

WATER CONSUMPTION VERIFICATION STATEMENT

Bureau Veritas North America provides limited independent assurance for the water consumption data reported by Motorola Solutions, Inc. (Motorola Solutions) for the period of January 1, 2013 through December 31, 2013.

Date Verification was Completed: April 24, 2014 **Type of Verification:** Limited Assurance

Water Verification Methodology:

- Interview relevant personnel from Motorola Solutions responsible for determination of water consumption data;
- Review of Motorola Solutions data, information systems and methodologies for collection, aggregation, analysis and review of information used to determine water consumption data; and
- Visit to company headquarters facility where data is collected and processed.

Motorola Solutions, Inc. Entity Wide Water Consumption Assertion for 2013	
2013	Water Consumed: 648,654 m³

Reporter's Organizational Boundaries:

- Operational Control

Geographic Scope of Verification

- Worldwide

Based on the process we followed, there is no evidence that the water consumption assertion shown above:

- is not materially correct; and,
- is not a fair representation of the water consumption data and information.

It is our opinion that Motorola Solutions has established appropriate systems for the collection, aggregation and analysis of quantitative data for determination of its water consumption for the stated period and boundaries.

Statement of independence, impartiality and competence

Bureau Veritas is an independent professional services company that specializes in Quality, Health, Safety, Social and Environmental management with over 186 years history in providing independent assurance services.

No member of the verification team has a business relationship with Motorola Solutions, its Directors or Managers beyond that required of this assignment. We conducted this verification independently and to our knowledge there has been no conflict of interest.

Bureau Veritas has implemented a Code of Ethics across the business to maintain high ethical standards among staff in their day-to-day business activities.

The verification team has extensive experience in conducting assurance over environmental, social, ethical and health and safety information, systems and processes, has over 20 years combined experience in this field and an excellent understanding of Bureau Veritas standard methodology for the verification of greenhouse gas emissions data.
