· 25 · 26 · 27 · 28 · 29		The Trust Center contains security and privacy settings. These settings help keep your computer secure. We recommend that you do not change these settings.	er Setting	gs

*Set ActiveX setting as follows:

*Set Macro setting as follows:

*Set External Contents as follows:

* There is an additional step to check on Internet Explore (IE) browser settings. Open IE and Clink on the Internet Options.

* Following screen will come. Then navigate to "Security Tab". Select zone as "Internet" and click on "Custom Level":

*Scroll down and then "Enable" the "Allow status bar updates via script" option.

*Click OK. System will come back to the previous screen. *Click on OK/Apply in that screen to close that.
