

The background of the entire image is a row of yellow school buses parked in a lot. The buses are viewed from a low angle, showing their front grilles, headlights, and mirrors. The scene is dimly lit, suggesting dusk or dawn. The text is overlaid on this background.

TELDIO TRUFLEET

Location Tracking and Fleet Management

HOW IT WORKS

Teldio TruFleet **tracks, monitors, and manages your employees, assets, and fleets in real-time** using rich and intuitive web-based interface which can be accessed on your desktop, tablet, or mobile phone to improve communication, enhance productivity and increase safety.

FEATURES

INDOOR & OUTDOOR TRACKING

Track your vehicles, employees, and assets both indoors and outdoors in real-time directly from your device.

REPLAYS & REPORTING

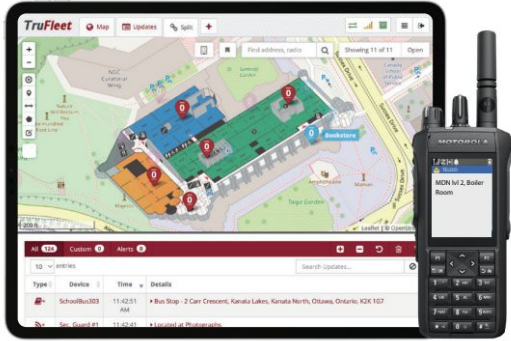

View, search, replay, and report on any radios in your network from any time period.

EMERGENCY MONITORING

Identify and resolve potential threats before they escalate - receive notifications with employee locations when emergencies arise.

SOLUTIONS

Indoor Tracking

Monitor Your Employees Location and Safety

Track the location of your personnel to quickly find employees in an emergency or to direct the closest person to an event.

Outdoor Tracking

Track Your Fleet and Valuable Assets

Know the location of your fleet of buses, utility trucks, or any vehicle or asset equipped with a MOTOTRBO radio in real-time.

AUTOMATION-BASED GEO-FENCING, LOCATIONS, AND EVENTS

Combine the power of **Teldio TruFleet** with the **Teldio Edge Gateway** to allow for seamless automation based on geo-fencing, locations, and events, enabling businesses to efficiently monitor assets, track vehicles, and automate workflows by leveraging real-time notifications and intelligent triggers.

Teldio interfaces directly into your existing enterprise systems, integrating your two-way radio fleet with other systems workflows, logistics, supply chain, and operations.

INDUSTRIES

EDUCATION

Improve Student Visibility

Allow staff and parents to know the whereabouts by tracking school buses on a map using a Motorola two-way radio system.

MANUFACTURING

Enhance Workplace Safety

Know what is happening at your manufacturing facilities 24/7 to ensure employee safety, building security, and operational facilities.

UTILITIES

Monitor Your Vehicles

Track your utility trucks to know where your employees are, what calls have been completed, and have it all documented for future reference.
