Overview

The purpose of this document is to provide the release notes as a result of the IMPRES Battery Fleet Management Application 3.5_BUILD1.

IMPRES Battery Fleet Management Application 3.5_BUILD1

What's new in the 3.5_BUILD1 Release?

Version	Notes
3.5_BUILD1	<p>IMPRES Battery Fleet Management 3.5_BUILD1 added few enhancements and fixes as below:</p> <p>Enhancements:</p> <ul style="list-style-type: none"> Enhanced the installation package procedure to install new IMPRES Gen 2 drivers. Enhanced the HostID generation method for license activation feature. <p>Defects Fixed:</p> <ul style="list-style-type: none"> Fixed the ASTRO and MOTOTRBO over the air reporting issue with fresh installation of IMPRES Battery Fleet Management 3.5_BUILD0. <p>IMPORTANT NOTES:</p> <ul style="list-style-type: none"> There would be a potential chance for the existing IMPRES Battery Fleet Management application to lose activation when the user upgrades the IMPRES Battery Fleet Management application from earlier version to version 3.5_BUILD1 after running Windows Update or running the IMPRES Battery Fleet Management application on a Virtual Machine environment. You can use your existing Entitlement ID (EID) to re-activate the IMPRES Battery Fleet Management application. When the user plugs in an IMPRES 2 charger to the PC after IMPRES Battery Fleet Management 3.5_BUILD1 installation for the first time, the user might not be able to see the IMPRES 2 charger information in the System Device Monitor tab of the IMPRES Battery Fleet Management application. This is due to the new IMPRES Gen 2 drivers installation for the IMPRES 2 charger. As for recovery, there are 2 options: 1. The user needs to unplug the IMPRES 2 charger from the PC and then plug in the IMPRES 2 charger again to the PC. or 2. Restart the PC. If the user wants to use Virtual Machine to run the IMPRES Battery Fleet Management application, the Virtual Machine needs to be configured with a static/manual physical MAC address. Running the IMPRES Battery Fleet Management application on a Virtual Machine with a dynamic physical MAC address may cause the IMPRES Battery Fleet Management application to lose activation.

OSS Legal Notices

Publicly Available Software / Open Source Software Legal Notices

This media, or Motorola Solutions Product, may include Motorola Solutions Software, Commercial Third Party Software, and Publicly Available Software.

The Motorola Solutions Software that may be included on this media, or included in the Motorola Solutions Product, is Copyright (c) by Motorola Solutions, Inc., and its use is subject to the licenses, terms and conditions of the agreement in force between the purchaser of the Motorola Solutions Product and Motorola Solutions, Inc.
