

Operational View

DETECT

INDIVIDUAL RECOGNISED

The license plate of a known disruptive individual is recognised entering a parking lot. An alert is automatically sent to appropriate security staff directly on their device of choice and in the command center.

ANALYZE

KNOWN INDIVIDUAL LOCATED

Nearby cameras are populated and security teams monitor the movement of the banned individual. Nearest security resources are located.

COMMUNICATE

SECURITY TEAMS DISPATCHED

Live video and intelligence is shared with security staff monitoring building entrances to intercept the individual and prevent them from entering the facility. Public Safety is also directly alerted for assistance.

RESPOND

SITUATION CONTAINED AND REPORTED

The banned individual is prevented from entering the facility and real-time intelligence is shared with public safety prior to their arrival. An incident report is securely logged with relevant information.
