

Video Security & Access Control: Upcoming Scheduled Training - EMEA

Click the link below to see the upcoming Pelco and Avigilon training sessions in Europe, Middle East & Africa: [EMEA VS&A: public training sessions](#)

RSVP

Space is limited.

Login to the [VS&A Tool Hub](#) and select the VS&A Training option to register for a class. Additional Avigilon/Pelco courses are available and course prerequisites that may be required are also available in the Training Center.

Note: Subject to Availability.

Please refer to the VS&A Tool Hub for more details. Motorola Solutions reserves the right to cancel instructor-led field training classes based upon attendance (minimum 3 participants) 5 business days prior to the course start date.

Avigilon Unity Access 7 Certification (A-522-IL) This certification curriculum consists of a 3-day instructor-led class and a final assessment. It is designed to provide learners with a foundational understanding of the Avigilon Unity Access 7 system, including topics ranging from controller and subpanel wiring, installation, initial appliance setup, and the configuration of doors. Under the guidance of an experienced technical instructor, learners will complete hands on activities and lessons on an Avigilon Unity Access workstation. Following the conclusion of the class, learners will complete an assessment in order to receive their certification..	Pelco VideoXpert Enterprise Certification (P-500-IL) / (P-500-V) This certification introduces enterprise-level software, enabling the participant to understand the capabilities and functionality of the software and to install, configure and operate a VideoXpert (VX) Enterprise solution.
Avigilon Unity Access 7 Operator and Administrator Certification (A-523-IL) This course is designed to teach end users about common system configurations, hardware, and basic operation. The course is comprised of lecture and hands-on exercises teaching practical applications for the system.	VideoXpert Operator & Administrator Certification (P-501-IL) / (P-501-V) This certification is intended for operators and administrators of the VideoXpert (VX) system. It is designed to allow a student to comfortably operate the system in a single location environment.
Avigilon Unity Video 8 Certification (A-515-IL) This certification is designed to teach installation best practices, common system configurations, as well as optimizing the system to ensure a successful implementation. The instructor-led class is comprised of lecture and hands on exercises teaching practical applications and concepts for the Avigilon Unity Video solution.	Pelco VideoXpert Professional Certification (P-502-IL) / (P-502-V) This certification is designed to enable learners to install and operate a VideoXpert (VX) Professional system in a single-location environment. This certification provides learners with the knowledge and skills to set up, configure, and operate the system.
Avigilon Unity Video 8 Operator and Administrator Certification (A-518-IL) This course is designed to teach end users about common system configurations for Avigilon Unity Video operation. The course is comprised of lecture and hands-on exercises teaching practical applications for the Avigilon Unity Video solution.
