

## VERIFICATION STATEMENT GREENHOUSE GAS EMISSIONS

Bureau Veritas North America, Inc. (BVNA) was engaged to conduct an independent verification of the greenhouse gas (GHG) emissions reported by Motorola Solutions, Inc. (Motorola Solutions) for the period stated below. This Verification Statement applies to the related information included within the scope of work described below.

The determination of the GHG emissions is the sole responsibility of Motorola Solutions. BVNA was not involved in determining the GHG emissions. Our sole responsibility was to provide independent verification on the accuracy of the GHG emissions reported, and on the underlying systems and processes used to collect, analyze and review the information.

### **Boundaries of the reporting company GHG emissions covered by the verification:**

- Operational Control
- Worldwide
- Exclusions from the scope of Motorola Solution's GHG emissions assertion are:  
Scope 1 emissions from fugitive emissions from HFCs, PFCs and SF<sub>6</sub>; and, Scope 1 emissions from leased vehicles outside the United States.

### **Emissions data verified:**

- **Scope 1:** 27,426 metric tons of CO<sub>2</sub>e
- **Scope 2:** 159,543 metric tons of CO<sub>2</sub>
- **Scope 3:** 89,397 metric tons of CO<sub>2</sub>e
  - 89,390 metric tons CO<sub>2</sub>e (business travel)
  - 7 metric tons CO<sub>2</sub>e (employee commuting)

### **Period covered by GHG emissions verification:**

- January 1, 2013 to December 31, 2013

### **GHG Reporting Protocols against which verification was conducted:**

- World Resources Institute (WRI)/World Business Council for Sustainable Development (WBCSD) Greenhouse Gas Protocol, Corporate Accounting and Reporting Standard
- WRI/WBCSD Corporate Value Chain (Scope 3) Accounting and Reporting Standard
- United States Environmental Protection Agency's (USEPA) Climate Leaders Greenhouse Gas Inventory Protocol for Scope 1, 2 and 3 sources.

### **GHG Verification Protocols used to conduct the verification:**

- ISO 14064-3: Greenhouse gases -- Part 3: Specification with guidance for the validation and verification of greenhouse gas assertions

**Level of Assurance and Qualifications:**

- Limited
- Qualifications – reporting only CO<sub>2</sub> emissions for Scope 2 emissions.

**GHG Verification Methodology:**

- Interviews with relevant personnel of Motorola Solutions;
- Review of documentary evidence produced by Motorola Solutions;
- Review of Motorola Solutions data and information systems and methodology for collection, aggregation, analysis and review of information used to determine GHG emissions at Motorola Solutions Headquarters in Schaumburg, Illinois; and
- Audit of samples of data used by Motorola Solutions to determine GHG emissions.

**Verification Opinion:**

Based on the process and procedures conducted to a limited assurance level of the GHG emissions assertion shown above, BVNA found no evidence that the GHG emissions assertion:

- is not materially correct;
- is not a fair representation of the GHG emissions data and information; and
- has not been prepared in accordance with the WRI/WBCSD GHG Protocol Corporate Accounting and Reporting Standard.

It is our opinion that Motorola Solutions has established appropriate systems for the collection, aggregation and analysis of quantitative data for determination of these GHG emissions for the stated period and boundaries.

**Statement of independence, impartiality and competence**

The Bureau Veritas Group is an independent professional services company that specializes in Quality, Health, Safety, Social and Environmental management with over 180 years history in providing independent assurance services.

No member of the verification team has a business relationship with Motorola Solutions, its Directors or Managers beyond that required of this assignment. We conducted this verification independently and to our knowledge there has been no conflict of interest.

Bureau Veritas has implemented a Code of Ethics across the business to maintain high ethical standards among staff in their day-to-day business activities.

The verification team has extensive experience in conducting assurance over environmental, social, ethical and health and safety information, systems and processes, has over 20 years combined experience in this field and an excellent understanding of Bureau Veritas standard methodology for the verification of greenhouse gas emissions data.
