

The power of Avtec + Rave Mobile Safety

Trimming down response times with technology

The Rave suite and Avtec Scout dispatch consoles are both tools which will help organizations communicate critical information quickly and clearly. Together Avtec Scout, Rave Alert and Rave Collaborate can be combined to help improve coordination, consolidate communication and reduce the steps needed to get help to those in need.

Avtec Scout can handle a broad range of business and mission-critical communications needs — bringing together your radio, telephony, broadband and LTE technologies. You can also access Rave Alert directly on your Scout screen to quickly send targeted messages and mass notifications. Take coordination and automation a step further by adding Rave Collaborate to manage communications plans, assign and verify completed tasks, monitor events, automate reminders and more.

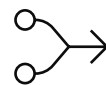

Simplify

Consolidate the steps needed to communicate quickly.

Notify

Provide incident awareness to multiple groups of people quickly and initiate downstream systems.

Automate

Digitize and automate your standard operating procedures for advanced, after-action reporting.

Discover the power of Rave + Avtec by numbers
