

# Safer campuses

In today's world of unknowns, it can be challenging to oversee widespread, diverse areas of your campus. Your faculty and staff not only have to manage delivering quality lesson plans and fostering a welcoming environment for students, but they also must maintain campus-wide safety and security, anticipate unexpected events, and prepare to respond to emergencies. Whether experiencing campus violence, a student mental health crisis, a severe weather event, an active assailant threat or other disruptions, your campus' technology must support your top priorities.

# Create a learning environment where students flourish

## From the library to the dorms

From the moment a student steps foot on campus to when they receive their diploma, prepare your campus for challenges by connecting your critical communications, video security, access control, data and analytics. Our safety and security ecosystem works together to help your teams respond to and recognize patterns, anticipate actions and prevent situations before they escalate into emergencies.

If you need help with	Our ecosystem provides
Campus security	Connected communications and integrated technology at every layer, from your campus perimeter through to your lecture halls
Education disruptions	Critical task management and automated workflows to keep classes flowing and students learning
Campus communication	Mass notifications and alerts to keep your community informed in any situation
Effective emergency response	Public safety coordination and collaboration technology to provide authorities with situational intelligence to help better respond to campus emergencies

# Discover the technology that helps you tackle each challenge and turn it into a positive outcome

## Undisrupted education

- Efficient and unified staff communications that create a seamless experience for students and visitors
- Tactical incident management and workflow automation to ensure key stakeholders follow all necessary routine or critical incident response steps
- Body cameras to create transparency in on-campus interactions, capturing evidence and alerting designated staff upon activation
- An entire ecosystem of safety and security technologies working together to provide a safer environment for students, staff and visitors

## Public safety situational intelligence

- Incident management software for incident and records management to enhance response and reduce risk
- Situational awareness software to remotely assist officers when they reach campus grounds to locate, track and map incidents
- Access control to unlock specific doors and entry points when authorities arrive on campus
- Smart 911 integration to give 9-1-1 telecommunicators improved, consolidated location, real-time situational awareness, critical on-scene/building information (such as occupancy, alarm information, evaluation routes, geo-referenced floor plans, important details about students, staff, mental and medical conditions, etc.) for more accurate dispatch and drastically reduced response times

## Utmost student and staff safety

- Panic buttons empower faculty and staff to get help instantly with the push of a button

- Body cameras provide an unbiased witness in the case of a disruptive individual
- Video security for visibility across vast areas to identify anomalies and enable 24/7 situational awareness
- Access control that secures entry points and automatically alerts when a door is propped open or breached
- AI-powered video analytics identify banned individuals, vehicle license plates, weapons or unusual activity
- Mass notifications via text, email and voice that notify the right people with the right information at the right time
- Gunshot, vape, temperature and chemical detection sensors to immediately alert staff
- Anonymous tipping capabilities for students to report threats or bullying incidents
- Campus-branded student safety apps with a virtual escort, mobile blue lights and panic buttons, emergency contact information, reporting capabilities, and much more

## Reliable and efficient alerting

- Mass notifications to instantly notify students, staff, parents, guardians and community members of incidents, statuses, important announcements, or other relevant information whether they're on or off campus
- Unify devices and notify via text, voice and/or email
- Text to opt-in features that integrate into your mass notification systems and allow institutions to temporarily communicate with campus visitors and ensure everyone on your campus will be informed
- Anonymous tipping capabilities to report suspicious activity or information about threats to campus safety

## Key ecosystem components recommended for safer campuses

### Avigilon video security & access control

Strengthen safety and elevate your campus experience with integrated video security and access control systems built to secure vulnerable areas and provide frictionless access.

- Complete situational awareness
- Cloud versatility
- Driven by AI
- Manage from anywhere

### Body cameras

Having an objective, unbiased witness matters. Our body cameras can capture evidence-grade video of any situation, from hallway altercations to incidents in the commons.

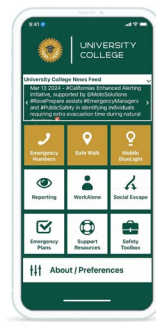

- Maintain evidential integrity
- Rugged and intuitive design
- Pre and post recording
- Video redaction capabilities

### MOTOTRBO radios

Communications to instantly and reliably connect your security, administration, bus drivers and staff – so you and your team are always aware. Ensure your team can hear and be heard, loud and clear, across campus.

- Durable and easy to use
- Pristine audio quality
- Long battery life
- Full multimedia and app capabilities

### Rave AppArmor

Empower students and staff to feel safe and informed with a custom-branded safety app filled with dozens of safety features including friend walk, mobile blue light/panic button/reporting capabilities, content management and more.

- Unmatched reliability
- Easy-to-use interface
- Scalable communication
- Robust reporting
- Wi-Fi based and flexible
- Robust reporting

# Take your campus' safety & security to the next level

From inspiration to graduation, formals to finals, safer campuses help professors inspire and students thrive. Our safety and security ecosystem helps nurture the next generation of thinkers by bringing together the technologies and solutions you need to keep your campus safer. Because the only thing students should have to worry about is their next exam.
