CP185™

***Enhanced functionality,
dependable communication***

Now, it's easier to provide guests with a relaxing, enjoyable experience. When used with one of the many audio accessories, the lightweight, compact design of the CP185 provides hospitality businesses with a discreet voice communication solution to help avoid disturbing your guests. The robust, high-quality CP185 ensures employees can maintain on-the-go communication, resulting in responsive customer service and increased productivity.

Instant communication in hospitality means:

- Faster room turnover
- Improved special event coordination
- Immediate notification when clean-ups are needed
- Quick coordination and response to emergencies
- Better response to guest requests
- Enhanced safety and security
- Reduced operational costs with increased staff efficiency
- Increased overall guest service and satisfaction

Commercial Portable Two-Way Radio

Hospitality Challenges	Two-Way Radio Solutions
Establishment must be clean and well organized.	Call for immediate help when clean-ups are needed.
Safety and security concerns.	Security can respond swiftly to accidents or disturbances.
Reducing operation costs.	Employees are more productive.
Mobile workforce.	Stay connected. Communicate simultaneously with front desk, valet, room service, housekeeping, and wait staff.
Customers want a more enjoyable experience.	Eliminate the noise and distraction of paging systems.
Need for faster, more responsive service.	Instant communication enables faster room turnover, better response to guest requests, and precise valet coordination.

CP185™ Accessories

PMNN4080

High capacity Lilon battery, 2150mAh min, (PMNN4080)—delivers up to 16 hours of battery life at high power between charges to support long shifts common in the hospitality industry.

D-style earpiece (PMLN5001)—a lightweight, flexible earpiece that ensures a comfortable fit while providing a professional appearance necessary when addressing customers.

PMLN5001

Lightweight Temple Transducer (PMLN5003)—uses bone conduction technology allowing you to hear the radio transmissions without covering the ear, leaving your ears free to effectively communicate with customers.

HMN9754

2-Wire Surveillance Kit, Beige (HMN9754)—provides a discrete communication solution for security personnel, combined PTT and microphone enable quick and easy communication.

Key Radio Features

Increased privacy—built-in simple voice scrambling for security.

VOX ready for hands-free communication—users can focus on the job at hand.

Quick access to programmable features—5 programmable buttons enable easy, one-touch access to up to 10 user-selected features.

Multi-channel capability—16 channels support communication among all your employees.

Long battery life—the standard Lilon battery provides up to 11 hours (5/5/90 duty cycle) of battery life at high power to meet the demands of employee work shifts. Or choose an optional high-capacity battery for even more runtime. Charge radios in less than 3 hours with the included charger.

High power—5 watt (VHF) / 4 watt (UHF)—adjustable power levels help extend battery life.

Crisp, clear audio—X-Pand™ technology and enhanced rejection of interference help ensure you get your message through clearly.

Lightweight, compact design—makes the radio easy to use and handle.
