

PR1500

Professional Series Two-Way Radio

32 Channels

Large Raised Channel and On/Off Volume Knobs

Easy to operate with gloves

3 Position Concentric Switch Allows customization of radio features

Programmable Emergency Button

Alerts dispatcher in emergency

Sealed Accessory Connector Backward compatible with

Backward compatible with existing accessories

Enhanced Audio Features

Noise reduction software and Audio Gain Control (CPS programmable) allow audio customization

Adjustable Power Levels Help preserve battery life

Priority/Dynamic Priority Channel Scan

Frequently scan higher priority channels. Easily add or delete scan list members

Monitor/Permanent Monitor

Allows continuous channel monitoring

3 Programmable Side Buttons and Large Textured Push-To-Talk Button

Easy access to favorite features and good tactile response. Easy to operate when wearing gloves

IMPRES™ Energy System

Standard Package includes an IMPRES charging and reconditioning system, a help in automating battery maintenance, optimizing battery cycle life, and maximizing talktime

PR1500 Standard Package

- IMPRES
 NiMH 1850 mAh Battery
- IMPRES
 Single Unit Rapid Charger
- VHF or UHF Antenna
- 2.25 Inch Belt Clip
- Remote Speaker
 Microphone Adapter
- Accessory Connector
 Dust Cover
- User Guide CD

Additional Features

Send and receive information in a variety of ways:

Quik-Call II[™] and MDC1200 Signaling

- Selective Call (Decode)

 Receive a call from
 - a specific group or individual
- Call Alert (Decode)
 Receive alerts of incoming calls when a short distance from your radio

MDC1200 Signaling Only

- Push-to-Talk ID (Encode) Identify outgoing calls.
- RadioCheck (Decode)
 Lets others check users
- Emergency (Encode)

 Alerts dispatcher in urgent
- situations
 Selective

Radio Inhibit (Decode)

Allows system owner to disable stolen or missing radios

When it comes to public safety, a community shouldn't settle for "good enough."

And neither should those who work tirelessly to keep our community safe and secure. That's why so much innovation went into designing the PR1500 Professional Series two-way radio from Motorola.

The housing and control knobs of the PR1500 are rugged and tough. But what really sets this radio apart is how it performs. You'll notice a rich, full audio that can be customized for your ear as well

as the environment. The PR1500 also offers enhanced performance that delivers wide range and improved battery life.

P25 Conventional Upgradeable

With a single software upgrade, the PR1500 becomes P25 interoperable. This essential feature gives you the ability to interact with other networks in times of crisis.

FACTORY MUTUAL APPROVALS

The PR1500 is Factory Mutual approved and Canadian Standard Association approved as intrinsically safe for use in Classes I, II, and III, Division 1, Groups C, D, E, F and G, as well as non-incendive use in Class I, Division 2, Groups A, B, C and D on models ordered with the Factory Mutual option, and battery.

Accelerated Life Test

Motorola's Accelerated Life Test (ALT) is a developmental process of rigorous laboratory testing that simulates years of field use. Motorola has a firm commitment to quality and reliability. These radios have been designed, manufactured and tested to achieve high levels of component and workmanship quality. Motorola radios are designed to minimize costly repairs and downtime.
