware acts like a silent partner, making sure officers follow body-worn camera and firearms policies without lifting a finger.

REQUIRES MINIMAL CHARGING

Holster Aware works for 30-days between charging.
