

FIXED LPR TECHNOLOGY

PARKING AND MOBILITY SOLUTIONS

Manage facilities, gain insights and increase revenue with license plate enabled parking (LEP) enforcement.

Garage or surface lot: Fixed LPR cameras in a gateless environment allows for alerts in the field on vehicles in violation, along with real-time occupancy. For the most efficient workflow, pair with a Mobile LPR unit for enforcement.

Loading zones or rideshare pickup: Utilize dwell time statistics and digital chalking alerts to determine when a vehicle is overstaying a time-limit.

Main entries or exits: Use a license plate as a permit credential to trigger a gate vend when access control is needed, while getting alerts on banned or hot listed vehicles.

MANAGE FACILITIES

GAIN INSIGHTS

INCREASE REVENUE

FIXED LICENSE PLATE ENABLED **PARKING ENFORCEMENT**

OCCUPANCY & DWELL TIME

Through real-time occupancy and vehicle dwell time, gain insights into parker trends and facility usage.

TIME LIMITED ENFORCEMENT

Support turnover and efficient enforcement of time-limited areas through LPR driven alerts.

UNAUTHORIZED ENFORCEMENT

Leverage third party API's to dispatch enforcement officers to potential violators within your facilities.

GATELESS LPR ENVIRONMENT

Get alerts in the field and the back office for parked vehicles in violation
