SAFER STREETS CREATE STRONGER ALLIANCES

The need for safety connects us all. And ensuring everyone is safe is more easily achieved when we are all empowered to do so - together.

Our technology provides officers and communities the tools to create safety together. Dangerous situations can be pinpointed in real time, before a call is even made. The public can share vital information across the devices they use every day. Command centers can coordinate responses faster, with greater awareness of what's happening. Officers can resolve more incidents and spend more time working in the community to build trust and cooperation.

With our technology ecosystem you can create a stronger alliance between you and the public. One built on a common desire for and contribution toward making the community safe. Because everyone is safer when we work together.

GET OFFICERS TO THE FRONT LINES FASTER

SAFETY STARTS WITH DISPATCH

An effective emergency response doesn't just automatically happen. It starts in command centers with the first, first responders.

With unified call-taking and computer-aided dispatch systems, integrated with voice and multimedia communications networks, our technology helps create safer outcomes by enabling you to get officers to the front lines faster.

INTEGRATED SOLUTION BENEFITS

FIND AND HELP THOSE IN NEED

Receive voice calls and text messages from the public as well as cell phone location information to shave critical seconds off of your response time.

MINIMIZE TIME-TO-DISPATCH

Create an incident and assign units in just four keystrokes with integrated call-taking and dispatch software that eliminates redundancy.

COORDINATE THE RIGHT UNITS

Using integrated mapping and communications, visualize your incident, see who is nearby and directly contact and assign them to respond.

MAKE SWIFT DECISIONS THAT SAVE LIVES

PROTECT PEOPLE AND OFFICERS

In the field, having reliable information delivered to the right people, at the right time, is critical to ensuring the safety and well-being of everyone.

Our devices and interfaces are designed to make officers safer by seamlessly working together, automating alerts and enabling access to backup at the push of a button. With our technology you'll be equipped to make the right decisions quickly, and save more lives.

INTEGRATED SOLUTION BENEFITS

PULL OVER WITH PERSPECTIVE

With your in-car video system, automatically run license plates of pulled over vehicles against hot lists and receive alerts of any matches.

ViQi

VERIFY WITH A VIRTUAL PARTNER

Conduct a license plate or name query over your radio with ViQi who will respond with information to help aid your investigation or response.

COLLABORATE WITHOUT BARRIERS

Connect with other agencies on other systems as well as personnel outside of radio coverage for a more collaborative response.

ACCELERATE INVESTIGATION TIMELINES

CLOSE CASES TO REDUCE CRIME

Safety is more than stopping an incident. It's about catching criminals and preventing ongoing crime.

Combat your caseload with the ability to more easily review incident video and pursue leads through access to local and nationwide crime, public records and license plate recognition data. Experience technology that can truly accelerate investigations and close cases.

INTEGRATED SOLUTION BENEFITS

PINPOINT PERSONS OF INTEREST

Get a complete understanding of a person of interest by accessing partner agency and public record data alongside your existing records.

GENERATE NEW VEHICLE LEADS

Directly access vehicle location intelligence for a vehicle of interest within your incident record to find more at-large suspects in less time.

IDENTIFY POTENTIAL SUSPECTS

Generate potential identity matches for persons of interest using facial recognition run on images in your incident record.

THE MISSION-CRITICAL ECOSYSTEM

TECHNOLOGY TO CREATE SUSTAINABLE SAFETY

Creating safety for officers and the public alike is essential to successful law enforcement. Our integrated technologies and services, unified on a common platform, are designed to help you do this - together, as a community. With communications, software and video solutions, backed by over 90 years of research and development, our mission-critical ecosystem strengthens the bond between the police and the public, so safety can spread and the community can thrive.

By creating more access to the most accurate information and staying focused on what matters most, you and the public can form a stronger alliance. One based on a common purpose, powerful cooperation and mutual trust. So more crimes are prevented, more cases get solved, and more people are safe.
