To succeed in today’s fast-moving business world, you have to constantly explore new opportunities, push past barriers, and move faster and further than your competition. You also need communication tools that can keep up the pace—and give you immediate, dependable access to the right people and information. That’s the power of two-way radio.

Efficient and cost-effective, two-way radio helps maximize your productivity so you can get the job done. By simply pressing a button, you can connect with one, ten, or more people instantly. And when you choose a Motorola radio, you know you’re getting a tool designed and built to meet your needs as a professional.
To succeed in today’s fast-moving business world, you have to constantly explore new opportunities, push past barriers, and move faster and farther than your competition. You also need communication tools that can keep up the pace—and give you immediate, dependable access to the right people and information. That’s the power of two-way radio.

Efficient and cost-effective, two-way radio helps maximize your productivity so you can get the job done. By simply pressing a button, you can connect with one, ten, or more people instantly. And when you choose a Motorola radio, you know you’re getting a tool designed and built to meet your needs as a professional.
**HT750 Portable Radio**
Available in Low Band, VHF and UHF
Operates on Conventional Systems

**HT1250 Portable Radio**
Available in Low Band, VHF and UHF
Operates on Conventional Systems

**HT750: The Practical Radio**
The HT750™ radio is the affordable solution for professionals who require rugged and reliable radio to stay in contact. This practical radio can easily increase productivity by keeping users communicating, while allowing them to concentrate on the job at hand. And with Motorola’s unique X-pand™ technology, audio quality is clean and crisp even in noisy environments. With the HT750™, communication couldn’t be easier.

**HT1250: The Versatile Radio**
And with Motorola’s unique X-pand™ technology, audio clarity is superb–even in noisy surroundings. The radio offers a full menu of advanced signaling features, including paging or calling selective radios or groups. Users can store information such as phone numbers, call lists and radio IDs for easy access. And with Motorola’s unique X-pand™ technology, audio clarity is superb—even in noisy surroundings. The large LCD display is extremely helpful in large maintenance networks and critical situations. The radio of choice is the HT1250 portable. It’s the solid tool that changes with your needs.

**HT750 Features:**
- Selective Radio Inhibit
- Emergency Signal (Encode)
- Radio Check (Encode/Decode)
- Call Alert (Decode)
- Selective Call (Decode)
- Push-to-talk ID (Encode)
- 6 Programmable Buttons
- Telephone Interconnect
- Small, Lightweight and Durable

**HT1250 Features:**
- Selective Radio Inhibit
- Emergency Signal (Encode)
- Radio Check (Encode/Decode)
- Call Alert (Decode)
- Selective Call (Decode)
- Push-to-talk ID (Encode/Decode)
- 14 Programmable Buttons
- Telephone Interconnect
- Small, Lightweight and Durable

**Antennas**
- Flexible Whip Antennas
- Stubby Antennas
- FLEXIBLE WHIP ANTENNAS
- STUBBY ANTENNAS

**HT750, HT1250, HT1250+LS, HT1250+LS2, HT1550+XLS**

**Antennas**

- Flexible Whip Antennas provide a precision finish, steel cabling, and spiral wound antenna for optimal radiation characteristics.

- Stubby antennas are ideal when the radio is worn on the belt because they are short and non-obtrusive. These helical rugged antennas feature a capless sheath that allows for maximum flexibility.

- Flexible Whip. Antennas have a precision finish, steel cabling, and spiral wound antenna for optimal radiation characteristics.
**HT750 PORTABLE RADIO**
Available in Low Band, VHF and UHF
Operates on Conventional Systems

**HT1250 PORTABLE RADIO**
Available in Low Band, VHF and UHF
Operates on Conventional Systems

**Emergency Button**

Emergency button couldn't be easier.

**HT750: The Practical Radio**
The HT750® radio is the affordable solution for professionals who require rugged and reliable radios to stay in contact. This practical radio can easily handle increases production by keeping users communicating, while allowing down time to concentrate on the job at hand. And with Motorola’s unique X-Pand™ technology, audio quality is clean and crisp in even noisy environments. With the HT750 radio, communication couldn't be easier.

**HT1250: The Versatile Radio**
The HT1250™ portable radio is an essential tool for growing organizations because of its unique versatility. The radio offers a full menu of advanced signaling features, including paging or calling selective radios or groups. Users can store information such as phone numbers, call lists into radio IDs for easy access. With the HT1250’s unique X-Pand™ technology, audio clarity is equal even in noisy surroundings. The large LCD display is extremely helpful in large communication networks and critical situations. The radio of choice is the HT1250 portable. It’s the solid that charges with your needs.

**HT750 Features:**
- **Dual, Lightweight and Durable**
- **430-450 MHz Expandable**
- **Call Bypass**
- **Telephone Interconnect Capable**
- **Option Board Capabilities**

**HT1250 Features:**
- **Select Call (Decode)**
- **Rapid Priority (Decode)**
- **Repeaters**
- **Handsfree operation**
- **Internal VOX**
- **12.5/25 kHz Switchable Channel Spacing**
- **12-18 Channels (16 Zones)**
- **Select Call (Encode)**
- **Rapid Call (Encode)**
- **Call Alert (Encode)**
- **Selective Call (Decode)**
- **Push-to-talk ID (Encode)**

**X-Pand Voice Compression**

Crisper, clearer audio quality

**Radio Check (Decode)**

Checks channel talktime

**Call Alert (Encode)**

Sounds an alarm or alerts dispatcher of incoming calls when you're trying to reach them, Inform unavailable users that your radio is activated, and let others check your radio status

**Selective Call (Encode)**

Identify your outgoing calls and incoming callers

**Capable**

Adjustable Power Levels

Switchable Channel Spacing

**Phone list**

Easily store and retrieve favorite phone numbers

**Menu, navigation, and exit functions**

14-Character Alphanumeric Display

**128 Channels (16 Zones)**

**Mailbox/Personal Mailbox**

Allows the user to read private messages

**DTMF Decode Option Board (Field Install Only)**

AAHLN9729C

**Voice Storage Option Board (Field Install Only)**

AAHLN9725C

**STUBBY ANTENNAS**

- Flexible Whip, 136-155 MHz
- Flexible Whip, 150-161 MHz
- Flexible Whip, 403-520 MHz

Stubby antennas are ideal when the radio is worn on the belt because they are short and non-restrictive. These telescopic stubby antennas feature a collapsible shaft that allows for maximum flexibility.

**FLEXIBLE WIRE WHIP ANTENNAS**

- Flexible Whip, 136-155 MHz
- Flexible Whip, 150-161 MHz
- Flexible Whip, 403-520 MHz

**RETRACTIBLE BOOMS**

- Voice Storage Option Board (Field Install Only)
- DTMF Decode Option Board (Field Install Only)
HT750 and HT1250 Specifications

Factory Mutual Approvals
The HT Series is Factory Mutual approved and Canadian Standard Association approved as intrinsically safe for use in Classes I, II, and III, Division 1, Groups C, D, E, F and G, as well as non-incendive use in Class I, Division 2, Groups A, B, C and D on models ordered with the Factory Mutual option, and battery.

HT1250•LS+: The Intelligent Radio

A unique combination of high-level features plus the exceptional versatility of trunking make the HT1250•LS+ portable radio a smart choice for your business communications. The HT1250•LS+ incorporates LTR® trunking capabilities – providing a wider calling range, faster channel access, greater privacy, and higher user and talkgroup capacity. The HT1250•LS+ also offers innovative PassPort® trunking. Ideal for users with growing communications needs, PassPort includes all the advantages of LTR® trunking plus:

- **Wide Area Coverage, Seamless Roaming** — Automatic switching between networked PassPort sites lets you maintain constant communication over long distances without touching a button.
- **Exceptional Audio Quality** — Received Signal Strength Indicator (RSSI) communication technology utilizes one of the strongest signals available, giving you optimal sound quality.
- **Superior System Access** — Automatic site registration/deregistration reduces busy channels and enhances system efficiency.
- **Efficient Channel Expansion** — Direct frequency assignment allows you to add channels and sites over the air without taking radios out of service.
- **Electronic Serial Number Protection** — Keeps system resources available by helping to prevent unauthorized radio cloning.
- **Increased Flexibility** — Access privileges by Mobile Identification Number** (MIN) allows radios to be directed to specific sites or talkgroups.

**Optional PassPort feature**

**X-Pand™ Voice Compression**
Crisper, clearer audio quality

**7 Programmable Buttons**
Easy access to favorite features

**Adjustable Power Levels**
Saves battery life

**Dual Priority Scan**
Frequently scan higher priority channels

**Repeater Talkaround**
Unit-to-unit communications by passing the repeater

**Telephone Interconnect Capable**
Make and receive phone calls with the radio

**Front Panel Programmable Phone list**
Easy store and retrieve favorite phone numbers

**Selectable Scanning**
Scan only the transmissions you want to hear.

16 or 32 Conventional Channels

**Emergency Button**
(Conventional Mode only)
Sound alarm or alert dispatcher in an emergency situation

**Escalert™ Call Features**
Ensures important signals are heard

**Internal VOX**
Handsfree operation with headset

14-Character
Alphanumeric Display
with User-Friendly Icons
Information is clear and easy to read

**Control Buttons**
Menu, navigation, and exit functions

15 Trunked Zones with up to 16 Talkgroups per Zone (LTR and PassPort)

**MDC1200 Signaling (Encode/Decode)**
Features on Conventional and LTR Zones*
- **Caller ID** — Identifies incoming callers
- **Selective Call** — Lets you call a specific group or individual
- **Call Alert** — Notifies unavailable users that you’re trying to reach them
- **Radio Check** — Tells you whether another user’s radio is activated
- **Message** — Allows you to send and receive pre-programmed messages

**Quick Call II™ on Conventional Zones**
Send and receive information via tone or digital signals

*Only available on certain models. Check with your Motorola Authorized Dealer for availability.

HT1250•LS+ Features:
- **Small, Lightweight and Durable**
- **12.5/20/25 kHz Switchable Channel Spacing**
- **Alarm Clock**
- **Option Board Capabilities**
- **PassPort Selective Call or Call Alert**
  Lets you initiate or receive a private call or a private page from a specific user.
- **Home Channel Revert**
  Automatic, one-button return to a preferred talkgroup or channel.
- **User-Defined Lists**
  Change scan, phone, and call lists on the fly.
- **Voice Storage**
  Record important messages or personal memos.
- **Roam Request**
  Optional manual initiation of roaming function.
- **Roam Lock**
  Optional manual lock of the radio onto a site.

HT1550•XLS PORTABLE RADIO
Available in VHF and UHF
Operates on Conventional and LTR® Systems

HT1550•XLS: The Proficient Radio
Users who require the highest levels of functionality will find this exceptional, Professional Series radio to be an invaluable tool. The HT1550•XLS™ portable offers a wide range of advanced features to handle even the most challenging and diverse communication needs. Dual mode operation capability allows users to switch between LTR® and conventional modes at the touch of a button—and makes migration easy for growing businesses. MDC signaling capabilities let you control transmissions with extraordinary precision. An extra-large alphanumeric display with user-friendly icons is designed to make information clear and understandable at a glance. The HT1550•XLS radio delivers all the communications power and control you need to maximize your efficiency and productivity on the job.

7 Programmable Buttons
Easy access to favorite features
- System/All Group/Auto Group Selective Scanning
  Define the frequency and type of transmissions your radio scans
- Multi-Home Channel Revert
  Automatic, one-button return to a preferred channel
- Home Channel Revert Autokey (LTR mode)
  Automatically access your favorite talkgroup and send a PTT ID to a group of radios
- User-Defined List
  Change scan, phone, and call lists on the fly

Telephone Interconnect
Place and receive phone calls using the radio

Front Programming Capable
Program frequencies, PL codes and more using the keypad

Voice Storage with Answering Machine Mode
Answers incoming calls with a personalized greeting when you’re unable to answer your calls, and records voice message from other users

MDC1200™ Signaling Features
(Conventional and LTR Modes)
- Push-to-talk (PTT) ID (Encode/Decode)
  Identify your outgoing calls and incoming callers
- Selective Call (Encode/Decode)
  Send or receive calls from a specific group or individual
- Call Alert (Encode/Decode)
  Inform unavailable users that you’re trying to reach them, and receive alerts of incoming calls when a short distance away from your radio
- Radio Check (Encode/Decode)
  Learn whether another user’s radio is activated, and let others check your radio status
- Emergency† (Encode/Decode)
  Sounds an alarm or alerts individual user or dispatcher in urgent situations
- Selective Radio Inhibit (Decode)
  Allows system owner to disable stolen or missing radios

Emergency Button†
Sounds alarm or alerts dispatcher in urgent situations

Up to 160 Conventional Channels
Up to 15 Trunked Zones with 16 Talkgroups Each

Four-Line Alphanumeric Display
with User-Friendly Icons
Identifies trunked zones, talkgroups, and conventional channels

Control Buttons
Easy management of menu, navigation, and exit functions

Navigation Button
Scroll through menus and text on the display

Call Stacking
Tracks Call Alerts and Selective Calls received while you’re on another call or unable to answer your call

† Emergency in LTR mode is dependent upon system access.

Remote Speaker Microphones (RSM)
RMN5055A*  Heavy Duty Remote Speaker Microphone with 3.5mm Audio Jack
AAHMN9052E*  Remote Speaker Microphone
AAHMN9053E*  Noise-canceling Remote Speaker Microphone with 3.5mm Audio Jack
HKN9055A  Replacement Cable for Remote Speaker Microphone

The Remote Speaker Microphone is a water-resistant compact unit that allows the user to talk and listen without removing the radio from the belt, case or charger. It has a coiled cord, push-to-talk switch and clothing clip on the back cover.

Public Safety Speaker Microphones (PSM)
AAHMN9054C**  UHF Public Safety Speaker Microphone (includes UHF 450-470 MHz Antenna, Swivel Clip, Volume Toggle Switch, and 3.5mm Audio Jack)
AAHMN9057C*  VHF Public Safety Speaker Microphone (includes VHF 148-174 MHz Antenna, Swivel Clip, Volume Toggle Switch, and 3.5mm Audio Jack)

Public Safety Speaker Microphones are specially designed to help cancel ambient noise during transmission. Coverage is increased with included antenna.

RSM and PSM Accessories
AARLN4885B*  Receive-Only Earbud with Black Coiled Cord and 3.5mm Adapter, for use with HMN3158A, AAHMN9053E, AAHMN9054C and AAHMN9057C
RLN4941A*  Receive-Only Earpiece, with 3.5mm Plug, Translucent Tube and Rubber Eartip for use with HMN3158A, AAHMN9053E, AAHMN9054C and AAHMN9057C
WADN4190A*  Flexible Ear Receiver with 3.5mm Adapter for use with HMN3158A, AAHMN9053E, AAHMN9054C and AAHMN9057C

*Intrinsically safe
REMOTE SPEAKER MICROPHONE WITH BLUETOOTH™
WIRELESS TECHNOLOGY

- **HLN3156A** Wireless Remote Speaker Microphone Kit; includes Remote Speaker Microphone with Bluetooth Wireless Technology (HMN3158A) and Radio Adapter (HHLN4125A); Adapter-capable Battery (HNN9003AR) is required but sold separately.
- **HMN3158A** Remote Speaker Microphone with Bluetooth Wireless Technology; requires Radio Adapter (HHLN4125A) and Adapter-capable Battery (HNN9003AR)
- **HHLN4125A** Radio Adapter with Bluetooth Wireless Technology
- **HNN9003AR** Adapter-Capable NiMH Battery, 1200 mAh, 7.5V
- **RLN5213A** Carry Case for Remote Speaker Microphone with Bluetooth Wireless Technology

Work and communicate in a cord-free environment. Motorola is on the front line of Bluetooth Wireless Technology by providing users of two-way radios the first Wireless Remote Speaker Microphone. This device communicates to a two-way radio through an adapter equipped with Bluetooth Wireless Technology and an Adapter-Capable Battery that is attached to a Motorola two-way radio. The user simply turns on the radio and the Wireless Remote Speaker Microphone—the Bluetooth Technology does the rest! The Adapter and Remote Speaker Microphone with Bluetooth Wireless Technology “connect” and link to each other wirelessly. Compatible with Motorola HT750 and HT1250 radios.

**MIC JACKETS**
- **RLN5009A** MicJacket, compatible with AAHMN9052E Remote Speaker Microphone
- **RLN5009A** MicJacket, compatible with AAHMN9053E Remote Speaker Microphone
- **RLN5010A** MicJacket, compatible with AAHMN9054C and HMN9057C Public Safety Speaker Microphones

MicJackets provide speaker microphone users with a way to further protect the “head” of their microphone from dust, dirt, metal particles, sweat, body oils and other on-the-job grime. MicJackets also allow the user to handle or interact with the speaker microphone in a more hygienic way.
SURVEILLANCE KITS

RECEIVE ONLY EARPIECE (1-WIRE)
AARMN4021A*    Beige
AARMN4028A*    Black

EARPIECE WITH MICROPHONE AND PUSH-TO-TALK COMBINED (2-WIRE)
AARMN4022A*    Beige
AARMN4029A*    Black

EARPIECE WITH MICROPHONE AND PUSH-TO-TALK COMBINED (3-WIRE)
ENMN4017A*    Beige
ENMN4014A*    Black

Surveillance accessories allow the user to privately receive communications with the earpiece and are ideal when environments require discreet communications.

SURVEILLANCE KITS WITH EXTENDED-WEAR COMFORT EARPIECE

COMFORT EARPIECE WITH MICROPHONE AND PUSH-TO-TALK COMBINED (2-WIRE)
RLN5315A    Black
RLN5316A    Beige

These kits include a comfort earpiece with a rubber eartip and clear comfortable acoustic tube. Users hear transmissions clearly, while the clear tube provides a discreet appearance.

SURVEILLANCE KIT REPLACEMENT ACCESSORIES

5080370E97    Standard Rubber Eartip, pack of 25, Clear

*Intrinsically safe
CLEAR COMFORTABLE EARPIECES

- **RLN4760A**  Small Custom Earpiece, Right Ear
- **RLN4763A**  Small Custom Earpiece, Left Ear
- **RLN4761A**  Medium Custom Earpiece, Right Ear
- **RLN4764A**  Medium Custom Earpiece, Left Ear
- **RLN4762A**  Large Custom Earpiece, Right Ear
- **RLN4765A**  Large Custom Earpiece, Left Ear

The Clear Comfortable Earpiece forms to the inside of the ear and is perfect for low noise environments. Compatible with the NTN8371A Clear Acoustic Tube Assembly and most Surveillance Kits (1, 2, and 3-wire), this Earpiece is made of easy-to-clean, chemically inert, hypo-allergenic material. The following 3 items are required for this product:

- Clear Comfortable Earpiece
- Clear Acoustic Tube Assembly (NTN8371A)
- Surveillance Kit

NOISE KITS

- **NTN8370A**  Extreme Noise Kit, includes 2 Foam Earplugs for loud environments; provides 24dB of noise reduction
- **NTN8371A**  Low Noise Kit, includes Rubber Eartip for low noise environments; does not provide hearing protection.
- **5080384F72**  Replacement Foam Plugs; for use with NTN8370A (pack of 50)
- **5080370E97**  Replacement Standard Clear Rubber Eartips; for use with NTN8371A (pack of 25)

This lightweight translucent tube attaches to Motorola Surveillance Kits to provide additional flexibility and comfort. Clothing clip prevents the accessory from being pulled from the ear due to body movement or head rotation.

Acoustic Tube with Earphone

Standard Rubber Eartip Included with NTN8371A

Noise Attenuating Plugs NRR24dB Included with NTN8370A

Optional Clear Comfortable Earpiece – Order Separately
**COMpletely Discreet earpiece**

**RLN4922A**  Completely Discreet Earpiece Kit; includes Wireless Earpiece, Inductive Neckloop, 6 Spare Batteries and 5 Spare Ear Wax Guards

**RLN4919A**  Ear Wax Guards, 5 per pack

**RNN4005A**  1.4V Battery, 6 per pack

Remain discreetly in touch with this miniaturized receiver. All messages received through the user’s two-way radio are inductively relayed to the Wireless Earpiece in the user’s ear. Inductive Neckloop is easily hidden under the user’s clothing for covert operations. Neckloop attaches to the user’s Motorola Surveillance Kit, providing completely discreet two-way communications. Security operatives, public safety officials, and private investigators can communicate with ease without any visible equipment. As small as it is, this earpiece offers a full range of audio functions, including automatic squelch, automatic gain control and noise filtering. Must be used in conjunction with a Motorola Surveillance Kit. Just remove the earpiece on any standard 2 or 3-wire Surveillance Kit and plug in the Neckloop for completely discreet communication.

**Flexible Ear Receiver**

**ENMN4013A**  Flexible Ear Receiver

**7580372E11**  Replacement Foam Ear Cushions

The Flexible Ear Receiver contains a flexible ear-loop and speaker and rests external to the ear. Receive only.

**Ear Microphone System (EMS)**

**BDN6677A**  Ear Microphone for Standard Noise Levels (up to 95dB), Black

**BDN6678A**  Ear Microphone for Standard Noise Levels (up to 95dB), Beige

**BDN6641A**  Ear Microphone for High Noise Levels (up to 105dB)

**0180305J46**  Training CD for Ear Mic and Temple Transducer

**Interface Modules for Ear Microphone System**

**AARMN4044A**  Push-To-Talk Only Interface Module

**AARMN4045A**  Push-To-Talk or Voice-Activated Interface Module  
(VOX operational only on conventional channel)

This compact unit picks up the voice through bone vibrations in the ear canal. The miniature earpiece leaves the hands free and face unobscured when worn by rescue and hazard protection personnel, who still retain the ability for direct hearing and speaking. For personnel required to wear breathing apparatus, communications with protective masks are as clear as communications without it. And its high speech clarity under noisy environments makes it ideal for use in high-noise situations. Available in PTT or Voice-Activated (VOX). Interface Module required.

</tbody>
</table>

The Temple Transducer represents a significant achievement in headset design and functionality. It allows the user to receive audio without covering the ear. The receiver portion of this accessory rests on the temples and is capable of converting the received audio from a two-way radio into sound vibration. The sound vibration is transmitted through the surrounding human tissue and bone directly into the inner ear, where it is received by the user. It features an In-Line PTT and noise canceling boom microphone. The Temple Transducer enhances communication and safety by not impairing the user’s hearing of external sounds in the environment from machinery and equipment, warning and fire alarms, intercoms, traffic and even casual conversations with co-workers. The Rugged Temple Transducer features noise canceling and water resistant boom microphone, adjustable straps, and large In-Line PTT. Like the Standard Temple Transducer it can be worn under helmets.

- **NTN8988A** Ear Straps for secure attachment to ear (pack of 10)
- **RLN5037A** Replacement Ear Tubes (pack of 10)

With the CommPort Integrated/Microphone System, users can speak in a whisper and hear in a crowd. CommPort contains a miniature microphone and receiver that connects to a Motorola two-way radio and fastens securely to the ear.

Using the latest in voice processing technology, the CommPort system makes it possible to hear and speak under the most adverse conditions by picking up sound waves as they cross the face, enhancing voice clarity under high noise conditions.

The miniature mic that sits on the top of the earpiece picks up the sound waves, cutting through noise and delivering audio without blocking normal hearing.

Its variety of push-to-talk options make it ideal for different applications, which include transmitting to firefighters in a burning building, to S.W.A.T. or police in covert situations, or to workers operating in a noisy environment.

*Intrinsically safe
RECEIVE-ONLY HEADSETS
RMN4054B  Receive-Only Hardhat Mount Headset mounts easily to hardhats with slots and provides 22dB of noise reduction; for use with AAHMN9053E, AAHMN9057C and AAHMN9054C (hardhat not included)
RMN4055B  Receive-Only Headband Style Headset provides 24dB of noise reduction; for use with AAHMN9053E, AAHMN9054C and AAHMN9057C

LIGHTWEIGHT HEADSETS
AARMN4018B*  Single Muff-adjustable Lightweight Headset with Boom Microphone and In-Line PTT
AARMN4031B  Lightweight Headset with Swivel Boom Microphone; no In-Line PTT
ENMN4012A*  Ultra-Light Headset, behind the head style with flexible Boom Microphone and In-Line PTT
AARMN4017A*  Ultra-Light Headset with Boom Microphone, Earbud Style Receiver
REX4648A  Replacement Foam Earpad and Windscreen Kit for AARMN4018A and AARMN4031A
RLN5238A  NFL Style Lightweight Headset. Similar to the headset worn by coaching staff in the NFL. Requires adapter
AAHLN9716B  Allow for high clarity, discreet two-way communications while adding comfort necessary for extended wear in moderate noise environments.

*Rintrinsically safe
MEDIUM WEIGHT HEADSETS

AARMN4019A* Medium Weight Headset, over-the-head with In-Line PTT and Noise Canceling Swivel Boom Microphone, provides 24dB of noise reduction

AARMN4032A* Medium Weight Headset, over-the-head with Noise Canceling Swivel Boom Microphone; provides 24dB of noise reduction (VOX operational only on conventional channel)

ENMN4016A* Medium duty, behind-the-head Headset with Swivel Boom, Microphone and In-Line PTT, provides 24dB of noise reduction

RMN4051B Hardhat Mount Headset; mounts easily to hardhats with slots – provides 22dB of noise reduction; requires RKN4097A adapter cable; hardhat not included

RKN4097A Radio Adapter Cable with In-Line PTT for use with RMN4051B

MEDIUM WEIGHT HEADSET REPLACEMENT ITEMS

1580376E32 Replacement Cloth Covers for Earseals (1pair)
3280376E35 Replacement O Ring for Windscreen
5080548E02 Replacement Windscreen for Boom Microphone
7580376E34 Replacement Foam Ear Seals (1 pair)

Medium-weight dual-muff headsets offer high-clarity sound with the additional hearing protection necessary for providing consistent, clear, two-way radio communications in harsh, noisy situations.

*Intrinsically safe
**AUDIO ACCESSORIES**

**TACTICAL MEDIUM WEIGHT HEADSETS**
- **RMN4052B** Tactical Headband Style Headset, Grey; provides 24dB of noise reduction; requires RKN4097A Adapter Cable
- **RMN4053B** Tactical Hardhat Mount Headset; mounts easily to hardhats with slots; provides 22dB of noise reduction; requires RKN4097A Adapter Cable; hardhat not included
- **RKN4097A** Radio Adapter Cable with In-Line PTT for use with RMN4052A and RMN4053A

Same high-clarity sound and additional hearing protection as our standard Medium Weight Headsets, while including two microphones on the outside of each earcup, which reproduce the ambient sound back into the headset. Harmful sounds are suppressed to a safe level and low sounds are amplified up to 5 times, but never more than 82dB. Includes on/off volume control one earcups.

**RACING HEADSET**
- **RMK5015A** Racing Headset (Requires adapter cable RKN4091A)
- **RKN4091A** Adapter Cable

Motorola is the official wireless equipment supplier of the CART® (Championship Auto Racing Teams), so whether your playing field is a racetrack, construction site or other challenging environment you can depend on the comfort and dependability of the Racing Headset.

**HEAVYDUTY HEADSET**
- **AARMN40208** Push-To-Talk or Voice-Activated Headset with Noise Canceling Boom Microphone; noise reduction rating=24dB (Vox operational only on conventional channel)
- **RMN5047A** NFL Style Heavyduty, Single Muff Headset. Similar to the headset worn by coaching staff in the NFL. (Requires adapter AAHLN9716B)

Heavyduty Headsets include Noise Canceling Boom Microphone. The Push-To-Talk switch is located on the earcup.

1505596Z02  Replacement Strap for RLN4570A

All of the same features as the original Chest Pack (HLN6602A) plus break-a-way tabs that allow the entire pack to be pulled off with approximately 10 lbs. of pressure. Perfect for railroads, manufacturing locations, construction sites, and anywhere safety is a concern.

RadioPAk ™
RLN4815A  RadioPAk Radio/Utility Case
4280384F89  Universal RadioPAk Belt Lengthener; fits waists large that 40”

It’s different from all other holders or cases: more comfortable, more useful and stylish. Worn around the waist, it holds two-way, iDEN® portables or cellular phones right at hand. Includes a separate 6” x 8” zippered pouch for other on-the-job necessities. Adjustable nylon weave belt fits both men and women.
BATTERIES

impress® BATTERIES
HNN4001A  1900mAh, 7.5V
HNN4002A  1800mAh, 7.5V, Intrinsically safe
HNN4003A  2000mAh, 7.2V

impress® batteries, when used with an impress charger, provide automatic/adaptive reconditioning, end of service display, and other advanced features. Data is stored in the battery and communicated to the charger via a unique communication protocol which is designed to automatically maximize talk time and optimize battery cycle life.

PREMIUM NICKEL CADMIUM (NiCd)
HNN9011AR  1200 mAh, 7.5V, Intrinsically Safe
HNN9012AR  1300 mAh, 7.5V

PREMIUM NICKEL METAL HYDRIDE (NiMH)
HNN9008AR  1500 mAh, 7.5V
HNN9009AR  1900 mAh, 7.5V
HNN9010AR  1800 mAh, 7.5V, Intrinsically Safe
HNN9003AR  1200 mAh, 7.5V (for use with Bluetooth® Remote Speaker Microphone)

PREMIUM LITHIUM ION (Li-ion)
HNN9013AR  1500 mAh, 7.5V

POWER NICKEL METAL HYDRIDE (NiMH)
WPNN4045AR  1200 mAh, 7.5V

Motorola Original Batteries are ruggedly designed for lasting durability and are system tested with Motorola two-way radios to ensure optimum performance. We offer various chemistry and capacity alternatives, allowing the user to select the ideal battery for his or her needs. NiCd is best suited for extreme-temperature operation, and provides the maximum number of charge/discharge cycles. Li-ion batteries offer extended duty cycles—providing more talk time per shift.

SINGLE AND SIX-UNIT CHARGERS

AAHTN3000D  120V Single Unit Rapid Rate Charger (US plug)
AAHTN3003D  120V Six-Unit Rapid Rate Charger
NLN7967A  Wall Mount Kit for Six-Unit Charger
HLN9793A  Charger Insert Spacer –compatible with “A” version Chargers only
HLN9794B  Charger Insert Spacer –compatible with “B”, “C” and “D” version Chargers

Single and Multi-Unit Chargers can rapidly charge batteries on or off the radio in one to three hours. These tri-chemistry chargers feature rapid, trickle, and maintenance modes. The maintenance mode “revert to rapid” feature ensures batteries remain fully charged even when left on the charger for extended periods of time. Multi-unit Chargers can be wall or rack mounted. All chargers are specifically designed to meet the requirements of batteries manufactured by Motorola.
impres™ SMART ENERGY SYSTEM
WPLN4182A   impres™ Single Unit Charger, 110V

impres™ MULTI-UNITCHARGER
WPLN4187A   impres™ Multi-Unit Charger, 110V
NLN7967A   Wall Mount for Multi-Unit Charger

The impres™ smart energy system ensures maximum talk-time and optimized battery cycle life through the use of its advanced charging algorithm and automatic reconditioning features. The smart energy system reconditions impres™ batteries when they need it, automatically, keeping them in peak condition. Its advanced conditioning features allow batteries to be safely left on the charger for extended periods of time without incurring the damaging heat build-up which can rob batteries of cycle life. In addition, batteries left on the charger are kept fully charged so they are always ready when you need them. The impres™ system reconditions batteries when they need it based on their usage pattern. Talk time and cycle life are optimized and the need for manual maintenance programs are reduced or eliminated. This rapid-rate tri-chemistry charging system will also charge existing legacy batteries.

impres™ MULTI-UNIT CHARGER WITH CHARGER DISPLAY MODULES
WPLN4192A   impres™ Multi-Unit Charger with Charger Display Modules, 110V
NLN7967A   Wall Mount for Multi-Unit Charger

Charger Display Modules provide powerful “real time” analyzing information for impres™ batteries, including current charge status; current battery mAh; percent rated capacity, battery voltage; battery kit number; battery serial number; battery chemistry; time remaining to charge complete; forecast number of cycles to next reconditioning; and more.

impres™ INDIVIDUAL CHARGER DISPLAY MODULE
RLN5382A   Charger Display Module for impres Multi-Unit Charger

These modules are designed to be retrofittable with the standard impres™ Multi-Unit Charger. Up to six modules can be purchased per charger, one for each charging pocket. Includes detailed installation instructions.

impres™ CD
9880384R88   impres™ CD

This CD provides an interactive guide to the impres Charging System and provides benefit statements as well as application examples.
The Motorola Conditioning Charger utilizes negative pulse charging technology that will help extend battery life and enhance battery operation. It will safely condition and charge your specified NiCd and NiMH batteries in approximately one to two hours. The MCC controls heat buildup due to its charging and termination algorithms, and the maintenance mode allows batteries to be safely left on the charger for extended periods of time. And now there is an Instant Fault Detection (IFD) feature which detects faulty radio batteries in seconds, then notifies the user that the battery will not operate at peak performance. Optional accessories are available allowing these chargers to be used in both AC and DC environments, providing optimal charging flexibility.

MOTOROLA CONDITIONING CHARGERS (MCC)

- **WPLN4107BR** MCC Kit, 110V AC (includes both Base Charger Unit and 7V Adapter Plate)
- **WPLN4106BR** MCC Kit, 220V AC (includes both Base Charger Unit and 7V Adapter Plate)
- **WPPN4065BR** Multi Unit Conditioning Charger, Four-Station Base, 110V (order Adapter Plate separately)
- **WPPN4082BR** 7V Adapter Plate Only
- **3080384G15** Cigarette Lighter Adapter Cord
- **RLN4814A** Vehicular Mounting Bracket and Hard-wire Cable for Single Unit Motorola Conditioning Charger
- **3080384M21** DC Hard Wire Cable, for vehicular installation (included in RLN4814A)
**BATTERY MAINTENANCE SYSTEM PLUS (BMS PLUS)**

**INCREASE THE USEFUL LIFE OF YOUR BATTERIES**

- **WPLN4079BR**  Six-Station, 110V AC, 50/60 Hz
- **WPLN4080BR**  Six-Station, 230V AC, 50/60 Hz
- **WPPN4085AR**  BMS PLUS field Upgrade Kit for WPLN4079AR, WPLN4080AR and WPLN4081AR; allows these units to support Li-ion battery chemistries.
- **NDN4005B**  Three-Station, 110V AC, 50/60 Hz (does not support Li-ion or 3-cell batteries)

Using interchangeable battery adapters (sold separately), the BMS PLUS is capable of charging and discharging, analyzing, conditioning, and cycle testing batteries. It supports NiCd, NiMH, and Li-ion battery chemistries (Li-ion on six station models only) and tracks battery voltage and capacity (mAh). The BMS PLUS offers a 3-year warranty. Its easy-to-use design supports hundreds of 2-way, cellular, and camcorder batteries. Includes serial printer* port (RS-232)

*Compatible with the STAR Micronics SP200 Series printers (and other printers with STAR emulation); available from any STAR Micronics distributor.

**BATTERY OPTIMIZING SYSTEM II (BOS II)**

- **WPLN4124AR**  BOS II, Four Station, 100-240VAC (US line cord)
- **WPLN4125AR**  BOS II, Four Station, 100-240VAC (UK/Euro line cords)

No other battery analyzer matches the speed, accuracy, and versatility of the Battery Optimizing System II. Ideal for large fleet, public safety, and all other users who rely on their battery performance. Now with increase power, more sophisticated programming options, and easier to use navigation paths, optimizing your batteries was never easier. Key features include:

- Support for NiCd, NiMH, Li-ion, and SLA batteries
- 100-watt Power Supply programmable from 100 mA to 4 Amps per station
- Interchangeable Adapters accommodate all major brands
- Includes a variety of User Programs and allows for customizable programming
- Proprietary Recondition Cycle restores NiCd and NiMH batteries
- Increased processing power and testing resolution – including a Three-minute Quicktest that measures the batteries’ State of Health (SoH)
- Printer Output for reports and labels
- Three-year Warranty

**BOS ADAPTERS**

- **RL-76345** Standard Adapter for BOS I
- **RL76340** Standard Adapter for BOS I
HT750, HT1250, HT1250•LS, HT1250•LS⁺, HT1550•XLS

**Chargers**

**TRAVEL CHARGER**

*RLN4883A*  
Travel Charger

A great traveling companion that ensures constant communication while on the road. Allows the battery to rapid charge while using the radio. Users can receive communication immediately once the charger is connected, and transmit from a previously “dead” battery in just 5 minutes. This light and compact unit includes a Voltage-Regulated Lighter Adapter, Custom Charger Base, Mounting Bracket and Coil Cord. Ideal for public safety, utility and construction markets.

**TRAVEL CHARGER MOUNTING BRACKET**

*0780384KB4*  
Universal Mounting Bracket for Travel Charger; includes screws and nylon cord (included with RLN4883A)

**VEHICULAR CHARGER**

*RLN5233A*  
Vehicular Charger

This 12V DC rapid rate charger is ideal for mobile customers. Capable of charging NiCd, NiMH, and Li-ion batteries. This durable unit comes with a metal mounting bracket. Its drop-in design makes it ideal for public safety users.
HT750, HT1250, HT1250•LS, HT1250•LS+, HT1550•XLS

Chargers

VEHICULAR ADAPTERS
AAEN1006B VHF, 136-174 MHz
AAEN1007B UHF, 403-470 MHz
5880367B23 Connector Adapter, BNC Female
5880367B28 Connector Adapter, BNC Male
ENKN4002A Programming Cable (required for use with external speaker or HT1250 LS operation)
ENKN4003A Audio Service Cable (for use with HT1250•LS RLN4460C test box)
GSN6059A External 13 Watt Speaker
GKN6270A Power Cable with 10A Fuse

Now customers working in areas such as Public Safety and Utilities can both charge and operate portable two-way radios inside a vehicle. These Vehicular Adapters detect the chemistry of the portable battery and select the optimum charging method while providing power for in-vehicle use. In addition, an Antenna Adapter allows automatic switching to an external Vehicle-mounted Antenna (sold separately) for extended range. These kits include the Vehicle Adapter, Microphone, RF Adapter, Battery Spacers, Technical Installation Manual, and Programming Software. 3 db gain antennas are recommended for use with these vehicular adapters.

REPLACEMENT ITEMS
ENLN4103A Replacement VHF Antenna Adapter, 136-174 MHz
ENLN4104A Replacement UHF Antenna Adapter, 403-470 MHz

HT750
PORTABLE RADIO
Available in Low Band, UHF and VHF
Operates on Conventional Systems

HT750™ Radio
The HT750™ radio is the affordable solution for professionals who require rugged and reliable radio to stay in contact. The HT750 radio can easily increase productivity by keeping users communicating, while allowing them to concentrate on the job at hand. And with Motorola’s unique X-pand™ technology, audio quality is clean and crisp even in noisy environments. With the HT750 radio, communication couldn’t be easier.

HT750 Features:
• Selective Radio Inhibit
• Internal VOX
• Telephone Interconnect
• Selective Call
• Call Alert
• Radio Check
• Selective Radio Inhibit
• Optional Features

HT750 Accessories:
• Selective Call Inhibit
• Handsfree operation with headset
• Telephone Interconnect

HT750: The Portable Radio
The HT750™ portable radio is an essential tool for growing organizations because of its unique versatility. The HT750™ offers a full menu of advanced signaling functions, including paging or calling selective radios at groups. Users can store information such as phone numbers, call lists and radio IDs for easy access. And with Motorola’s unique X-pand™ technology, audio clarity is superb—even in noisy surroundings. The large LCD display is extremely helpful in large communication networks and critical situations. The radio offers a full menu of advanced signaling functions, including paging and calling selective radios at groups. It’s the ideal tool that changes with your needs.

To succeed in today’s fast-moving business world, you have to constantly explore new opportunities, push past barriers... and move faster and further than your competition. You also need communication tools that can keep up the pace—and give you immediate, dependable access to the right people and information. That’s the power of two-way radio.

Efficient and cost-effective, two-way radio helps maximize your productivity so you can get the job done. By simply pressing a button, you can connect with one, ten, or more people instantly. And when you choose a Motorola radio, you know you’re getting a tool designed and built to meet your needs as a professional.
