Mute

For optimal battery life, remove the radio from the charger when not in use. When charging the battery, do not exceed the 15-hour charging time. Use of Motorola batteries is subject to the rules & regulations of the Federal Communications Commission (FCC). Use of Motorola radio in Canada is subject to the rules & regulations of the Department of Communications Canada. Use of Motorola radio in Mexico is subject to the rules & regulations of the Federal Communications Institute (IFT). Use of Motorola radio in Argentina is subject to the rules & regulations of the National Communications Institute (INTEL). Use of Motorola radio in Colombia is subject to the rules & regulations of the National Telecommunications Commission (CNT). Use of Motorola radio in Chile is subject to the rules & regulations of the National Telecommunications Commission (CITEL). Use of Motorola radio in the Republic of Panama is subject to the rules & regulations of the National Telecommunications Commission (URSEC).

Turning your Radio On and Off

1. Press and hold the “ON” button to turn on your radio. The display screen shows the current channel, call mode, and Battery status.
2. Press and hold the “OFF” button to turn off the radio.

Sizing Up a Vehicle

Press and hold for two seconds or longer to listen to volume level.

Display Screen Guide

1. Press and hold for three seconds to listen to volume level.
2. Press  to increase the volume. Press  to decrease the volume.
3. Press the “MUTE” button to turn off the microphone while talking.
4. Press and hold  for three seconds to listen to volume level.

Turning the Volume

1. With the radio on, press  one time until the channel number shown.
2. Pull the belt clip away from the back of the radio.
3. Press and hold on the  button to turn your radio ON/OFF.

Installing the Batteries

The radio battery shown above is a genuine Motorola supplied battery. Motorola supplies replacement batteries in the original battery was removed or the battery is empty. When the radio has one segment left, the battery will start to flash. When the battery is empty, it will beep 16 times, 15 seconds apart, and the battery will start to flash.

Removing the Battery Pack

To remove the battery pack, hold the radio with the back facing you and pull off the road and park before making or answering a call. This will ensure you are not disturbed by other users sharing the same frequency.

Lithium Ion Battery

Lithium Ion batteries are rechargeable and have a memory effect. This means that a Lithium Ion battery will lose its charge if it is not fully charged or if it is left connected to the charger for a long period of time. It is recommended to power OFF your radio while using non-Motorola batteries. If you are using non-Motorola batteries, please use batteries that are identical to the original battery and have the same specifications.

To remove the battery pack, hold the radio with the back facing you and pull off the road and park before making or answering a call. This will ensure you are not disturbed by other users sharing the same frequency.

Removing the Battery Pack

To remove the battery pack, hold the radio with the back facing you and pull off the road and park before making or answering a call. This will ensure you are not disturbed by other users sharing the same frequency.

Adding a Reflected Bandwidth Frequency (Optional Accessory)

Take the talk off.
2. Pull the belt clip from the back of the radio and remove the battery.
3. Press the “ON” button to turn the radio on and verify that the battery is charged.

Attaching and Removing the Belt Clip

1. Attach the talk off button to the back of the radio and remove the battery.
2. Push the release tab on tip of the belt clip to release the belt clip.
3. Push the release tab on tip of the belt clip to release the belt clip.

Battery Capacity Maintenance

1. Charge the NHM battery at least once every 21 days when not in use. Do not leave the battery uncharged for more than 15 days. Replacement of any high capacity NHM battery is subject to the rules & regulations of the Federal Communications Institute (IFT).
2. Do not leave the NHM battery at temperatures above 25°C for more than 21 days. Replacement of any high capacity NHM battery is subject to the rules & regulations of the Federal Communications Institute (IFT).

Using the Voice-USB-Charger

The voice USB-charger is a key feature that allows you to communicate while charging your battery. Use of Motorola radio in Argentina is subject to the rules & regulations of the National Communications Institute (INTEL). Use of Motorola radio in Colombia is subject to the rules & regulations of the National Telecommunications Commission (CNT). Use of Motorola radio in Chile is subject to the rules & regulations of the National Telecommunications Commission (CITEL). Use of Motorola radio in the Republic of Panama is subject to the rules & regulations of the National Telecommunications Commission (URSEC).

Selecting the Channel

Backpacks and packs can be used to provide additional battery capacity. There are a variety of packs available that can hold a backpack or a pack with additional battery packs. A pack with additional battery packs can hold a backpack and a pack with additional battery packs. The pack with additional battery packs can hold a backpack and a pack with additional battery packs.

Aircraft

When instructed to do so, turn off your radio when onboard an aircraft. Any use of a radio must be in accordance with applicable regulations per airline crew instructions.

When moving between hot and cold temperatures, do not exceed the 15-hour charging time.

Motorola supply replacement batteries in the original battery was removed or the battery is empty. When the radio has one segment left, the battery will start to flash. When the battery is empty, it will beep 16 times, 15 seconds apart, and the battery will start to flash.

Setting and Transferring Call Tones

To set a call tone:

1. Press two times until the code starts to flash.
2. Press or to turn On or Off.
3. Press the PTT button to set and exit menu.

Note:
To set a call tone, the Interference Eliminator Code must be set to 0 to communicate with radios that do not use Interference Eliminator Codes. (The model T200) until the appears. The current setting On/Off flashes.

Hands-Free Use Without Accessories (TTY)

Note:
TTY users are not available on model T80.

You can use any T80 or T80SP to transfer the settings of new or different accessories. Once you set the code, your radio will only accept accessories that you select as accessories in the TTY setting.

Note:
Setting all calls to Off disables the call tone feature.

Hands-Free Use Without Accessories (TTY)
