CP185™

***Enhanced functionality,
dependable communication***

In property management, it takes constant communication, often in noisy conditions, to maintain efficiency and ensure the responsiveness necessary to tenant satisfaction. With its audio clarity and durable, weather-resistant housing, the compact, easy-to-use CP185 provides a robust, high-quality communication solution.

Instant communication in property management means:

- Better project or repair coordination
- Reduced operational costs with increased staff efficiency
- Instant updates of grounds and building operations
- Enhanced safety and security
- Quick coordination and response to emergencies
- Seamless management of staff
- Immediate employee location
- Increased overall guest service and satisfaction

Commercial Portable Two-Way Radio

Property Management Challenges	Two-Way Radio Solutions
Pressure to finish projects faster.	Managers can maintain constant contact with and among workers to mobilize them and get tasks completed faster.
Growing focus on incident prevention.	Workers can coordinate quickly and respond to accidents or emergencies.
Getting more done with fewer workers.	Leaner work crews stay focused on the job at hand, work more efficiently, and keep projects moving.
Workers carry many tools on the job.	Durable, lightweight and easy to use, CP185 radios clip right on the tool belt.

CP185™ Accessories

Windporting Remote Speaker Microphone, Submersible (IP57) (PMMN4029)—a solution that allows audio to pass through the speaker grill even when the microphone port is blocked by water.

PMNN4082

NiMH battery, 1300 mAh min, (PMNN4082)—delivers up to 10 hours of battery life (5/5/90 duty cycle) at high power between charges; withstands outdoor temperature extremes.

Soft leather Protective Carry Case with D-Rings (PMLN5334)—provides additional protection for the radio while working in rugged or varied weather conditions.

PMLN5334

Key Radio Features

Increased privacy—built-in simple voice scrambling for security.

VOX ready for hands-free communication—users can focus on the job at hand.

Quick access to programmable features—5 programmable buttons enable easy, one-touch access to up to 10 user-selected features.

Multi-channel capability—16 channels support communication among all your employees.

Long battery life—the standard Lilon battery provides up to 11 hours (5/5/90 duty cycle) of battery life at high power to meet the demands of employee work shifts. Or choose a optional high-capacity battery for even more runtime. Charge radios in less than 3 hours with the included charger.

High power—5 watt (VHF) / 4 watt (UHF)—adjustable power levels help extend battery life.

Lightweight, compact design—makes the radio easy to use and handle.

Crisp, clear audio—X-Pand™ technology and enhanced rejection of interference help ensure you get your message through clearly.
