Pelco Enhanced Analytics With AutoTracker, Adaptive Motion Detection, Abandoned Object.

DEFOG MODE

Three Levels of Fog Removal Within the Image for Improved Image Quality During Bad Weather Conditions

SMART COMPRESSION TECHNOLOGY

Maximized bandwidth savings and lower storage costs. Dual Stream H.264 IP video

360-DEGREE PAN ROTATION

360° Continuous Pan Rotation at 140° Variable Speed

FULL HD

Up to Full HD 1080p and up to 60 Images per second

WARRANTY

3-year warranty with service & support.

SUREVISION TECHNOLOGY

SureVision technology for advanced low-light, True Wide Dynamic Range performance up to 130 dB & Anti-Bloom Technology - advanced low light down to 0.03 lux

ONVIF® CONFORMANT

ONVIF Profile S,G, & Q conformant

ESPRIT® ENHANCED STANDARD WITH & WITHOUT WIPER

The Esprit® Enhanced Standard 1 Series offers high-speed positioning capabilities, outstanding weather protection and ease-of-installation.

The Esprit Enhanced Standard 1 Series has packed in many features that further enhance the total value of the system. With the new SureVision 3.0 cameras, sites are able to extend their security even further. Since its inception, Esprit Enhanced has had a full suite of enhanced built-in video analytics, 32 window blanking privacy zones, and electronic image stabilization.

Improved image contrast & saturation

Optimized Electronic Image Stabilization (EIS)

ESPRIT® ENHANCED PRESSURIZED WITH WIPER

Esprit® Enhanced Pressurized With Wiper is a camera with a 30x optical zoom module that delivers market leading image quality for even the toughest outdoor environments. Paired with Pelco's illuminator modification, the camera ensures that image quality is top-of-the-line, even on the darkest of nights.

The Esprit® Enhanced Pressurized With Wiper is available with options for IR illumination and white light illumination. The vari-zoom IR illumination option dynamically matches the field of view of the camera and adapts in intensity to maintain consistent illumination across the range of zoom all the way out to 200 meters. The Dual Mode illumination option has both IR illumination as well as white light illumination that can be switched from one to the other with a click.

Pressurized Integrated Optics Cartridge (IOC) with pan/tilt and enclosure

Vari-Zoom IR Illuminator option with 200m range

Dual Mode Illumination option with IR and White Light LED banks
