

# VehicleManager Mobile

## Leverage the power of vehicle intelligence, anywhere.

When seconds count in the field, instant access to comprehensive vehicle intelligence can be the difference between a cold lead and successful apprehension. VehicleManager Mobile turns a user's smartphone into an LPR analysis tool, providing officers with real-time identification and patented analytics in the field. By putting the power of vehicle intelligence in their hands, users can uncover critical leads to react faster and close cases anywhere.

### AI-powered Search Assist

Locate vehicles of interest, even without a license plate.

### Day/time plate trend analytics

Intercept suspect vehicles more efficiently.

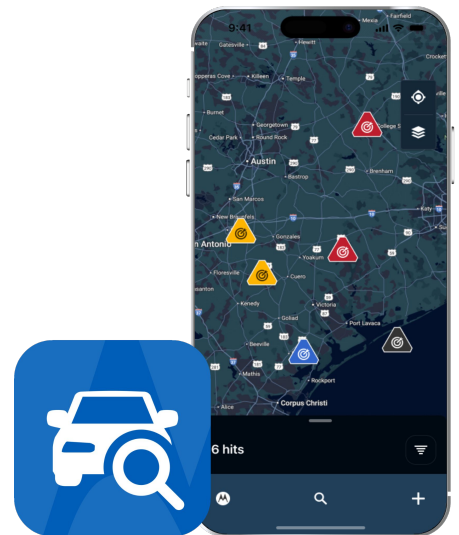

### Real-time hot list management

Turn passive data into proactive alerts for immediate action.

### Single and multi-plate scanning

Capture and upload critical evidence from any location.
