

# USE CASE THEFT RESPONSE

Safer Hospitality

## Operational View

### DETECT

#### UNUSUAL SITUATION RECOGNISED

A vehicle is detected driving the wrong way in a parking lot. An alert is automatically sent to security directly on their device of choice and in the command center.

### ANALYZE

#### SUSPICIOUS ACTIVITY OBSERVED

Security teams instantly populate all nearby cameras to evaluate the situation and observe individuals attempting to break into vehicles. Nearest security resources are located.

### COMMUNICATE

#### SECURITY TEAMS AND PUBLIC SAFETY NOTIFIED

Security teams are dispatched to the appropriate location and situational intelligence is continuously provided to relevant teams and local public safety is directly notified.

### RESPOND

#### SITUATION CONTAINED AND REPORTED

Appropriate gates are closed off and the individual is detained. Video footage is compiled and delivered to local law enforcement. An incident report is filed with relevant information and shared with nearby sister-facilities.
