Avtec Scout with
Teldio TruFleet Plus

MOTOROLA SOLUTIONS

Avtec Scout with Teldio TruFleet Plus

Dispatchers play a critical role in efficiently coordinating people and resources. As an event unfolds, clear and reliable voice communications connect dispatchers with teams in the field while situational awareness tools can provide essential data to make informed decisions and efficiently organize a response.

Elevate your dispatch operations and optimize response times with Teldio TruFleet Plus – available directly within your Avtec Scout console. Teldio TruFleet Plus offers radio text messaging and tracking of your MOTOTRBO™ radios in real-time using a rich and intuitive web-based interface.

Oversee your team's safety from the Scout console

Knowing where your team members are can play a critical role in their safety and security as well as the efficiency of your operations. View the location of your MOTOTRBO radios to keep an eye on employees who work alone, track employee response times and monitor restricted areas. Teldio TruFleet Plus also integrates into Motorola Solutions Man Down, Lone Worker and Motorola Solutions Emergency events to raise safety alarms.

Improve fleet management capabilities and drive operational efficiency

Efficiently monitor and manage your fleet of school buses, utility trucks or any vehicles equipped with MOTOTRBO radios. Teldio TruFleet Plus enhances route management, allowing you to optimize inventory and streamline operations with comprehensive reporting and route replays. With Teldio TruFleet Plus, you can track your assets with granular turn-by-turn updates, providing real-time visibility and control over your fleet. Whether you require continuous tracking or only during emergencies, Teldio TruFleet Plus offers the flexibility to meet your specific needs.

Key Features:

Precise location tracking

Accurately track the location of MOTOTRBO radios.

Route replay

View, search and replay radio tracking from any given time period. Generate and share replay reports and statistics.

Simple deployment

Teldio TruFleet Plus is easy to set up and fits seamlessly on your Scout console screen.

Geofence alerts

Create geofences and receive alerts when radios move in and out of certain areas.

Radio messaging

Easily send messages to your employees from within your Avtec Scout console.

Customizable mapping

Import your own standards-based maps, enabling a familiar visual view of your environment.

Avtec Scout with Teldio TruFleet Plus

Streamline workflows

Combine your Avtec Scout console and Teldio TruFleet Plus applications to reduce the number of siloed applications in use.

Improve operational efficiency

Locate MOTOTRBO radios quickly and accurately. Track time spent on a service call or direct the closest person to an event.

Multiple communication methods

Relay your messages via the most appropriate channel. Communicate with voice or text messaging depending on the situation.

Enhance workplace safety

Improve emergency response times, monitor restricted areas and trigger automated alerts for increased safety.
