1.2 Individuals whose personal information are processed by Group Members under the Rules have certain data protection rights, which they may exercise by making a request to the controller of their information (where the controller is a Group Member) (a "**Data Protection Rights Request**").

1.3 This Binding Corporate Rules: Data Protection Rights Procedure ("**Procedure**") describes how Group Members will respond to any Data Protection Rights Requests they receive from individuals whose personal information are processed and transferred under the Rules.

2. Individual's data protection rights

(a) **The right of access:** This is the right for individuals to obtain confirmation whether a controller processes personal information about them and, if so, to be provided with details of that personal information and access to it. This process for handling this type of request is described further in paragraph 4 below.

3. Responsibility to respond to a Data Protection Rights Request

3.1 Overview

3.1.1 The controller of an individual's personal information is primarily responsible for responding to a Data Protection Rights Request and for helping the individual concerned to exercise his or her rights under applicable data protection laws.

3.1.2 As such, when an individual contacts a Group Member to make any Data Protection Rights Request then where the Group Member is the controller of that individual's personal information under the Controller Policy, it must help the individual to exercise his or her data protection rights directly in accordance with this Procedure.

3.2 Assessing responsibility to respond to a Data Protection Rights Request

3.2.1 If a group member receives a Data Protection Rights Request from an individual, it must pass the request to the Privacy team using privacy1@motorolasolutions.com immediately upon receipt indicating the date on which it was received together with any other information which may assist the Privacy team to deal with the request.

3.2.2 The Privacy team will make an initial assessment of the request as follows:

(a) the Privacy team will determine whether the Group Member is a controller or processor of the personal information that is the subject of the request;

(b) where the Privacy team determines that the Group Member is a controller of the personal information, it will then determine whether the request has been made validly under applicable data protection laws (in accordance with section 3.3 below), whether an exemption applies (in accordance with section 3.4 below) and respond to the request (in accordance with section 3.5 below); and

(c) where the Privacy team determines that the Group Member is a processor of the personal information on behalf of a Customer, it shall pass the request promptly to the relevant Customer in accordance with its contract terms with that Customer and will not respond to the request directly unless authorized to do so by the Customer.

3.3 *Assessing the validity of a Data Protection Rights Request*

3.3.1 If the Privacy team determines that a Group Member is the controller of the personal information that is the subject of the request, it will contact the individual promptly in writing to confirm receipt of the Data Protection Rights Request.

3.3.2 A Data Protection Rights Request may be made in writing, which can include email, or orally. A Data Protection Rights Request does not have to be official or mention data protection law to qualify as a valid request.

3.3.3 If the Group Member has reasonable doubts concerning the identity of the individual making a request, it may request such additional information as is necessary to confirm the identity of the individual making the request. The Group Member may also request any further information which is necessary to action the individual's request.

3.4 *Exemptions to a Data Protection Rights Request*

3.4.1 The Group Member will not refuse to act on Data Protection Rights Request unless it can demonstrate that an exemption applies under applicable data protection laws.

3.4.2 The Group Member may be exempt under applicable data protection laws from fulfilling the Data Protection Rights Request if it can demonstrate that the individual has made a manifestly unfounded or excessive request (in particular, because of the repetitive character of the request). In the

case of manifestly unfounded or excessive requests, the Group Member may alternatively charge a reasonable fee.

3.4.3 A Group Member will not be required to comply with a Data Protection Rights Request if it can demonstrate it is not in a position to identify the individual making the request.

3.5 *Responding to a Data Protection Rights Request*

3.5.1 Where a Group Member is the controller of the personal information that is the subject of the Data Protection Rights Request, and the Group Member has already confirmed the identity of the requestor and has sufficient information to enable it to fulfill the request (and no exemption applies under applicable data protection laws), then the Group Member shall deal with the Data Protection Rights Request in accordance with paragraph 4, 5 or 6 below (as appropriate).

3.5.2 The Group Member will respond to a Data Protection Rights Request without undue delay and in no case later than one (1) month of receipt of that request. This one (1) month period may be extended by two (2) further months where necessary, if the request is complex or due to the number of requests that have been made.

3.5.3 If the Group Member decides not to take action on the Data Protection Rights Request, the Group Member will inform the individual without delay and at the latest within one (1) month of receipt of the request of the reasons for not taking action and on the possibility of lodging a complaint with the competent Supervisory Authority and seeking a judicial remedy.

4. Requests for access to personal information

4.1 *Overview*

4.1.1 An individual may require a Controller to provide the following information concerning processing of his or her personal information:

(a) confirmation as to whether the controller holds and is processing personal information about that individual;

(b) if so, a description of the purposes of the processing, the categories of personal information concerned, the recipients or categories of recipients to whom the information is, or may be, disclosed,

the envisaged period(s) (or the criteria used for determining those period(s)) for which the personal information will be stored;

(c) information about the individual's right to request rectification or erasure of his or her personal information or to restrict or object to its processing;

(d) information about the individual's right to lodge a complaint with a competent Supervisory Authority;

(e) information about the source of the personal information if it was not collected from the individual;

(f) details about whether the personal information is subject to automated decision-making (including automated decision-making based on profiling); and

(g) where personal information is transferred outside the EEA, the appropriate safeguards that the Group Member has put in place relating to such transfers in accordance with applicable data protection laws.

4.1.2 An individual is also entitled to a copy of his or her personal information from the controller. Where an individual makes such a request, the controller must provide that personal information to the individual in intelligible form.

4.2 *Process for responding to access requests from individuals*

4.2.1 If Group Member receives an access request from an individual, this must be passed to the Privacy team at privacy1@motorolasolutions.com immediately to make an initial assessment of responsibility consistent with the requirements of paragraph 3.2 above.

4.2.2 Where the Group Member determines it is the controller of the personal information and responsible for responding to the individual directly (and that no exemption to the right of access applies under applicable data protection laws), Data Protection Officer will arrange a search of all relevant electronic and paper filing systems.

4.2.3 The Privacy team may refer any complex cases to the Data Protection Officer and / or VP of Data Protection for advice, particularly where the request concerns information relating to third parties

or where the release of personal information may prejudice commercial confidentiality or legal proceedings.

4.2.4 The personal information that must be disclosed to the individual will be collated by the Privacy team into a readily understandable format. A covering letter will be prepared by the Privacy team which includes all information required to be provided in response to an individual's access request (including the information described in paragraph 4.1.1).

4.3 *Exemptions to the right of access*

4.3.1 A valid request may be refused on the following grounds:

(a) If the refusal to provide the information is consistent with applicable data protection law (for example, where an EEA Group Member transfers personal information under the Controller Policy, if the refusal to provide the information is consistent with the applicable data protection law in the EEA Member State where the Group Member is located). For example, where a request is manifestly unfounded or excessive the request may be refused or alternatively a reasonable fee charged;

(b) where the personal information is not subject to applicable data protection law. For example, personal information held by a Group Member in non-automated form that is not or will not become part of a filing system will not be subject to the General Data Protection Regulation;

(c) the personal information does not originate from the EEA, has not been processed by any EEA Group Member, and the provision of the personal information requires a Group Member to use disproportionate effort.

4.3.2 The Privacy team will assess each request individually to determine whether any of the above-mentioned exemptions applies. A group member must never apply an exemption unless this has been discussed and agreed with Data Protection Officer.

5. Requests to correct, update or erase personal information, or to restrict or cease processing personal information

5.1.1 If a Group Member receives a request to correct, update or erase personal information, or to restrict or cease processing of an individual's personal information, this must be passed to the Privacy

team at privacy1@motorolasolutions.com immediately to make an initial assessment of responsibility consistent with the requirements of paragraph 3.2 above.

5.2 Once an initial assessment of responsibility has been made then where a Group Member is the controller of that personal information, the request must be notified to the Privacy team and Data Protection Officer promptly for it to consider and deal with as appropriate in accordance with applicable data protection laws.

5.3 When a Group Member must rectify or erase personal information in its capacity as controller, the Group Member will notify other Group Members and any processor to whom the personal information has been disclosed so that they can also update their records accordingly.

The right to rectification and correction of personal information

5.4 Requests from individuals to rectify inaccurate personal information must be complied with by Group Members without undue delay. Taking into account the purposes of the processing, Group Members must also comply with requests from individuals to complete incomplete personal information, which may be by including a supplementary statement.

The right to restriction of personal information

5.5 Requests from individuals to restrict their personal information must be complied with by Group Members without undue delay if:

- (a) The accuracy of personal information is contested;
- (b) The processing of their personal information is unlawful but the individual does not want their personal information deleted;
- (c) The personal information is no longer needed by the Group Member but the individual requires the personal information to establish, exercise or defend legal claims; or
- (d) Pending verification of whether the legitimate interests of the Group Member override those of the individual, if the individual has objected to processing of their personal information.

5.6 If personal information has been restricted, other than to store the personal information, the Group Member must not process the personal information unless it is with the individual's consent, to establish, exercise or defend legal claims, protect the rights of other individuals or legal persons or for reasons of important public interest.

5.7 Group Members will inform the relevant individual before lifting the processing restriction.

The right to erasure of personal information

5.8 Unless an exemption applies (these are listed below), if a request to erase information is received from an individual, the Group Member must comply with the request without undue delay if any of the following grounds apply:

5.8.1 The information is no longer necessary in relation to the purposes for which it was collected or otherwise processed;

5.8.2 The individual withdraws the consent on which the processing is based and the Group Member has no other legal ground for the processing;

5.8.3 The processing is on the basis of performance of a task in the public interest or in the exercise of official authority vested in the Group Member or is on the basis of legitimate interests pursued by the Group Member or a third party and the individual objects to the processing and there are no overriding legitimate grounds for the processing;

5.8.4 The personal information has been unlawfully processed;

5.8.5 The personal information must be erased to comply with a legal obligation under European Union or Member State law which the Group Member is subject to;

5.8.6 The personal information was collected in relation to the offer of information society services to children; or

5.8.7 The processing is for direct marketing purposes and the individual objects to receiving direct marketing.

5.9 If a Group Member acting as controller has made the personal information public, and is obliged to erase the personal data pursuant to a Data Protection Rights Request, it must take reasonable steps, including technical measures (taking account of available technology and the cost of implementation), to inform controllers which are processing the personal information that the individual has requested the erasure by such controllers of any links to, or copy or replication of, the personal information.

Exemptions from the right to erasure

5.10 Group Members will not be required to comply with an erasure request if the processing is necessary:

5.10.1 To exercise the right of freedom of expression of information;

5.10.2 To comply with a legal obligation under European Union or Member State law which a Group Member is subject to:

5.10.3 In the public interest relating to public health;

5.10.4 For archiving purposes in the public interest, scientific or historical research purposes or statistical purposes; or

5.10.5 To establish exercise or defend legal claims.

6. Requests for data portability

6.1 If an individual makes a Data Protection Rights Request to a Group Member acting as controller to receive the personal information that he or she has provided to a Group Member in a structured, commonly used and machine-readable format and/or to transmit directly such information to another controller (where technically feasible), the Group Member's Privacy, Information Security and / or business teams will consider and deal with the request appropriately in accordance with applicable data protection laws insofar as the processing is based on that individual's consent or on the performance of,

or steps taken at the request of the individual prior to entry into, a contract or is carried out by automated means.

6.2 This right does not apply to processing necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller.

7. Requests regarding automated decision making

7.1 The right not to be subject to automated decision making is the right for individuals not to be subject to a decision based solely on automated processing, including profiling, which produces legal effects concerning him or her or similarly significantly affects him or her unless it is a) necessary for entering into or performance of a contract between the individual and the controller, b) authorized by Union or Member State law to which the controller is subject and which also lays down suitable measures to safeguard the individual's rights and freedoms and legitimate interests, or c) the individual has given their explicit consent. If an individual makes a Data Protection Rights Request to a Group Member acting as controller not to be subject to automated decision making (including profiling), the Privacy team will consider and deal with the request appropriately in accordance with applicable data protection laws. This may include, if requested, provision of information about the logic involved in the decision.

8. Questions about this Data Protection Rights Procedure

8.1 All queries relating to this Procedure are to be addressed to the Group Member Data Protection Office or at privacy1@motorolasolutions.com.

Course attendance must be recorded and monitored via regular reviews of the training process. These reviews are facilitated by Group Members' Ethics & Compliance Team and/or independent third party auditors.

2.3 If these training reviews reveal persistent non-completion, this will be escalated to VP, Ethics & Compliance for action. Such action may include escalation of non-completion to appropriate managers within the Group Member who will be responsible and held accountable for ensuring that the individual(s) concerned attend and actively participate in such training.

3. Delivery of the training courses

3.1 Group Members will deliver mandatory electronic training courses, supplemented by face to face training for staff members. The courses are designed to be both informative and user-friendly, generating interest in the topics covered. All Group Member staff members must complete data protection training (including training on the Rules):

- (a) as part of their induction program;
- (b) as part of a regular refresher training at least once every 2 years ;
- (c) as and when necessary to stay aware of changes in the law; and
- (d) as and when necessary to address any compliance issues arising from time to time.

3.2 Certain staff members must receive supplemental specialist training, in particular staff members who work in HR, Marketing, Sales, Products & Services, Procurement and Customer Support or whose business activities include processing special category personal data. Specialist training shall be delivered as additional modules to the basic training package, and will be tailored as necessary to the course participants.

Binding Corporate Rules:

Appendix 7 - Government Data Request Procedure

1. Background

1.1 Motorola Solutions' Binding Corporate Rules: Government Data Request Procedure sets out Group Members' procedure for responding to a request received from a law enforcement authority or state security body (together the "**Requesting Authority**") to disclose personal information processed by Group Members (hereafter "**Data Disclosure Request**").

1.2 Where a Group Member receives a Data Disclosure Request, it will handle that Data Disclosure Request in accordance with this Procedure. If applicable data protection law(s) require a higher standard of protection for personal information than is required by this Procedure, Group Members will comply with the relevant requirements of applicable data protection law(s).

2. General principle on Data Disclosure Requests

2.1 As a general principle, Group Members do not disclose personal information in response to a Data Disclosure Request unless either:

(a) it is under a compelling legal obligation to make such disclosure; or

(b) taking into account the nature, context, purposes, scope and urgency of the Data Disclosure Request and the privacy rights and freedoms of any affected individuals, there is an imminent risk of serious harm that merits compliance with the Data Disclosure Requests in any event.

2.2 For that reason, unless it is legally prohibited from doing so or there is an imminent risk of serious harm, Group Members will notify and cooperate with the competent Supervisory Authorities (and, where it processes the requested personal information on behalf of a Customer, the Customer) in order to address the Data Disclosure Request.

3. Handling of a Data Disclosure Request

3.1 Receipt of a Data Disclosure Request

3.1.1 If a Group Member receives a Data Disclosure Request, the recipient of the request must pass it to the Group Members' Data Protection Officer, immediately upon receipt, indicating the date on which it was received together with any other information which may assist the Group Members' Data Protection Office to deal with the request.

3.1.2 The request does not have to be made in writing, made under a Court order, or mention data protection law to qualify as a Data Disclosure Request. Any Data Disclosure Request, howsoever made, must be notified to Data Protection Office for review.

3.2 Initial steps

3.2.1 The Group Members' Data Protection Office will carefully review each and every Data Disclosure Request on a case-by-case basis. The Group Members' Data Protection Office will liaise with the legal department as appropriate to deal with the request to determine the nature, context, purposes, scope and urgency of the Data Disclosure Request, as well as its validity under applicable laws, in order to identify whether action may be needed to challenge the Data Disclosure Request.

4. Notice of a Data Disclosure Request

4.1 Notice to the competent Supervisory Authorities

4.1.1 The Group Member will put the request on hold in order to notify and consult with the competent Supervisory Authorities, unless legally prohibited (such as a prohibition under criminal law to preserve the confidentiality of a law enforcement investigation) or where an imminent risk of serious harm exists that prohibits prior notification. Such notification to the competent Supervisory Authorities will include information about the data requested, the requesting body, and the legal basis for the disclosure. Where the Group Member is not reasonably able to notify the relevant Supervisory Authorities of a Data Disclosure Request due to imminent risk of serious

harm, provided the Group Member is not legally prohibited from doing so, the Group Member will notify the competent Supervisory Authorities when it is reasonably able to do so.

4.1.2 Where a Group Member is prohibited from notifying the competent Supervisory Authorities and suspending the request, the Group Member will use its best efforts (taking into account the nature, context, purposes, scope and urgency of the request) to inform the Requesting Authority about its obligations under applicable data protection law and to obtain the right to waive this prohibition. Such efforts may include asking the Requesting Authority to put the request on hold so that the Group Member can consult with the competent Supervisory Authorities, which may also, in appropriate circumstances, include seeking a court order to this effect. The Group Member will maintain a written record of the efforts it takes.

5. Transparency reports

5.1 If, despite having used its best efforts, the Group Member is not in a position to notify the competent Supervisory Authorities, the Group Member commits to preparing an annual report (a “**Transparency Report**”), which reflects to the extent permitted by applicable laws, the number and type of Data Disclosure Requests it has received for the preceding year and the Requesting Authorities who made those requests. The Group Member shall provide this report to the lead Supervisory Authority which authorized its BCR (and any other Supervisory Authorities that the lead Supervisory Authority may direct) once each year.

6. Bulk transfers

6.1 In no event will any Group Member transfer personal information to a Requesting Authority in a massive, disproportionate and indiscriminate manner that goes beyond what is necessary in a democratic society.
