- Raised full-year revenue and earnings guidance: revenue growth of approximately 8%, up from the prior guidance of approximately 7%, and non-GAAP EPS between $10.03 and $10.13 per share, up from the prior guidance of between $9.80 and $9.95.

DRIVING ROBUST SOFTWARE GROWTH

Our investments in AI and cloud continue to drive robust software growth for the company. Customers like Greenville County Schools in South Carolina depend on our video security and access control technologies to help keep students safe, and the City of Houston is deploying more than 3,000 body-worn cameras with cloud-based evidence management to help provide greater accountability and transparency. And with acquisitions such as Ava Security and Calipsa, we’re well positioned to accelerate the deployment of cloud video software solutions with customers around the world.

We have not quantitatively reconciled our guidance for forward-looking non-GAAP measures to their most comparable GAAP measures because we do not provide specific guidance for the various reconciling items as certain items that impact these measures have not occurred, are out of our control, or cannot be reasonably predicted. Accordingly, a reconciliation to the most comparable GAAP financial measure is not available without unreasonable effort. Please note that the unavailable reconciling items could significantly impact our results.
