HELLOMOTO®

Motorola Digital Portable Radios

Feature-rich and functional, Motorola digital portable radios combine the best of a two-way radio with the versatility of iDEN® technology all in one rugged handset that is ready to take on the demands of the job site. Used in concert with Motorola's iDEN, Harmony or Melody integrated mobile communication systems you can expect that they will help you achieve higher productivity through simultaneous connections, faster reaction times and continuous communication as you move from location to location using state of the art Motorola portable technology.

Motorola Original® Accessories

Motorola Original accessories let you make the most of your communication system's capabilities. Having dependable accessories can help enhance your productivity and make it easy to access and use your Motorola digital portable radio. Every Motorola Original accessory is designed, built and rigorously tested to the same quality standards as Motorola radios, so you can be sure that each will be ready to do its job, time after time.*

We're pleased to bring you this collection of proven Motorola Original accessories for your important business communication needs. You'll find a remote speaker microphone for more convenient control. Noise canceling headsets for high noise environments. Wireless headsets for hands-free operation. Premium batteries to extend work time, and more. They're all ready to help you work smarter, harder and with greater confidence.

**Nothing Works
Like A Motorola
Original Accessory**

* To assure compliance with RF energy exposure standards and regulations, use only Motorola-approved batteries and accessories. Use of non-Motorola-approved batteries and accessories may result in RF energy exposure standards being exceeded.

REMOTE SPEAKER MICROPHONE

Be confident that you'll be heard in loud environments with the Motorola RMN5115 Remote Speaker Microphone. With high output audio levels for exceptional performance and a coiled cord you'll talk and listen at noisy job sites without removing the radio from the belt or case.

Concentrate on the message and stay focused on your work with the RMN5115 Remote Speaker Microphone.

RMN5115 Remote Speaker Microphone for r765 Radio Series

High noise remote speaker microphone for r765 and r765IS handsets. Allows the user to talk and listen without removing the radio from the belt. Designed for use in noisy environments. Includes PTT button, 3.5mm earphone connector, swivel clip and quick disconnect latch.

REMOTE SPEAKER MICROPHONE ACCESSORIES

AARLN4885 Receive-Only Earbud

Receive-only covered earbud with coiled cord for use with the remote speaker microphone for privacy.

NNTN7166 Stereo Earphones with Noise Reduction

Stereo earphones with noise reduction to be used with the remote speaker microphone. Can be used in place of ear inserts with 34 dB NRR when used with the 3-tier gray earpieces. *Note: Mono audio operation when used with the RMN5115.*

HIGH NOISE HEADSETS

Conditions in the field can often change. At times you may need to have a face-to-face conversation, and at others you may need protection from harsh, harmful sounds around you. Motorola Original® high noise headsets offer a range of flexible options, putting you in control of how much environmental noise you hear. Choose the Dual Muff High Noise headset for protection, or one of our High Noise Temple Transducers that enable you to let in personal conversations and warning sounds, or use ear inserts to block them out.

AARMN4019 Dual Muff High Noise Headset

Dual muff high noise headset offers the user clear audio and hearing protection providing consistent, clear communications in harsh, noisy environments. Includes in-line PTT switch.

RMN4048 Standard Temple Transducer High Noise

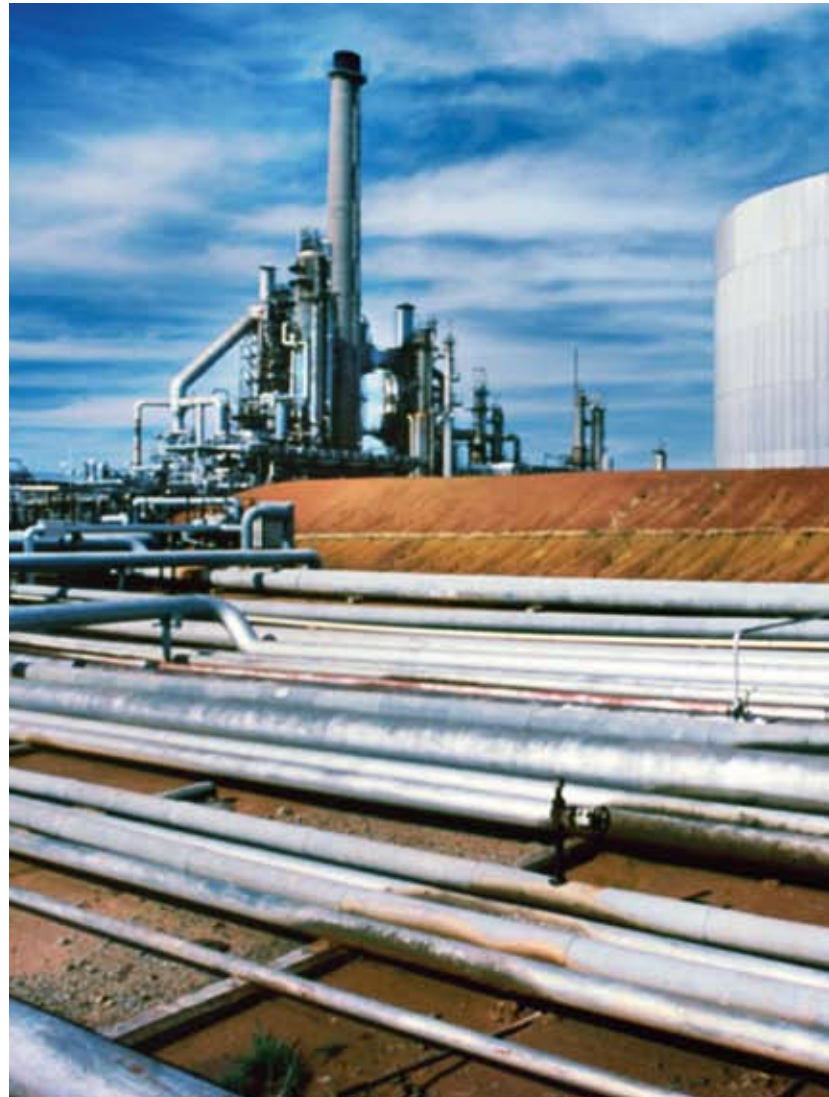

High noise standard temple transducer receives audio through vibration pads that rest on the temples, allowing the use of hearing protection in high noise environments. This accessory can be used with noise reduction ear inserts.

RMN5048 Heavy Duty Temple Transducer High Noise

High noise heavy duty temple transducer receives audio through vibration pads that rest on the temples, allowing the use of hearing protection in high noise environments. A noise cancelling microphone helps you to be heard. This accessory can also be used with noise reduction ear inserts and headsets.

BLUETOOTH® WIRELESS ACCESSORIES

Motorola r765 and r765IS radios are designed with *Bluetooth*® Wireless Technology built in. Motorola *Bluetooth*® wireless accessories combine ease-of-use with hands-free convenience. When you travel between job sites our *Bluetooth*® in-car accessories and in-ear headsets help you comply with laws that prohibit vehicle cell phone usage without hands-free technology. Motorola in-ear *Bluetooth*® headsets have advanced features, look great and are a terrific match for your r765 and r765IS.

98782H *Bluetooth*® T305 Car Speaker

The Motorola Portable *Bluetooth*® hands-free speaker T305 features an efficient 1-watt loudspeaker and sophisticated noise reduction technology that give the volume and clarity you need to converse while keeping your hands on the wheel and your eyes on the road. It's easy and portable—just clip to your vehicle's visor and go. Unclip and use in another vehicle.

89184N *Bluetooth*® H12 Headset

The MOTOPURE™ *Bluetooth*® H12 is the first headset to feature CrystalTalk™—dual microphone noise cancellation technology that maximizes audio performance in the noisiest of environments. Three mini cushions, a molded earbud and a secure ear hook combine to create a unique personal fit. The H12 delivers maximum audio performance with TrueComfort™ design and hands-free convenience.

89182N *Bluetooth*® H680 Headset

The Motorola *Bluetooth*® H680 headset offers first-rate design in a compact size at an affordable price. This mini powerhouse features excellent sound quality, up to 7 hours of talk time and 192 hours of standby time. Premium materials and finishes, inspired by Motorola's next generation design platform, make a striking statement.

89183N *Bluetooth*® H710 Headset

The Motorola *Bluetooth*® H710 headset's RapidConnect™ flip design now has improved audio. Utilizing Multipoint technology, you can switch between two *Bluetooth*® audio devices. Discover advanced features—echo and noise reduction—so others can hear you clearly. Up to 200 hours of standby or 6 hours of talk time.

98799N *Bluetooth*® T605 Car Kit

The Motorola *Bluetooth*® automotive music and hands-free system T605 delivers audio via *Bluetooth*® wireless technology to the car's sound system. You get hands-free calling optimized for the car with digital signal processing for noise reduction, plus volume goes up as background noise increases. Professional installation required.

BATTERIES, CHARGERS AND MORE

Quality and compatibility are what Motorola Original® Accessories are all about. Built and tested to the same tough quality standards as our radios, Motorola Original batteries and chargers will keep you up and running. Count on it! And for compatibility it would be hard to top the r765 / r765IS carry holster, created to allow unhampered access to the important knobs and functions of your radio while keeping it securely in place.

CARRY HOLSTER & DATA CABLE

FHN5163 Holster for r765 and r765IS

The holster designed specifically for the r765 and r765IS to provide quick, unhampered access to the radio, channel selector, volume control and accessory connector. The cup holds the radio securely in place and a ratchet mechanism allows 180 degrees of movement horizontal and vertical. Press either side tab for easy removal. Accessories can be used, connected or disconnected while the radio is in the holster.

PMLN5235 Data Cable

Mini-USB programming cable for r765 and r765IS handsets. Requires SKN6171 Mini-USB to Standard USB interface cable.

PMLN5197 Single Unit Charger

This single unit charger rapidly charges batteries on or off the handset in one to three hours.

WPLN4187 Multi Unit Charger

This multi unit charger lets you charge up to 6 batteries on or off the handset at one time. Separate charging LEDs indicate the charge status of each battery.

PMNN4087 Standard Battery

This standard battery for the r765 is ruggedly designed for lasting durability and optimum performance.

PMNN4086 FM/IS Battery

This FM/IS battery is ruggedly designed for lasting durability and optimum performance with the r765IS handset and is for use in hazardous locations.

r765IS Handset intrinsically safe classifications:

Factory Mutual Approvals (FM) and Canadian Standards Associations (CSA) certification as Intrinsically Safe (IS) for use in Classes I, II and III, Division 1, Groups C, D, E, F, G and Nonincendive (NI), Class 1, Division 2, Groups A, B, C and D when used with battery PMNN4086A.

A close-up, profile view of a person wearing a white hard hat and safety glasses, looking down at a Motorola handheld device. The person is wearing a blue button-down shirt. The background is a blurred industrial setting. The Motorola logo is visible on the person's sleeve.

Call us today to enhance your iDEN®, Melody or Harmony System capabilities with high-performance Motorola Original® accessories. **Motorola Portable Digital Two-Way Radio Systems** can be easily customized to your communication requirements. All Motorola Original accessories are built to the highest standards of quality and are specially engineered to perfectly complement your radio's performance. Make certain you're optimizing your Motorola mobile communication system with the accessories that complement it best.
