CP185™

Enhanced functionality, dependable communication

Ensuring customer satisfaction in a highly competitive retail environment? A tough challenge. Get a compact, robust, high-quality voice communication solution with the lightweight, easy-to-use CP185—and enable optimum customer service and enhanced employee productivity.

Instant communication in retail means:

- Improved employee efficiency and operations
- Deploying workers where needed
- Improved shopping environment
- Increased customer service and satisfaction
- Eliminating overhead paging
- Quick coordination and response to emergencies
- Improved response time
- Faster stock and price checks
- Enhance safety and security

Commercial Portable Two-Way Radio

Retail Challenges	Two-Way Radio Solutions
The need for faster, more responsive service.	Quickly contact clerks for price checks or in-stock items.
Pressure to reduce costs.	Productive clerks can respond to customer needs faster. Accelerated restocking and merchandise flow.
Mobile workforce.	Employees and managers can stay connected, even in different parts of the building.
Ensuring safety and security.	Mobilize security quickly to respond to accidents or thefts.
Customers want a pleasant shopping experience.	Eliminate the noise and distraction of paging systems.
Establishment must be clean and well organized.	Call for immediate help with clean-ups and restocking.

CP185™ Accessories

Lightweight Temple Transducer (PMLN5003)—uses bone conduction technology allowing you to hear the radio transmissions without covering the ear, leaving your ears free to effectively communicate with customers.

PMLN4445

Ultra Lightweight headset (Mag One™) (PMLN4445)—lightest weight headset option that provides a convenient cost effective communication for retailers.

PMNN4443

Ear Receiver with In-line Microphone and PTT/VOX Switch (Mag One) (PMLN4443)—comfortable lightweight and cost-effective earpiece solution that allows you to communicate discretely and effectively with other employees.

PMNN4082

Lilon battery, 1500 mAh min, (PMNN4081)—a slim lightweight battery that delivers up to 11 hours of battery life (5/5/90 duty cycle) at high power between charges.

NiMH battery, 1300 mAh (PMNN4082)—provides up to 10 hours of battery life at high power between charges.

Key Radio Features

Increased privacy—built-in simple voice scrambling for security.

VOX ready for hands-free communication—users can focus on the job at hand.

Quick access to programmable features—5 programmable buttons enable easy, one-touch access to up to 10 user-selected features.

Multi-channel capability—16 channels support communication among all your employees.

Long battery life—the standard Lilon battery provides up to 11 hours (5/5/90 duty cycle) of battery life at high power to meet the demands of employee work shifts. Or choose a optional high-capacity battery for even more runtime. Charge radios in less than 3 hours with the included charger.

High power—5 watt (VHF) / 4 watt (UHF)—adjustable power levels help extend battery life.

Crisp, clear audio—X-Pand™ technology and enhanced rejection of interference help ensure you get your message through clearly.

Lightweight, compact design—makes the radio easy to use and handle.
