

USE CASE SECURE AREA MONITORING

Safe Hospitality

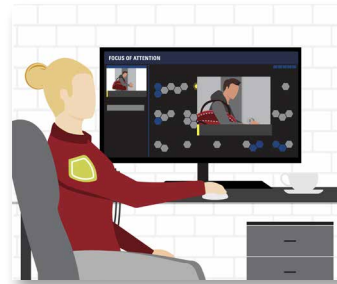

Operational View

DETECT

ACCESS CONTROL BREACH RECOGNISED

Security teams receive an alert of a door breach in a secure area directly on the device of their choice and in the security operations room.

ANALYSE

SITUATIONAL AWARENESS GATHERED

Relevant cameras are populated and the intruder is tracked throughout the facility and location of closest resources is determined.

COMMUNICATE

RELEVANT PERSONNEL ENGAGED

An image of the intruder is distributed to security teams and the path of the intruder is continuously updated to assist in interception.

RESPOND

INCIDENT CONTAINED AND REPORTED

Security teams confront the intruder and escort them off the premises. An incident is logged with all relevant data.
