

MOTOROLA SOLUTIONS

BUSINESS-CRITICAL COMMUNICATIONS

**CREATING EFFECTIVE SYSTEMS TO
DRIVE PRODUCTIVITY, BOOST EFFICIENCY
AND ENHANCE SAFETY**

PMREXPO 2018

SOLUTIONS TO ENHANCE YOUR BUSINESS OPERATIONS

Across all market sectors, the pressure is on. Increase competitiveness, reduce costs, boost output, prevent theft, avoid accidents, protect against risks, enhance productivity – the list is endless. But no matter which industry you operate in, effective communication is crucial to help achieve your goals.

Connecting workers and managers to each other and to the processes and equipment they operate, allows everything to run smoothly day-to-day, and minimises impact when the unexpected happens.

When your people and assets are constantly on the move, it's hard to keep track of everything. Motorola Solutions offers a wide portfolio of networks, devices, applications and services to transform critical operations and work processes.

At PMRExpo 2018, we will demonstrate how large or small companies can create smart systems that help address the issues facing organisations to boost efficiency, enhance customer service and improve personnel safety.

SOLUTIONS FOR BUSINESS USERS ON DISPLAY AT PMREXPO 2018

EXTENSIVE PORTFOLIO OF DEVICES AND ACCESSORIES

Easy-to-use entry level, mid-tier and fully-featured high tier models. Super-slim, discreet or rugged. From manufacturing to utilities, transportation to retail. Waterproof, vehicle-mounted, super-stylish or ATEX certified. Whatever the requirement, Motorola Solutions has the right device for every user. All backed up with an extensive range of accessories and applications that allow the user to customise the solution to their specific needs.

At PMRExpo 2018, we will be showcasing a wide selection from our extensive range of devices, including **Talkabout™** and **XT-Series** PMR446, **VZ- and VX-Series** analogue, **MOTOTRBO™** and **EVX-Series** DMR, **MTP-Series** TETRA and **LEX** LTE devices. We will also feature the new **ST7500** compact TETRA portable radio.

EXTENDED, INTEGRATED COMMUNICATIONS

Now you can extend the reach of your radio communication to anyone with a smart phone or mobile device, anywhere they go. Our **WAVE™** Broadband Push-To-Talk (BBPTT) solution lets workers communicate between smart devices and two-way radios to create unified communication systems that manage workflows efficiently and help personnel stay safe.

At PMRExpo 2018, we will be showcasing how **WAVE** Broadband PTT allows workers to communicate between two-way radios and Android or iOS devices.

DMR AND TETRA SYSTEMS

Our radio networks are ideal for businesses that need wide-area coverage, or higher user density. Our MOTOTRBO platform allows DMR users to build a system that grows with them as their needs develop. From direct mode, through single-site conventional or multi-site dynamic trunking to full DMR Tier III trunked operation, MOTOTRBO devices and infrastructure can be utilised to support changing business needs. TETRA users also have a choice of infrastructure depending on their specific requirements: the DIMETRA™ portfolio supports users requiring localised communications, all the way up to nationwide systems.

At PMRExpo 2018, we will be showcasing **MOTOTRBO Capacity Max** that meets DMR Tier III requirements, plus more, **DIMETRA Express** that offers a flexible, integrated TETRA system that can be installed in less than 15 minutes and **DIMETRA X Core** fully scalable system for mission-critical users.

SURVEILLANCE CAMERAS AND VIDEO ANALYTICS

Avigilon, a Motorola Solutions company, provides trusted security solutions to users across all commercial market segments. Our scalable security portfolio is designed with tomorrow's growth in mind and empowers security teams with high performance technology including video analytics, network video management software and hardware, surveillance cameras and access control solutions.

At PMRExpo 2018, we will be showcasing a selection of **Avigilon** video surveillance cameras and software.

CONTROL ROOM SOLUTIONS

Integrating powerful voice and data communications with advanced fleet control and dispatch functionalities, Motorola Solutions Control Room systems maximise your operational effectiveness. Control room personnel are equipped with premium tools that allow them to organise and deliver routine tasks more efficiently, communicate better with teams in the field and make faster decisions when incidents happen.

At PMRExpo 2018, we will be showcasing powerful **Motorola Solutions Control Room** applications that help businesses by simplifying communications, integrating processes and automating workflow management.

MANAGED AND SUPPORT SERVICES

With the right level of services, you mitigate downtime and ensure productivity and the safety of your infrastructure. Motorola Solutions offers a range of service packages to repair failed hardware, update software with new releases, provide technical support and remotely monitor the health of your MOTOTRBO system.

At PMRExpo 2018, we will be showcasing the benefits of our **Service Offerings**. Visit the stand to take part in **'Mission Critical'** for a chance to win a prize!

EVERY DAY, BUSINESSES RELY ON EFFORTLESS AND RELIABLE COMMUNICATIONS

They call it their lifeline. From the extreme moments to the day-to-day, communication plays an increasingly critical role in protecting and connecting the world. From business-critical services and control room software through to secure and reliable land mobile radio solutions, our technology can help you to advance your communications lifeline.
