

# CAPTURE

SECURELY CAPTURE EVIDENCE ON SCENE

# EVIDENCE-GRADE CAMERA AND AUDIO MOBILE APP

Cases can evolve in a blink of an eye.

Your team's success at catching criminals and keeping officers and the community safe depends on quickly securing critical evidence. Equipping field officers to capture evidence quickly is essential to the success of the case. Expand your ability to capture digital evidence with the simplicity of a mobile application with CommandCentral Capture.

## MULTIMEDIA EVIDENCE CAPTURE

Securely capture high quality pictures, video and audio in non-proprietary formats in the field, all from an easy-to-use mobile application.

## NEVER SWEAT SECURITY

All evidentiary data is isolated from personal data, making it inaccessible for tampering by other apps so you never need to subpoena devices. Chain of custody is established at the moment of capture for trackable, verified evidence integrity.

## EASILY EQUIP ALL YOUR OFFICERS

Available for both Android and iOS, CommandCentral Capture simplifies multimedia capturing for any officer with minimal equipment — whether they are using a personal or agency-issued device.

## EXPERIENCE THE COMPLETE 360° INCIDENT

**CommandCentral Capture** is part of an integrated public safety software suite designed to **connect all data**, **heighten collaboration** and deliver the most **complete view** of an incident, from call to case closure.

## FRONTLINE RESPONDER

# PART OF A ROBUST DIGITAL EVIDENCE MANAGEMENT ECOSYSTEM

CommandCentral Capture is one of many digital evidence management tools included with CommandCentral Evidence. Get more out of your digital evidence with the ability to electronically capture, collect, store, manage and share digital evidence from a centralized, source-agnostic location.

While CommandCentral Capture is a free application available for download, the app does require a CommandCentral Evidence user subscription.

Explore the other capabilities included with CommandCentral Evidence at [motorolasolutions.com/evidence](https://motorolasolutions.com/evidence)

**CommandCentral Capture minimizes the burden of new media by providing access to all case content from a single pane of glass.**

## KEY FEATURES

### KEEP OFFICERS ACTIVE IN THE FIELD

Keep the burden of management and paperwork to a minimum with metadata automatically added to captured media and on-device tagging. Content is then uploaded to CommandCentral Evidence for immediate access, all from the field.

### FLEXIBLE, SECURE UPLOAD OPTIONS

Customize media uploads to your agency's preference. Media can be uploaded to CommandCentral Evidence over cellular at the moment of capture, or from a designated WiFi access point. Both methods provide state-of-the-art security.

### Dictate Officer Narratives

Officers can dictate their narrative from the field, allowing them to keep their eyes on their surroundings for added security. The narrative is automatically transcribed and becomes the primary narrative in CommandCentral Records, saving valuable time that would otherwise be spent on reporting.

### Easily Record Field Interviews

CommandCentral Capture simplifies field interviews by enabling officers to record witness or victim statements on scene. Recorded interviews make it easy to reference exact incident details and in some cases, eliminate the need to bring witnesses into the station.

# COMMAND CENTRAL

CONNECTED. COLLABORATIVE. COMPLETE.

## INCIDENT AWARENESS

## INCIDENT MANAGEMENT

## POST-INCIDENT RESOLUTION

## THE INDUSTRY'S MOST COMPLETE SOFTWARE SUITE

You depend on solutions that help deliver on the promise of a safer world. CommandCentral Capture and other applications in our CommandCentral software suite are designed to bring clarity to decisions and simplify collaborative workflows. From call to case closure, CommandCentral connects all data to create actionable intelligence, eliminates barriers to heighten collaboration and delivers the complete, 360° Incident

Our CommandCentral software suite is unified with voice, video and analytics, creating an integrated ecosystem for public safety. Individually, every Motorola Solutions product and service makes the world safer. United, they are exponentially more powerful. Let's build the future of safety together.
