BUILD TRUST THAT UNITES ALL

**ALWAYS BE THERE FOR THOSE IN CRISIS. DO LESS PAPERWORK,
MORE PEOPLEWORK. INCREASE SERVICE AND ACCOUNTABILITY.**

TRUST AND TRANSPARENCY CREATE **STRONGER ALLIANCES**

Trust is the foundation of safety and justice. It's not optional or expendable. It's mission critical. Police need to trust that the public is forthcoming with vital information. The public needs to trust that police will be there when called and enforce the law equitably.

Our technology creates the conditions for trust and cooperation to grow. It enables more access to more accurate information so police can pinpoint dangerous situations faster, arrive on scene quicker, and keep people safer. Transparency can grow and new channels of communication open - giving officers more time to focus on connecting with the public, policing as one unified community. It's how to build confidence - in the police and the public alike - that you're on the same side and working toward the same goals.

Because when the police and the public create an alliance built on trust and cooperation, safety and justice are unstoppable.

DETECT AND DISRUPT POTENTIAL THREATS

INFORM A MORE PROACTIVE RESPONSE

Oftentimes, safety comes from what the public doesn't see, but you do. As expectations rise, you'll need to do more to stay ahead of the curve.

By providing advanced threat identification and alerting solutions available to both you and the public, and designed to share data seamlessly as you choose, our technology helps you detect and disrupt potential threats together as a community.

INTEGRATED SOLUTION BENEFITS

ACT FAST ON UNUSUAL ACTIVITY

Protect the public, before an incident escalates by detecting and responding to threats identified on owned and private camera systems.

INTERCEPT MORE WANTED VEHICLES

Receive real-time hot hit alerts from owned and private license plate recognition networks that have opted into data sharing with your agency.

ASSIGN OFFICERS WITH DATA INSIGHT

Leverage agency data and advanced analytics to visualize crime and forecast future spikes so you can direct officer activity efficiently.

DO LESS PAPERWORK, MORE PEOPLE WORK

ELIMINATE ADMINISTRATIVE BURDENS

With a surge in retirements and struggles recruiting, officer time is at a premium. Now more than ever you can't afford officers stuck in the station.

By automating records and evidence management into a unified, accessible experience we are minimizing time spent on report-writing and general data or digital evidence management so officers can do less paperwork and more people work.

INTEGRATED SOLUTION BENEFITS

AUTOMATE REPORT WRITING

Automatically populate reports based on data you already captured that can quickly be added to and submitted from your smartphone.

RECORD MORE. MANAGE LESS.

Upload and organize body-worn and in-car video hands-free for immediate access and review by evidence technicians and investigators.

ACCELERATE ARREST & INTAKE

Enable a seamless flow of data from the field to the jail to expedite the custody transfer and booking process, and eliminate redundancy.

INCREASE SERVICE AND ACCOUNTABILITY

CONNECT WITH THE COMMUNITY IN NEW WAYS

People want to partner with police in their communities now more than ever. But empowering them to do so requires doing things differently.

Beyond just building a social media presence, investing in technology that equips citizens with new ways to connect while not interrupting your team's daily activities is the key to increasing service and accountability.

INTEGRATED SOLUTION BENEFITS

RESPOND TO REQUESTS FASTER

Provide a digital request process connected to your records management experience and easily control sharing of relevant information.

OPEN NEW CONTACT CHANNELS

Create new ways to connect and facilitate dialogue with the community by publishing crime data and enabling anonymous tip submission.

EASE NON-EMERGENCY REPORTING

Generate incident reports for the public when requested for insurance claims and other non-emergency reasons in a timely, efficient manner.

THE MISSION-CRITICAL ECOSYSTEM

TECHNOLOGY TO BUILD TRUST THAT UNITES ALL

Building trust between the police and the public is essential to successful law enforcement. Our integrated technologies and services, unified on a common platform, are designed to help you do this - together, as a community. With communications, software and video solutions, backed by over 90 years of research and development, our mission-critical ecosystem strengthens the bond between the police and the public, so trust can grow and the community can thrive.

By creating more access to the most accurate information and staying focused on what matters most, you and the public can form a stronger alliance. One based on a common purpose, powerful cooperation and mutual trust. So more crimes are prevented, more cases get solved, and more people are safe.
