

MEET APX N

THE BEST OF APX, NOW EVEN BETTER

OUR FAMILY OF APX RADIOS JUST GOT **BIGGER**

COMMITTED TO CONTINUOUSLY
EVOLVING TO MEET YOUR NEEDS.

We've put everything we've learned over the last 90 years into our APX portfolio, which is why it represents the very best of what Motorola Solutions does. Our APX N line, made up of the APX NEXT series, APX N70, APX N50 and APX N30, expands next generation functionality to all field users. With evolved radio interaction, audio loudness and clarity, you can keep your communications secure and your teams connected and collaborating.

APX NEXT Series

An all-band, fully featured radio series. Delivering performance advancements and new intelligence to every aspect of the radio experience for first responders — including law enforcement and firefighters. Models include APX NEXT, APX NEXT XE and APX NEXT XN.

APX N70

A single-band radio that gives public safety users the mission-critical communications and real-time information they need to respond quickly. Designed to be inherently rugged with ultimate connectivity, it offers optional LTE, WiFi and smart applications to enhance in-field intelligence.

APX N50

A slim yet tough single-band radio providing public safety and support staff with secure, reliable communications so they can stay connected and keep collaborating in the field. It provides a simple layout, loud audio, MACE hardware encryption and efficient batch programming capabilities to keep your fleet connected and collaborative.

APX N30

A single-band radio that connects your teams to reliable P25 radio communications with the essential features they need and nothing that they don't. The ideal solution for mobile workers looking for durable APX performance in a pared down, cost effective package.

OUR EVOLVING LINEUP JUST GOT BETTER

The lessons learned that we've had through the years on the APX platform are now on the APX NEXT, APX N70, APX N50, APX N30 radios. We are building customer value into our technology through relationships fostered and developed with our customers over decades. Design technology innovation with a purpose - solving customer issues, plain and simple.

NEXT GEN FEATURES

Stay Connected To Your Lifeline

SmartConnect automatically switches your voice channel to a broadband or WiFi connection whenever LMR is unavailable or falls below RSSI, then back again when you return coverage on your APX N radios.

Track Your Location With Pinpoint Accuracy

SmartLocate routes APX NEXT and APX N70 locations quickly over LTE. Benefiting field users and dispatch requiring rapid updates of the location of personnel.

Efficient Programming & Fleet Management

To increase efficiency with batch programming and fleet management, the APX N Series can be managed by CPS for one-by-one offline programming or on Radio Management for quick batch programming over WiFi or LMR via OTAP.

Need Help Kickstarting Your Next Radio Investment?

Did you know that Motorola Solutions has partnered with grant experts over at Lexipol to provide agencies just like yours [free grant assistance](#)? Whether you're looking to kickstart the grant process or adding finishing touches to your grant application, we're here to help.
