A PERFECT PANORAMIC EXPERIENCE

Pelco's panoramic IP cameras cover wide spaces to detect the activity of people, vehicle and even wildlife. Our fixed single and multi-sensor fisheye cameras give you superior situational awareness, as if you were immersed in the scene.

MULTI-SENSOR CAMERAS

The Optera 180°, 270° and 360° camera series offers a seamless panoramic viewing experience, as well as intuitive immersive views that are almost as being in the middle of the scene itself. The panomersive Optera experience offers completely unified, perfect and combined panoramic views, without the disruption and distraction of disjointed sensor boundaries, a viewing experience that competitive offerings simply cannot equate.

Optera® camera series has an unmatched ability to capture and locate video of interest that can help operators make important decisions that improve security.

With a 12MP resolution and electronic pan, tilt and zoom functions across the entire panorama for the highest quality and smoothest possible image detail, Optera optimizes forensic and live scenes analysis, in a completely new level to security professionals nowadays.

FISHEYE CAMERAS

Obtain panoramic views from a single vantage point free from any blind spots.

The Pelco Fisheye Camera features built-in AI-powered Pelco Smart Analytics which detect critical events and help increase security teams' productivity by expediting real-time responses and forensic investigations.

This new panoramic camera is a cost-effective and easy-to-install solution that provides 360 degree views of large areas from a single vantage point, bringing superior situational awareness free from any blind spots.

With a sleek, low-profile design the fisheye camera provides a discreet video security solution. Facilities such as schools, retailers, commercial buildings, casinos, hotels and airports or train platforms can also leverage the camera's high-resolution video to observe daily activities and optimize operational efficiencies. The Pelco Fisheye Camera includes a 5-year, industry-leading warranty.

BUILT-IN ANALYTICS

Pelco Smart Analytics brings higher accuracy, detection and classification of people and objects, allowing the security teams to detect critical events in a faster and more reliable way.

COST-EFFECTIVE 360 DEGREE COVERAGE WITH NO BLIND SPOTS

Provides 360 degree panoramic views of wide large areas from a single vantage point requiring fewer cameras for a complete situational awareness. Its built-in microphone offers an optative audio recording capacity for additional probatory details.

EFFICIENT BANDWIDTH MANAGEMENT

Reduces bandwidth and storage needs with Pelco Smart Compression technology without compromising image quality.

HIGH RESOLUTION IMAGES IN DIFFERENT LIGHTING CONDITIONS

Take advantage of clear and high-quality image details in scenes with very bright and dark areas with True Wide Dynamic Range (WDR). Adaptive IR technology* provides optimum brightness in lightless scenes.

PELCO FISHEYE SERIES

The Fisheye series offers cost-effective 8 MP and 12 MP panoramic security solutions that allow optimized coverage in large spaces. With True Wide Dynamic Range and a resolution up to 12MP, the images include great detail at a distance in difficult lighting conditions.
