COMPANY SERVICES

Emergency Telecommunications Services (9-1-1 Emergency Services)

9-1-1 Emergency Services are telecommunications services that permit a Public Safety Answering Point (PSAP) to receive emergency calls placed by dialing the number 9-1-1, and/or permit emergency calls originated by personal communications devices.

9-1-1 Emergency Services include 9-1-1 Routing and Transfer Services that use a call routing system to either directly perform the selective routing of an emergency call to the appropriate PSAP, or may be used to hand-off the call to a separate 9-1-1 Service Provider for call completion to the appropriate 9-1-1.

9-1-1 Emergency Services include a data management service, a call delivery service, a call routing service, and a 9-1-1 Automatic Location Identification (ALI) service. The Customer is the Governing Authority that orders service and is responsible for the payment of the charges and compliance with the terms and conditions of the contracts entered into with Motorola Solutions Connectivity, Inc.

Facilities used in the provision of Motorola Solutions Connectivity, Inc.'s services are constructed to meet specifications negotiated by the Company and the Customer on an Individual Case Basis. Service is provided pursuant to contracts negotiated with the Customer. Service descriptions and rates are included in contracts along with terms and conditions of service, payment requirements, and limitations of liability.

All charges are offered to Customers in writing and on a nondiscriminatory basis.
