

Dear Supplier,

We're excited to announce that we've officially gone live in North America with **Coupa**, our new procurement platform replacing **iProcurement!**

**Coupa** will serve as our centralized system for purchasing, invoicing, and supplier collaboration. This transition is an important step toward improving efficiency, transparency, and the overall ease of doing business with us.

### **Key Reminders**

- You have been enabled as a **SAN (Supplier Actionable Notification)** supplier
- As a **SAN** enabled supplier, you will receive POs directly from MSI in email. Invoices can be created directly using the "Create Invoice" option in the email notification.
- **No cost to you** – There are no fees for using SAN.
- **Open iProcurement POs** have been converted into Coupa using the same PO number.
- You will receive email copies of open POs. Invoices can be created directly using the "Create Invoice" option in the notification.
- Want to be able to receive POs, submit invoices, and track invoice payment all from a centralized portal? Register for a CSP account, at no cost to you!

### **What you need to do:**

1. Watch for orders at the PO email address you provided on your registration form.
2. Review the attached Quick Reference Guide for step-by-step instructions as needed.

If you have any questions or need assistance after go-live, please contact us at [Supplier.Connect@motorolasolutions.com](mailto:Supplier.Connect@motorolasolutions.com).

Thank you again for your ongoing support.

Sincerely,  
MSI Global Procurement Team
