

Dear Valued Supplier,

We're excited to announce that we've officially gone live in North America with **Coupa**, our new procurement platform replacing **iProcurement!**

Coupa will serve as our centralized system for purchasing, invoicing, and supplier collaboration. This transition is an important step toward improving efficiency, transparency, and the overall ease of doing business with us.

To ensure uninterrupted transactions, please complete the setup of your **Coupa Supplier Portal (CSP)** account.

What You Need to Do:

1. Click "Join Coupa" or "Log In" on your CSP invitation.
2. Set your password and complete your account setup, including updating your profile and setting up your Legal Entity and Remit-To addresses
3. Watch the [CSP Demo Webinar](#) for additional guidance on account setup.

Note: All open iProcurement purchase orders have been converted to Coupa with the same PO number and will be available for invoicing in the CSP.

Additional CSP Resources:

- [Get Help from Coupa on the CSP](#)
- [Coupa CSP & Invoicing FAQs](#)
- [Merge or Combine CSP Accounts](#)
- [Join a CSP Webinar provided by Coupa](#)

If you have any questions or need additional assistance, please contact us at Supplier.Connect@motorolasolutions.com.

Thank you for your ongoing support and partnership as we transition to Coupa. MSI Global Procurement Team
