MOTOTRBO™
DGP™ 8000EX SERIES
ATEX RADIO

KEEPING YOU SAFER IN THE TOUGHEST ENVIRONMENTS
MOTOTRBO ATEX SOLUTIONS: THE PROFESSIONAL CHOICE FOR DANGEROUS AREAS

Threats from explosive gas, combustible dust or chemical vapours, from an oil rig to an open mine, your workers confront them daily. Safe, reliable communication is absolutely critical in such dangerous environments. That’s where the power and performance of MOTOTRBO digital radios stand out.

The MOTOTRBO DGP™8000EX Series combines the best of two-way radio functionality with the latest digital technology. It integrates voice and data seamlessly, offers enhanced features that are easy to use, and delivers increased capacity to efficiently connect all your crews. With exceptional voice quality, long battery life and ATEX/INMETRO-rated for safety, the DGP8000EX Series keeps your workers connected safely and productively, wherever the job takes them.

TALK AND HEAR CLEARLY OVER EXCESSIVE NOISE

DGP™8000EX SERIES

These high-performing portables have the highest ATEX/INMETRO gas explosion group rating. Ideal for hazardous work with loud noise, long shifts, rough weather and dangerous conditions including combustible dust, explosive chemicals, gas leaks, flammable hydrocarbons and more.

Get all the benefits of MOTOTRBO digital technology, including greater capacity, clearer audio and long battery life. Plus radios and accessories that are ATEX/INMETRO-certified intrinsically safe.

**DGP8050EX** - Rugged, easy to use, non-display model

**DGP8550EX** - Adds a full keypad and large colour display for access to advanced features like texting and caller ID

DUST PROTECTION:

- **II** Group II, other environments, (chemical industries, refineries, etc.)
- **2D** High protection, Category 2 equipment for Zone 21 and 22
- **D** Dust
- **Ex** Proof of explosive atmosphere equipment, certified to INMETRO, European ATEX Directive and IECEx
- **IIIC** Enclosure certified for dust Zone 21 by IP rating
- **T130°C** Maximum enclosure surface temperature

GAS PROTECTION:

- **II** Group II, ‘other’ environments
- **2** High Protection, category 2 for Zone 1 and 2
- **G** Gas
- **Ex** Proof of explosive atmosphere equipment, certified to INMETRO, European ATEX Directive and IECEx
- **ib** Type of ignition protection (Zones 1 & 2)
- **IIIC** Protection in the most explosive gas environment (hydrogen)
- **T4** Device surface temperature will not exceed 135°C

MINING PROTECTION:

- **I** Group I
- **M2** Category Equipment is intended for use in underground mines as well as surface installation of such mines likely to be endangered by fire and/or combustible dust
- **Ex** Proof of explosive atmosphere equipment
- **ib** Type of ignition protection (Zones 1 & 2)
- **I** Explosion Group, 1 = Methane
SO RUGGED, IT WITHSTANDS THE WORST
The DGP8000EX Series is so rugged and durable, it meets the most stringent standards and has the highest ATEX/INMETRO rating. Whether working in an oil refinery, chemicals factory or mine, dust and water can damage radios, but the DGP8000EX Series is designed to withstand the worst. It meets or exceeds MIL-STD-810 for exceptional durability and is IP67 rated to keep out damaging water and dust. The DGP8000EX Series has also been subjected to Motorola’s unique Accelerated Life Test to simulate five years of hard use.

EASY TO OPERATE
The DGP8000EX Series features large PTT, volume, channel knobs and programmable buttons that are easy to use, even when wearing gloves. The large, colour display (DGP 8550EX only) and bright LED show radio status information at a glance. Plus the prominent orange emergency button enables workers to quickly call for assistance when needed.

EXTEND SAFETY TO LONG SHIFTS AND NOISY AREAS WITH ATEX/INMETRO-CERTIFIED ACCESSORIES
From the drilling platform to the oil refinery, you deal with extremes - that’s why it is critical to use the only ATEX/INMETRO accessories designed to withstand the perils and work with these MOTOTRBO ATEX/INMETRO portables.

BE IN THE CLEAR WITH AN IMPRES RSM
The IMPRES Remote Speaker Microphone (RSM) ensures hassle free communication. Along with IMPRES audio, this microphone features Windporting which makes it easy to use in all weather conditions.

PELTOR™ HEADSETS HANDLE TOUGH SHIFTS, HEAD ON
These heavy duty headsets are ATEX/INMETRO-certified for extreme conditions and comfortable for long shifts. Choose from the standard headset to the Tactical XP headset that allows you to control the volume to accommodate the level of ambient noise you must be alert to. These headsets are available as over-the-head or attach-to-hardhat models.

KEEP CREWS COMMUNICATING, EVERYWHERE
Three operations mode:
* MOTOTRBO’s IP Site Connect uses the Internet to extend coverage to workers anywhere in the world and scalable.
* Single-site Capacity Plus expands capacity to over 1,000 users.
* Linked Capacity Plus combines the high user-density call management of Capacity Plus with the wide area coverage of IP Site Connect to connect crews at various locations affordably.

Use Motorola’s Application Developer Program to adapt the DGP 8000EX Series to your unique needs in the future — from location tracking using the built-in GPS receiver to text messaging or call logging and recording. When you want to share information or pinpoint crew locations, access all the right applications on one device.

WORK SAFELY, FROM PIPELINE TO POWER PLANT
Everything about the DGP 8000EX Series is designed for worker safety. Loud, clear performance and innovative features like Intelligent Audio and Transmit Interrupt help ensure messages get through in the noisiest environments. And like the radio, Motorola’s audio and energy accessories meet the most stringent ATEX/INMETRO standards.

An integrated man-down and lone worker feature sends an instant alert if a mishap occurs. And the bright blue colour helps ensure workers can easily identify and carry only ATEX/INMETRO-approved radios into hazardous environments.

PUT THE DGP 8000EX SERIES TO WORK
DIGITAL PERFORMANCE
DGP 8000EX meets the ETSI DMR Standard to deliver integrated voice and data, clearer voice communications, and up to 40% longer battery life than analogue.

BUILT TO LAST
Meets IP67 specifications to withstand dust and immersion in 1 meter of water for 30 minutes.

EXCEPTIONAL AUDIO
Hear and speak clearly in loud environments, negate background noise from heavy equipment, engines and trucks.

EASY TO USE
Ergonomically designed for ease of use, with customisable buttons and an intuitive user interface.

COMPLETE ATEX-CERTIFIED SOLUTION
IMPRES™ smart audio and energy accessories meet the same tough specs, for a complete system you can rely on.

IMPRES™ BATTERIES AND CHARGERS
Our high-capacity IMPRES battery maximizes talk time and optimizes battery cycle life — automatically.

Only IMPRES batteries can be charged 150 additional times compared to a standard battery — a 43% increase in charge cycles. This means if you charge your radios two to three times a week, you’ll get more than an extra year out of every IMPRES battery.

DURABLE CARRY CASES
High quality leather carry cases are designed to withstand harsh conditions in hazardous environments. Swivel belt loop cases keep the case secure while allowing the radio to swing freely as you move.
