

ASSISTANCE TO FIREFIGHTERS GRANT

FY 2017 GRANT SOLICITATION

\$310.5 MILLION

Application period opens: Tuesday, December 26, 2017 at 8:00 a.m. ET

Application period closes: Friday, February 2, 2018 at 5:00 p.m. ET

GRANT HIGHLIGHTS

The FY 2017 AFG is a competitive discretionary grant program whose purpose is to enhance the health and safety of the public and firefighters with respect to fire and fire-related hazards by providing direct financial assistance to eligible fire departments, nonaffiliated EMS organizations, and state fire training academies. The objective of the program is to award grants for critically needed resources to equip and train emergency personnel to recognized standards, enhance operational efficiencies, foster interoperability, and support community resilience. Awards are made within three areas of eligible activities: Operations and Safety, Vehicle Acquisition and Regional Projects.

WHO CAN APPLY

The following entities are eligible to apply directly to FEMA for grant funding:

- Fire departments
- Nonaffiliated EMS
- State fire training academies

ELIGIBLE ACTIVITIES

Communications Equipment:

- All interoperable communications equipment must be APCO P25 compliant. No waivers will be granted for P25 compliance.
- Grantees that are using AFG funds to support emergency communications activities should comply with the FY 2017 SAFECOM Guidance for Emergency Communications Grants.
- Eligible communications equipment is considered a high funding priority, depending on the age of the equipment being replaced, and includes P25 compliant base stations, portable and mobile radios, mobile repeaters, pagers, mobile data terminals, and headsets. Additional justification should be provided for any amounts being requested beyond the base price for advanced features and functionalities.
- Ineligible communications equipment includes communications towers, sheds to house communications equipment, fixed non-mobile repeaters or fixed site amplifiers, computer assisted dispatch systems, dispatch consoles, and new or expanded communications projects that operate on the 700 MHz public safety broadband spectrum.

Maintenance and Sustainment Costs (e.g., maintenance agreements, service contracts, extended warranties, repairs, and user fees) are allowable, but the coverage period of stand-alone contracts or extensions to an existing one must not exceed the performance period of the grant. The only exception where coverage may exceed the performance period is when the maintenance contract or warranty is purchased incidental to the original purchase of the covered equipment and is consistent with that which is typically available through these types of agreements, warranties or contracts.

Pre-award Costs: Generally, grantees cannot use grant funds to pay for products and services contracted for or purchased prior to the effective date of the grant. However, on a case-by-case basis, expenses incurred after the application deadline, but prior to award, may be eligible for reimbursement if the expenses were justified, unavoidable, consistent with the grant’s scope of work, and specifically approved in writing by FEMA.

APPLICATION SELECTION PROCESS

Applications will be evaluated, in part, through a Peer Review Process based on the following criteria:

- Proposed project description and budget
- Financial need
- Cost/Benefit
- Effect on daily operations

MAXIMUM GRANT AWARDS BASED ON POPULATION

Population of jurisdiction served by recipient	Maximum Award in FY 2017	Statutory waiver available subject to extraordinary need?
100,000 or fewer people	No more than \$1 million	None available
100,001-500,000 people	No more than \$2 million	None available
500,001-1,000,000 people	No more than \$3 million	None available
1,000,001-2,500,000 people	No more than \$3.45 million	Yes, but no more than \$6 million
More than 2,500,000 people	No more than \$3.45 million	Yes, but no more than \$9 million

Regional applicants will be subject to the funding limitations based on the total population served by the host and participating partners.

COST SHARING/MATCH REQUIREMENTS

Cost sharing requirements for the AFG program are based on the population served by the grantee:

- 15% for populations greater than 1 million
- 10% for populations 20,000 to 1 million
- 5% for populations less than 20,000

GRANT AWARD DATE AND PERIOD OF PERFORMANCE

FEMA expects to make approximately 2,500 awards, which will be made on a rolling basis. The period of performance is 12 months from the date of award. Extensions to the period of performance will only be considered through formal requests to FEMA with specific and compelling justification as to why an extension is required. Extensions are considered on a case-by-case basis.

MOTOROLA SOLUTIONS OFFERS A PROVEN BASIS FOR YOUR APPLICATION

We offer a wide range of solutions that help fire and emergency medical services departments enhance their response capabilities to create safer cities and thriving communities.

- **Two-way Radios and Pagers** designed specifically for first responders to perform in harsh environments and provide vital voice communications. Multiple signaling protocols and operation in multiple frequency bands allow radio interoperability on various networks for mutual aid and disaster response.
- **Accountability Solutions** integrated into portable radios and the radio network to support fire ground operations.

WE CAN HELP YOU

Many Motorola Solutions products qualify for grant funding, but the grant application process can be challenging to navigate. To help you, we have partnered with the grant experts at FireGrantsHelp.com. Their team of funding experts identify which areas you are eligible for, answer your questions and offer insights on how to write an effective application. Also, additional information and resources can be found on our website: www.motorolasolutions.com/govgrants.

WHERE TO APPLY / ADDITIONAL RESOURCES

- Apply online [here](#) for FY 2017 AFG
- [Read the FY 2017 AFG Application Assistance Tools](#) including: FY 2017 AFG Notice of Funding Opportunity, AFG Application Checklist, AFG Grant Application Get Ready Guide, and AFG Narrative Get Ready Guide
- [Read the FY 2017 SAFECOM Guidance for Emergency Communications Grants](#)
- All applicants are required to have a DUNS (Data Universal Numbering System) number. For instructions to obtaining a DUNS number, [visit the website](#).
- Read the system for [Award Management \(SAM.gov\) registration instructions](#).
- AFG Help Desk is staffed throughout the application period to assist with the automated application and questions of eligibility. Call the Help Desk at 1-866-274-0960 or email FireGrants@fema.dhs.gov.
