

PRONTO

Pronto e-notebook from Motorola Solutions enables officers to access information in national and local databases on a mobile device whilst in the field. They can then reuse that information to complete processes digitally as well as to manage and submit accurate information direct from the front line. From road traffic and community policing, to criminal justice, crime investigations and back office management support, Pronto delivers totally paperless policing from the front line, reducing complexity and enhancing effectiveness.

MOTOROLA SOLUTIONS

PRONTO IS A COMPLETE BUSINESS PROCESS APPLICATION ENABLING DIGITAL DOCUMENT AND INFORMATION MANAGEMENT THAT INCLUDES:

- Electronic notebook capability on any mobile device: Pronto enables officers to manage all activity relating to their shift, including typed or handwritten notes and digital images
- Smart Searching: Pronto is fully integrated with all local and national systems. A combined search of all systems via a single POLE entry makes information easily accessible, including:
 - PNC, QAS, DVLA, VPFPO / Pentip and CRASH
 - Local Command & Control (including Storm, Integraph, and NSPIS)
 - Crime & Intelligence Systems (including Niche RMS, Unifi, Guardian / Athena, and locally developed solutions such as PIN)
- A complete range of smart business processes and smart forms in a single, easy to use application
- Permanent digital information capture: data can be used and reused to auto-populate relevant fields in multiple applications or forms, removing the need to rekey or duplicate work. Forms can be printed at the scene for members of the public
- Off-line and on-line capability for uninterrupted working: All activity is synchronised automatically. Multiple business process information can be sent to multiple systems at the touch of a single button
- One-touch updates: all local and national back office systems, tickets, forms and crime & intelligence systems can be refreshed and amended from the front line
- Time / date stamped fully auditable information: documents are stored securely and accessible for evidential or management purposes

IN ADDITION TO DELIVERING A COMPLETE DOCUMENT MANAGEMENT CAPABILITY, PRONTO OFFERS THE FOLLOWING OPTIONAL ENHANCEMENTS:

PRONTO SMART VIDEO APP FOR REAL TIME SITUATIONAL ANALYSIS AND EVIDENTIAL SUPPORT

- Providing real time access to local CCTV feeds direct to users' mobile devices. Two-way streaming means that video captured by a user on a mobile device can be shared with control rooms, other mobile users or partner agencies
- Real time view of images captured by body-worn video cameras. Integration with an officer's electronic notebook also offers the opportunity to associate video with relevant business processes to enhance the value of images in supporting evidence file creation and management

PRONTO MOBILE WORKING APP – SECURE ACCESS TO LOCAL AND THIRD PARTY APPLICATIONS

This gives users access to the complete range of applications that today's policing professionals need to enhance productivity.

- Secure access to the Internet and force intranets, social media applications, and other non-integrated requirements including existing mapping capability and duty rostering systems, from a single device
- Secure access to mobile telephony and push-to-talk over cellular
- Voice and data on a single device

PRONTO – FLEXIBLE OPTIONS AND DEDICATED SUPPORT

Pronto offers a range of flexible options from a software-only deployment through to a fully Managed Service with hosted IL3 accredited data centre.

- Dedicated service to support the implementation and deployment of mobile programmes
- Continuously improved Pronto applications over the life of the contract to ensure all processes, legislative and regulatory requirements are up to date
- As technological capabilities continue to evolve, close working with forces and the national Pronto User Forum, will ensure continuous review and enhancement of the Pronto solution to protect investments
- A dedicated team ensures 24 / 7 / 365 support to ensure the highest service quality levels
