This cost-effective, Windows®-based computing solution...
This cost-effective, Windows®-based software is designed to bring rapid intelligence. Rapid Decision Making. Rapid Deployment. DJSS is the right decision for so many reasons:

- Rapid intelligence: DJSS brings vital data right to your dispatchers and field personnel. Critical information is delivered at the right time, yielding powerful, life-saving results. DJSS allows agencies to quickly collect and manage vital information so that it can be shared and used where and when it is needed.
- Rapid deployment: DJSS is a rapidly deployable, industry-proven public safety solution offering increased efficiency and cost savings. DJSS is so easy to deploy that a typical deployment can be completed within a week.
- Rapid results: DJSS gets the right information to the right people at the right time location and direction of each emergency vehicle. Automatic Vehicle Location. Using Global Positioning System (GPS) capabilities, your wireless data network can now display graphical maps right on your dispatch screen so that officers know where their colleagues are and what they need to do about it.
- Rapid accessibility: DJSS software increases interoperability among your agency's and other agencies' tools and equipment. Tracks in real-time—where, when and how your people are deployed.

For more information, including a complete software evaluation with Mission Critical Network Services, call (888) 567-7347 or visit www.motorola.com/publicsafety.
Rapid results

Rapid deployment

DJSS is a fully integrated suite of products that provide rapid access to communications and information to your community’s public safety - DJSS is the proven difference in your team’s on-the-street performance - and to your people in the field is mobile, wireless technology. The most powerful public safety tool is information - and DJSS allows agencies to quickly collect and manage vital information from virtually any location.

Rapid intelligence

When a crime occurs or an emergency arises, officers must be able to access critical information quickly and accurately. Rapid access to communications and information at the right time can yield powerful, life-saving results. Public safety incidents can escalate from routine to high-risk in a split second. Often the difference between a successful emergency response and an unhappy ending is simple: Getting the right information to the right people at the right time, yielding powerful results that save lives and build public confidence.

Rapid access to communications and information at the right time is critical to public safety agencies in providing efficient incident response.

Moments before the officers arrived, her husband fled the severely injured which prompted Brenda to call 9-1-1. Just began to assault Brenda. Mike tried to intervene and was was visiting when John came home intoxicated and physically are married and have a 7 year-old daughter, Brittany. Mike

She informs the officers of the situation: John and Brenda arrived on scene. As they approach the house with caution, weapons.

While en route to the call, the officers are continuously receiving up-to-date information from dispatch as well as to demonstrate the difference that DJSS can make…

A MOMENT IN TIME: DJSS ESCALATES FROM ROUTINE deploy solution through a recognizable 9-1-1 situation to any public safety situation. Let's walk this easily through rapid mobile intelligence is the answer. DJSS will prove its value as the ultimate solution for seamless and rapid incident management to better protect and serve your communities.

DJSS ensures your police, fire and emergency medical: DJSS ESCALATES FROM ROUTINE

THE DIGITAL DIFFERENCE

SO WHY DIGITAL JUSTICE SOLUTION SELECT (DJSS)?

Motorola’s Digital Justice Solution Select delivers the benefits of a state-of-the-art public safety system at an amazingly affordable price:

• DJSS offers a variety of hardware configurations to meet budgetary and availability requirements

• DJSS is Windows-based, so it’s fast and economical to deploy

• DJSS is perfect for mid-size agencies and public safety organizations that want an affordable solution with a maximum number of features backed by Motorola’s renowned reputation

• DJSS is a pre-configured solution with the flexibility and expandability to meet your public safety communication needs, allowing standard, pre-configured options to be easily combined with more configurable capabilities.

• DJSS allows the deployment and management of a maximum number of features and Motorola’s renowned reliability and continuous data access. Information sharing through rapid mobile intelligence is the answer. DJSS will give you the peace of mind that comes from knowing you’re backed by the same exceptional quality, experience, dedication and trust. All from the company that has proudly serviced business and government with more than 75 years of experience, dedication and trust.

• DJSS increases productivity by keeping users communicating seamlessly while allowing them to manage both the traffic stop and the original incident and manage both the traffic stop and the original incident and
