XTNi Series
On-Site Two-Way Business Radios and Accessories

PERFORMANCE YOU CAN COUNT ON

Introducing the XTNi Series
On-Site Two-Way Business Radios.
Ideal for Facilities Management.

Discover what many property owners and managers already know, Motorola on-site two-way business radios offer you a powerful tool for enhancing employee productivity and overall tenant satisfaction. Now, through the enhanced technology in the XTNi Series, Motorola brings you an edge in performance you can leverage in both individual buildings and small building complexes.

With the XTNi Series, it's easier to keep service levels high though better coordination of employees and contractor teams. Just what you need to address the daily challenges of intense competition, safety and security concerns, improving employee efficiency and providing excellent customer service for tenants.

Affordable and easy to use, the XTNi Series radios provide the communication tool to help enhance productivity, responsiveness and customer service. Discover what the XTNi Series can bring to your facilities management team.

Facilities Management Workplace Challenges	Motorola XTNi Series radios provide solutions
Intense competition and fluctuating market demand	XTNi Series radios are affordable and easy to use, with no per-call charges and no monthly fees.
Safety and security concerns	Security personnel can respond to maintenance requests, potential emergency situations or vandalism in less time.
Improving employee efficiency	XTNi Series radios enhance communications making workers more productive and accountable.
Providing excellent customer service	Building managers, maintenance technicians, groundstaff and security personnel can respond fast to tenant needs or emergencies, enhancing the service provided to tenants.
Better management of an on site mobile workforce	Facilities managers can instantly communicate with agents and supervisors for service, enabling greater staff mobility.

Exceptional Audio Quality.
Excellent Durability.

Designed to meet the needs of Facilities Managers'.

XTNi

Exceptional Audio Quality
The XTNi Series audio is 30% louder than previous Motorola XTN and Handicom/Handiepro. 2000 mW audio output, speaker magnetic field reduction, wind-noise reduction and improved RF specifications all help deliver this superior audio quality.

Rugged and Water Resistant
Durable metal diecast chassis helps radios hold up under demanding conditions. The XTNi Series meets Military 810 C, D, E, F and IP54/55 specifications for shock, rain, humidity, salt fog, vibration, sand, dust, temperature shock, and high and low temperatures.

Customer Programming Software (CPS)*
Allows users to perform various programming functions. Plus, the CPS software provides access to new features such as Radio Reporting to manage cloning and radio profiles, Manager Lock, Power Select, and Time-Out Timers.

Power and Coverage**
0.5 Watt XTNi series radios provide coverage of up to 9km, depending on terrain and operating conditions.

Exceptional Industrial Design
Weighing just 268 grams, the XTNi Series is comfortable to wear all day. Plus, the user interface makes the radio simple and easy to use with little or no training.

Flexible and Durable Battery Life Solutions†
The custom XTNi Series Li-Ion battery packs are designed and manufactured to ensure durability of the radio. Radios are available featuring either the standard Li-Ion battery (up to 16 hours batter life per charge) or high-capacity Li-Ion battery (up to 32 hours battery life per charge). An alkaline battery kit is available as an optional accessory (up to 35 hrs).

XTNi D

Tri-Colour LED Interface
The convenient tri-colour LED interface identifies different radio features and radio status.

Easy Cloning
Quickly copy settings from radio to radio with either the Radio-to-Radio Cloning Cable or the Multi-Unit Charger accessories. (Both sold separately.)

Fast and Convenient Charging
An easy-to-use drop-in charger keeps radios charged, ready—and centrally located. All radios include rapid-charger units, providing a full charge in 90 minutes (standard battery) or 180 minutes (High-capacity battery)

Advanced Voice Activation (VOX)
Convenient hands-free operation when used with optional accessories.

Additional Features
Select models offer even more capability.

Channels
At the touch of a button, workers or supervisors can change channels to talk with different work groups. Radios have 8 channels and 16 customer selectable channel/code combinations.

Channel Aliasing††
Simple programming enables each channel to have a user-defined name.

Front Panel Programmability
Five programmable buttons enable quick access to features such as Call tone, Monitor, Scan, Scramble†† and Channel preset††.

*CPS is available as an optional accessory, including required USB cable.
**Coverage will vary based on terrain, conditions and radio model.
†Battery save feature must be activated for optimal battery life.
††Feature available on display models only.

XTNi Series Accessories

Further enhance the productivity benefits from Motorola XTNi Series radios with a range of convenient, time-saving accessories. XTNi Series radios are also fully compatible with current Motorola XTN 2-pin accessories.

Remote Speaker Microphone
00115
Convenient way to speak and listen without having to reach for your Motorola two-way radio. It easily clips on a shirt or collar. Other headsets also available to make communications even easier.

Alkaline Battery Pack
RLN6306A
Replaces the Lithium-Ion battery with a battery frame that holds standard alkaline batteries. Useful in emergencies, where recharging of batteries isn't practical.

High Capacity Lithium-Ion Battery
RLN6305A
High capacity rechargeable battery provides up to 32 hours of battery life per full charge.

Multi-Unit Charger
IXPN4020AR
Allows drop-in charging up to six radios and/or batteries from a single outlet. Also provides a central storage location for radios at the end of a workshift.

Radio to Radio Cloning Cable
RLN6303A
Saves time by cloning all programming and user menu settings at the touch of a button.

CPS Programming Cable
IXEN4007AR
Provides connectivity to CPS software to perform various programming functions. Includes software.

Leather Carry Case
RLN6302A
Convenient way to protect the radio when carrying or using hands-free.

XTNi Series radio standard package includes:

- One XTNi Series On-Site Two-Way Business Radio
- Li-Ion Battery
- Belt Clip
- Charging Adapter
- Drop-in Charging Tray
- Printed Quick-reference guide (full user manual available online)
- Safety Sheet

Motorola—A Name You Know and Trust
For more than 75 years, Motorola has been a leader in creating state-of-the-art wireless communication. The XTNi Series On-Site Two-Way Business Radios uphold that superior standard. Each radio and radio accessory is backed by a limited **two year warranty** on parts and labour. So when you select the XTNi Series, you'll experience the same exceptional quality you've come to expect from all Motorola products.
