

FOSTERING THE NEXT GENERATION OF INNOVATORS

TECHNOLOGY AND ENGINEERING EDUCATION GRANTS

Innovation is at the heart of Motorola Solutions' mission-critical solutions and has been for almost 100 years. As the charitable and philanthropic arm of Motorola Solutions, the Motorola Solutions Foundation partners with organizations that foster innovation in education and public safety and inspire the next generation of engineers and inventors. From engaging students through hands-on engineering activities like design, coding and robotics to providing scholarship and workforce placement opportunities for underrepresented and underserved populations, the Foundation is committed to creating opportunities for the next generation of innovators.

With employees located around the globe, Motorola Solutions seeks to benefit the communities where it operates, and through strategic grants, the Motorola Solutions Foundation supports and partners with programs in these communities as well.

2020 PARTNERSHIP EXAMPLES

The National Girls Program (NGP) provides over 10,000 girls, ages six to 16, with hands-on skill development that implements their ideas and interests, while addressing barriers that limit inclusion in STEM fields.

GRAHAM (POLLY) FARMER FOUNDATION INC. AUSTRALIA

The Motorola Solutions Foundation STEM University Scholarships are awarded to indigenous students across Australia who are pursuing engineering or technology degrees at university. A targeted engagement plan helps support and motivate recipients to stay focused on their studies and build a career in STEM industries.
