

## Exam Language Offerings

If an effort to support your pursuit of Motorola Solutions Certifications, we offer several of our exams in a variety of languages. Here is a list of our current exams and the languages in which they are offered.

Register for your exam on the Prometric website ([www.prometric.com/motorolasolutions](http://www.prometric.com/motorolasolutions)) and you will be able to select your desired language at the testing facility.

*\*\*\*Please note: Different languages use different fonts which may not be available at all Prometric Testing Centers. Testing sites will always support English and the official languages of the country in which the testing site is located. If you do select an unsupported language, the exam may not launch. If this happens, the test site administrator will restart your exam instance and you will be able to take your exam in English.*

Exam Number	Exam Title	English	Chinese (Simplified)	Japanese	Indonesian	Korean	German	French	Russian	Italian	Spanish (Latin American)	Portuguese (Brazilian)
