

USE CASE LOST CHILD

Safer Hospitality

Operational View

DETECT

LOST CHILD REPORTED

A child is reported lost by their guardian to a nearby security officer or employee. An image of the child is provided and shared with appropriate staff.

ANALYZE

SEARCH INITIATED WITH VIDEO ANALYTICS

Using the provided image of the child, security teams can leverage the child's appearance, shoes, or clothing, etc. as an identifying characteristic to begin an area search using video analytics.

COMMUNICATE

INTELLIGENCE SHARED WITH FIELD

Using two-way radios, security teams are notified on where to begin the search. The image of the child is broadcasted to the entire security team and updates are continuously provided to relevant teams.

RESPOND

SITUATION RESOLVED AND DOCUMENTED

The lost child is located and returned to their guardian. An incident report is securely documented with all relevant information.
