MOTOROLA SOLUTIONS

MOTOTRBO™ CELEBRATING 10 YEARS

Proven DMR Technology

WE'VE ACHIEVED A LOT IN THE LAST 10 YEARS

Let's take a closer look

The Dawn of Digital

2007

First Release of MOTOTRBO

Introducing a new era of digital communication with the XiR P8200 and XiR M8200 Series.

2009

IP Site Connect

With IP Site Connect, coverage capabilities are extended via an IP connection to allow customers to easily communicate between multiple sites.

2009

Capacity Plus Single Site

The introduction of our single site trunking solution increases the capacity of your radio network.

2010

Connect Plus

Delivers all the benefits of digital technology - better audio, coverage, capacity, and battery life - with the scale and efficiency of trunking.

2011

1 Million Radios Shipped

MOTOTRBO continues to be trusted by users every day in the manufacturing, hospitality, healthcare, transportation and education industries, to increase safety, productivity and efficiency.

ONE million

Expanding the Portfolio

2012

XiR P6600 and XiR P8600 Series

With the expansion of the portfolio, MOTOTRBO adds a full color screen, expert applications and integrated features like Intelligent Audio.

2012

XiR M8600 Series

MOTOTRBO mobiles now feature a full-color display, best-in-class audio, and integrated Bluetooth for audio and data.

2012

SL1K

The world's thinnest and lightest two-way radio in the DMR professional series class.

2012

Capacity Plus Multi Site

Makes it possible to add additional sites to your Capacity Plus system via an IP network, delivering five times the capacity of an analog conventional system.

2013

SL1M

A Design breakthrough - introducing a digital display that appears when in use and disappears when not.

2015

SLR 5000

Increases the power of your infrastructure to spread your reach even further.

Built for the Future

2016

Next Generation MOTOTRBO

With new radio models and new infrastructure, Next Generation MOTOTRBO brings a whole range of new features and capabilities, to help make organizations safer, more efficient and more productive.

2016

Capacity Max

Makes it easy to grow your radio network as your needs evolve, with advanced features and centralized control across to your radio network.

2016

SLR 8000

MOTOTRBO continues to improve its infrastructure capabilities with this 100W repeater. Providing a flexible architecture and improved system reliability.

2017

Team Communications

Radios + Smartphones + Computers + Telephones + Internet of things

After 10 years of success, MOTOTRBO is an integral part of the Motorola Solutions' Team Communications platform. Our unified workgroup communications, connects MOTOTRBO systems with broadband networks so that users can communicate between radios, smartphones, desktops and other devices.
